Convenience Translation of the Independent Auditors' Report Originally Prepared
and Issued in Turkish to English

To the Shareholders' of Arap Türk Bankası Anonim Şirketi

A) Report on the Audit of the Unconsolidated Financial Statements

Opinion

We have audited the unconsolidated financial statements of Arap Türk Bankası A.Ş. ("the Bank") which comprise the unconsolidated balance sheet as at 31 December 2022 and the unconsolidated statement of profit or loss, unconsolidated statement of profit or loss and other comprehensive income, unconsolidated statement of changes in shareholders' equity, unconsolidated statement of cash flows for the year then ended, and notes, comprising significant accounting policies and other explanatory information.

In our opinion, the accompanying unconsolidated financial statements present fairly, in all material respects, the unconsolidated financial position of Arap Türk Bankası A.Ş. as at 31 December 2022, and its unconsolidated financial performance and its unconsolidated cash flows for the year then ended in accordance with the "Banking Regulation and Supervision Agency ("BRSA") Accounting and Reporting Legislation" which includes the "Regulation on Accounting Applications for Banks and Safeguarding of Documents" published in the Official Gazette No. 26333 dated 1 November 2006, and other regulations on accounting records of Banks, circulars and interpretations published by BRSA and requirements of Turkish Financial Reporting Standards for the matters not regulated by the aforementioned legislations.

Basis for Opinion

We conducted our audit in accordance with the "Regulation on Independent Audit of the Banks" ("BRSA Auditing Regulation") published in the Official Gazette No.29314 dated 2 April 2015 by BRSA and Standards on Auditing which is a component of the Turkish Auditing Standards published by the Public Oversight Accounting and Auditing Standards Authority ("POA") ("Standards on Auditing issued by POA"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Unconsolidated Financial Statements section of our report.

We declare that we are independent of the Group in accordance with the Code of Ethics for Auditors issued by POA (including Independence Standards) ("POA's Code of Ethics") and the ethical requirements in the regulations issued by POA that are relevant to audit of unconsolidated financial statements, and we have fulfilled our other ethical responsibilities in accordance with the POA's Code of Ethics and regulations. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the unconsolidated financial statements of the current period. These matters were addressed in the context of our audit of the unconsolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Impairment of loans measured at amortised cost

The details of accounting policies and significant estimates and assumptions for impairment of loans measured at amortised cost are presented in Section III, No: VII of the unconsolidated financial statements.

Key audit matter	How the matter is addressed in our audit
<p>As of 31 December 2022, loans measured at amortised cost comprise 30% of the Bank's total assets.</p> <p>The Bank recognizes its loans in accordance with the Regulation on the Procedures and Principles for Classification of Loans by Banks and Provisions to be set aside (the "Regulation") published on the Official Gazette No. 29750 dated 22 June 2016 and TFRS 9 Financial Instruments standard ("Standard").</p> <p>The Bank applies the "expected credit loss model" in determining the impairment of financial assets in accordance with the Regulation and Standard. The model which contains significant assumptions and estimates is reviewed by the Bank management annually.</p> <p>The significant assumptions and estimates of the Bank's management are as follows:</p> <ul style="list-style-type: none"> -significant increase in credit risk; -incorporating the forward-looking macroeconomic information in calculation of credit risk; and -design and implementation of expected credit loss model. <p>The determination of the impairment of loans measured at amortised cost depends on the (i) credit default status, (ii) the model based on the change in the credit risk at the first recognition date and (iii) the classification of the loans measured at amortised cost according to the model. Establishing an accurate classification is a significant process as the calculation of expected credit loss varies to the staging of the financial assets.</p>	<p>Our procedures for testing the impairment of loans included below:</p> <ul style="list-style-type: none"> • We tested the design and operating effectiveness of the controls on lending, collateralization, collection, follow-up, classification and impairment procedures are tested with the involvement of information risk management specialists. • We evaluated the adequacy of the subjective and objective criteria that is defined in the Bank's impairment accounting policy compared with the Regulation and Standard. • We evaluated the Banks's business model and methodology and the evaluation of the calculations were carried out with the control testing and detailed analysis by the involvement of specialist. • We performed loan reviews for selected loan samples which include a detailed examination of loan files and related information and testing their classification. In this context, the current status of the loan customer has been evaluated on prospective information and macroeconomic variables. • We evaluated the accuracy of the expected credit loss calculations by selecting sample for the loans which are assessed on individual basis assumptions and estimates.

<p>The Bank calculates expected credit losses on both an individual and a collective basis. Individual provisions consider the estimated future performance of the business and the fair value of the collateral provided for credit transactions.</p> <p>The collective basis expected credit loss calculation is based on complex processes which are modelled by using current and past data sets and expectations. The completeness and accuracy of data sets in the model are also considered and the forward looking expectations are reflected by macroeconomic models.</p> <p>Impairment on loans measured at amortised cost was considered to be a key audit matter, due to the significance of the estimates, assumptions, the level of judgements and its complex structure as explained above.</p>	<ul style="list-style-type: none">• We tested the accuracy and completeness of the data in the calculation models for the loans which are assessed on collective basis. The expected credit loss calculation was tested through recalculation. The models used for the calculation of the risk parameters were examined and the risk parameters for the selected sample portfolios were recalculated.• We evaluated the adequacy of the unconsolidated financial statements disclosures related to impairment provisions.
--	--

Responsibilities of Management and Those Charged with Governance for the Unconsolidated Financial Statements

Management is responsible for the preparation and fair presentation of these unconsolidated financial statements in accordance with the "BRSA Accounting and Reporting Legislation", and for such internal control as management determines is necessary to enable the preparation of unconsolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the unconsolidated financial statements, management is responsible for assessing the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Bank or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Bank's financial reporting process.

Auditors' Responsibilities for the Audit of the Unconsolidated Financial Statements

Responsibilities of auditors in an audit are as follows:

Our objectives are to obtain reasonable assurance about whether the unconsolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with TSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these unconsolidated financial statements.

As part of an audit in accordance with TSAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the unconsolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bank's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Bank's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the unconsolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Bank to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the unconsolidated financial statements, including the disclosures, and whether the unconsolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the unconsolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

B) Report on Other Legal and Regulatory Requirements

1) Pursuant to the fourth paragraph of Article 402 of the Turkish Commercial Code ("TCC") No. 6102; no significant matter has come to our attention that causes us to believe that the Bank's bookkeeping activities for the period 1 January - 31 December 2022 are not in compliance with TCC and provisions of the Bank's articles of association in relation to financial reporting.

2) Pursuant to the fourth paragraph of Article 402 of the TCC; the Board of Directors provided us the necessary explanations and required documents in connection with the audit.

Additional paragraph for convenience translation to English:

The accounting principles summarized in Note I Section Three, differ from the accounting principles generally accepted in countries in which the accompanying unconsolidated financial statements are to be distributed and International Financial Reporting Standards ("IFRS"). Accordingly, the accompanying unconsolidated financial statements are not intended to present the financial position and results of operations in accordance with accounting principles generally accepted in such countries of users of the unconsolidated financial statements and IFRS.

SECTION THREE

EXPLANATIONS ON ACCOUNTING POLICIES

I. EXPLANATIONS FOR BASIS OF PRESENTATION

The unconsolidated financial statements are prepared within the scope of the “Regulation on Accounting Applications for Banks and Safeguarding of Documents” related with Banking Act numbered 5411 published in the Official Gazette no.26333 dated 1 November 2006 and other regulations related to reporting principles on accounting records of Banks published by Banking Regulation and Supervision Agency and circulars and interpretations published by Banking Regulation and Supervision Authority (together referred as BRSA Accounting and Reporting Legislation) and in case where a specific regulation is not made by BRSA, Turkish Accounting Standards and Turkish Financial Reporting Standards (“TFRS”) and related appendices and interpretations (referred as “Turkish Accounting Standards” or “TAS”) put into effect by Public Oversight Accounting and Auditing Standards Authority (“POA”) (all referred as “Reporting Standards”).

The format and content of the publicly announced unconsolidated financial statements and notes to these statements have been prepared in accordance with the “Communiqué on Publicly Announced Financial Statements, Explanations and Notes to These Financial Statements”, published in Official Gazette no. 28337, dated 28 June 2012, and amendments to this Communiqué. The Bank maintains its books in Turkish Lira in accordance with the Banking Act, Turkish Commercial Code and Turkish Tax Legislation.

Pursuant to the announcement made by the POA on January 20, 2022, It has been stated that businesses applying TFRS will not need to make any adjustments in their financial statements for 2022 within the scope of TAS 29 Financial Reporting Standard in High Inflation Economies. Therefore, no inflation adjustment was made according to TAS 29 while preparing the financial statements as of 31 December 2022.

The accompanying unconsolidated financial statements are prepared in accordance with the historical cost basis except for financial assets measured at fair value through other comprehensive income and real estates which are presented on a fair value basis.

The preparation of financial statements requires the use of certain critical estimates on assets and liabilities reported as of balance sheet date or amount of contingent assets and liabilities explained and amount of income and expenses occurred in related period. Although these estimates rely on the management’s best judgment, actual results can vary from these estimates. Judgements and estimates are explained in related notes.

For a correct perception of the financial statements, the accounting policies and valuation principles are explained between in Notes No. II and XXIII.

New and revised Turkish Accounting Standards effective for annual periods beginning on or after 1 January 2022 have no material effect on the financial statements, financial performance and on the Bank’s accounting policies. New and revised Turkish Accounting Standards issued but not yet effective as of the finalization date of the financial statements have no material effect on the financial statements, financial performance and on the Bank’s accounting policies.

SECTION THREE

EXPLANATIONS ON ACCOUNTING POLICIES

II. INFORMATION ON STRATEGY FOR THE USE OF FINANCIAL INSTRUMENTS AND FOREIGN CURRENCY TRANSACTIONS

The Bank’s core business operation is banking activities including corporate banking, commercial banking, retail banking and security transactions (treasury transactions) together with international banking services. The Bank uses financial instruments intensively because of the nature of the Bank. The main funding resources are deposits, borrowing and equity and these resources are invested in qualified financial assets. The Bank follows the utilization of resources and the risk and return for the investments in various financial assets through an effective asset and liability management strategy.

The transactions in foreign currency are recorded in accordance with “TAS 21 - Effects of Exchange Rate Changes”. Related gain and loss occurred due to the changes in exchange rates resulted by the foreign currency transactions are translated into Turkish Lira over the effective exchange rate prevailing at the date of the transaction and is recorded accordingly.

At the end of the related periods, foreign currency assets and liability balances outstanding are translated into Turkish Lira over the Bank’s exchange rates prevailing at the balance sheet date and the resulting exchange rate differences are accounted as foreign exchange gains and losses.

III. EXPLANATIONS ON INVESTMENTS IN ASSOCIATES AND SUBSIDIARIES

Subsidiaries are the entities that the Bank has the power to govern the financial and operating policies of those to obtain benefits from its activities. Subsidiaries are accounted in accordance with “TAS 27 - Individual Financial Statements” in the unconsolidated financial statements. Subsidiaries are recorded at fair value. Subsidiaries which are not traded in an active market and whose fair value cannot be reliably set are reflected in financial statements with their costs after deducting impairment losses, if any.

SECTION THREE

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

IV. INFORMATION ON FORWARD TRANSACTIONS, OPTIONS AND DERIVATIVE INSTRUMENTS

Derivative financial instruments of the Bank are classified under “IFRS 9 Financial Instruments” (“IFRS 9”), “Derivative Financial Assets Designated at Fair Value through Profit or Loss”.

Derivatives are initially recorded at their purchase costs including the transaction costs. The notional amounts of derivative transactions are recorded in off-balance sheet accounts based on their contractual amounts.

The derivative transactions are measured at fair value subsequent to initial recognition and if the fair value of a derivative financial instrument is positive, it is disclosed under trading derivative financial assets and if the fair value difference is negative, it is disclosed under trading derivative financial liabilities.

Gains and losses arising from a change in fair value of trading derivatives after the re-measurement are accounted in the statement of profit or loss. The fair value of the derivative financial instruments is calculated using market prices by using discounted cash flows model.

V. INFORMATION ON INTEREST INCOME AND EXPENSE

Interest income and expense are recognized according to the effective interest method based on accrual basis. Effective interest rate is the rate that discounts the expected cash flows of financial assets or liabilities during their lifetimes to their carrying values. Effective interest rate is calculated when a financial asset or a liability is initially recorded and is not modified thereafter.

The computation of effective interest rate comprises discounts and premiums, fees and commissions paid or received and transaction costs. Transaction costs are additional costs that are directly related to the acquisition, issuance or disposal of financial assets or liabilities.

VI. INFORMATION ON FEES AND COMMISSION

Fees and commission received and paid are recognized according to either accrual basis of accounting or effective interest method depending on nature of fees and commission; incomes derived from agreements and asset purchases for third parties are recognized as income when realized.

VII. INFORMATION ON FINANCIAL ASSETS

Financial assets are recognized or derecognized according to IFRS 9 Financial Instruments Part 3 Recognition and Derecognition. Financial assets are measured at fair value at initial recognition in the financial statements. During the initial recognition of financial assets other than “Financial Assets at Fair Value Through Profit or Loss”, transaction costs are added to fair value or deducted from fair value. They are included in the balance sheet of the group if the Parent Bank is a legal party to these instruments.

The Bank categorizes its financial assets as “Fair Value Through Profit/Loss”, “Fair Value Through Other Comprehensive Income” or “Measured at Amortized Cost”. Financial instruments comprise financial assets and liabilities and derivative instruments. This classification is based on the contractual cash flow characteristics of the related business model used for management of the financial assets at initial recognition.

SECTION THREE

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

VII. INFORMATION ON FINANCIAL ASSETS (Continued)

a. Financial Assets at Fair Value through Profit or Loss

“Financial assets at fair value through profit/loss” are financial assets that are either acquired for generating a profit from short term fluctuations in prices or are financial assets included in a portfolio aiming to short-term profit making.

Financial assets at the fair value through profit or loss are initially recognized at fair value and remeasured at their fair value after recognition. All gains and losses arising from these valuations are reflected in the statement of profit or loss.

Government bonds and treasury bills included in Financial Assets at Fair Value through Profit or Loss and Financial Assets at Fair Value Through Other Comprehensive Income portfolios traded in BIST are carried at weighted average exchange rates of BIST as of the balance sheet date and those securities that are not traded in BIST are carried at other valuation models. All gains and losses arising from these valuations are reflected in the statement of profit or loss.

b. Financial Assets at Fair Value Through Other Comprehensive Income

In addition to financial assets within a business model that aims to hold to collect contractual cash flows and aims to hold to sell, financial asset with contractual terms that lead to cash flows are solely payments of principal and interest at certain dates, they are classified as fair value through other comprehensive income.

Financial assets at fair value through other comprehensive income are recognized by adding transaction cost to acquisition cost reflecting the fair value of the financial asset. After the recognition, financial assets at fair value through other comprehensive income are remeasured at fair value. Interest income calculated with effective interest rate method arising from financial assets at fair value through other comprehensive income and dividend income from equity securities are recorded to statement of profit or loss. “Unrealized gains and losses” arising from the difference between the amortized cost and the fair value of financial assets at fair value through other comprehensive income are not reflected in the statement of profit or loss of the period until the acquisition of the asset, sale of the asset, the disposal of the asset, and impairment of the asset and they are accounted under the “Accumulated other comprehensive income or expense to be reclassified through profit or loss” under shareholders’ equity. When these securities are collected or disposed of, the accumulated fair value differences reflected in the shareholders' equity are reflected to the statement of profit or loss.

Subsequent amendments to the values of investments in equity instruments are not reflected in the statement of profit or loss except for the dividend.

At initial recognition, it can be made an irrevocable election to present in other comprehensive income subsequent changes in the fair value of an investment in an equity instrument that is neither held for trading nor contingent consideration recognized by an acquirer in a business combination to which TFRS 3 applies.

SECTION THREE

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

VII. INFORMATION ON FINANCIAL ASSETS (Continued)

Financial Assets at Fair Value Through Other Comprehensive Income (Continued)

The subsequent measurement of financial assets at fair value through other comprehensive income is based on fair value. However, when calculating the fair value for securities without a market price, any of the pricing models or discounted cash flow techniques are used in accordance with the type of the security.

c. Financial Assets Measured at Amortized Cost

Financial assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are classified as financial assets measured at amortized cost.

Financial assets measured at amortized cost are initially recognized at acquisition cost including the transaction costs which reflect the fair value of those instruments and subsequently recognized at amortized cost by using effective interest rate method. Interest income obtained from financial assets measured at amortized cost is accounted in statement of profit or loss.

d. Loans

Loans are financial assets that have fixed or determinable payments terms and are not quoted in an active market. Loans are initially recognized at acquisition cost plus transaction costs presenting their fair value and thereafter measured at amortized cost using the “Effective Interest Rate Method”.

Bank loans and receivables are initially carried at cost value. Bank loans are measured at amortized cost with internal rate of return. Fees paid for the assets received as collateral against loans, transaction costs and other costs such as transaction costs, it is a part of and charged to the customer.

Bank’s loans are recorded under the “Measured at Amortized Cost” account.

SECTION THREE

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

VII. INFORMATION ON FINANCIAL ASSETS (Continued)

e. Impairment

The Bank recognizes an impairment for financial assets measured at amortized cost and at fair value through other comprehensive income.

As of 1 January 2018, the Bank recognize provisions for impairment in accordance with TFRS 9 requirements according to the “Regulation on the Procedures and Principles for Classification of Loans by Banks and Provisions to be set aside” published in the Official Gazette dated 22 June 2016 numbered 29750. Method of provisions for impairment as set out in accordance with the related legislation of BRSA is changed by applying the expected credit loss model under TFRS 9. Expected loss estimate is unbiased, weighted by probabilities and includes supportable information about estimates of past events, current conditions and future economic conditions.

The expected credit loss model includes instruments that are recorded at amortized cost or at fair value in other comprehensive income tables (such as bank deposits, loans and securities) and, in addition, financial lease receivables that are not measured at fair value through profit or loss, credit commitments and financial guarantee contracts.

Expected credit loss is an estimate of the expected credit losses over the life of a financial instrument also the following aspects are important for the measurement.

- 1) Probability-weighted and neutral amount determined by taking into account possible outcomes,
- 2) Time value of money,
- 3) Reasonable and supportable information on past events, current conditions and forecast of future economic conditions, at the time of reporting, without excessive cost and effort.

The expected 12 monthly credit loss values are part of the life expectancy loss calculation (within 12 months after the reporting date or within a shorter period if the life of a financial instrument is shorter than 12 months).

The main theme of the expected credit loss model can reflect the deterioration of the quality of financial instruments or the general view of recovery. The amount of expected credit loss, known as loss allowance or allowance, depends on the degree of credit deterioration. There are two measurements according to the general approach:

12-Month Expected Loss (1st Stage) is valid for all assets unless there is a significant deterioration in the quality of the loan.

Lifetime Expected Loss (2nd and 3rd Stage) is applied when a significant increase in credit risk occurs.

The following parameters are used in the calculation of expected credit loss;

Probability of Default: It denotes the possibility of default of the loan in the related term. The Bank's internal ratings are used in the calculation of the probability of default.

Loss in case of default refers to the expected loss rate from the loan in case of default

Default Amount: refers to the risk balance for cash loans and the risk balance calculated by using the credit conversion rate for non-cash loans.

SECTION THREE

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

VII. INFORMATION ON FINANCIAL ASSETS (Continued)

e. Impairment For Expected Loss (Continued)

Individual Evaluation

A credit loss can be defined as the difference between all contractual cash flows that are outstanding under the contract and the original expected EIR (Effective Interest Rate) value and discounted cash flows. When cash flows are estimated, the following conditions are taken into account.

- a) All contractual terms of the financial intermediary during the expected lifetime of the financial instrument.
- b) Cash flows from collateral sales

Definition of Default

The debtor can be considered as the Stage 3 under conditions where the debtor fails to pay his obligations regardless of past due and the guarantees the debtor has.

These conditions have stated below:

- 1) To have a past due more than 90 days.
- 2) The decision taken for bankruptcy or concordatum registration.
- 3) To have a loan classified as standard receivable by restructuring while monitored as non-performing loan and to have a past due more than 30 days of principal and/or interest payment delayed within the 1 year monitoring period or to have a loan restructured once more during this monitoring period.
- 4) Other neutral criteria deemed appropriate by management

Significant increase in credit risk definition

Loans are designated as the First Group (Standard loans), the Second Group (loans under close monitoring), the Third Group (loans with limited collection), the Fourth Group (loans in suspicious cases where the loss is expected) and the fifth group (Losses).

In this context, in the criteria applied for the loans classified in the first Group; the issue of future payment issues is not expected and the credit worthiness of the borrower of the loan has not weakened. In accordance with TFRS 9, loans subject to 12-month credit impairment are classified under the First Group (Stage 1).

The criteria applied for the credits classified in the Stage 2 are; unfavourable developments in debt payment or cash flows of debtors are observed or anticipated, problems arises in principal and / or interest payments in accordance with the terms of the loan agreement and the credit risk of the borrower is considerably increased. In accordance with TFRS 9, loans classified in the Stage 2 are subject to the provision of an expected lifetime loan loss provision.

The conditions for the loans classified in the stage 2 are stated below;

1. Past due more than 30 days,
2. The subject of in-bank restructuring,
3. Bankruptcy / concordatum registration
4. High level negative investigation
5. Restructured

Loans classified as third, fourth and fifth groups are considered as non-performing loans. In accordance with TFRS 9, these loans, which are subject to a lifetime impairment application, are classified under the Stage 3.

The relevant Staging criteria and default definitions are set out in accordance with TFRS 9 regulation and specified in the monitoring policies.

SECTION THREE

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

VII. INFORMATION ON FINANCIAL ASSETS (Continued)

e. Impairment For Expected Loss (Continued)

Under the contractual cash flows, the cash flows from the sale of the collateral and the cash flows from the loans are also taken into account.

In accordance with TFRS 9, probability-weighted scenarios are taken into account over the expected life of the financial instrument in order to estimate the expected losses. The assessment consists of an assessment of the possible outcomes, including the amount and timing of cash flows for certain outputs and the identification of possible scenarios that indicate the estimated likelihood of that outcome.

The Bank's loans have been evaluated and classified as of 31 December 2022 in line with the Regulation on the Classification of Loans and the Procedures and Principles Regarding Provisions to be Reserved for them; accordingly, a provision has been set aside.

The Bank uses a statistical model with credit risk parameters in accordance with the relevant legislation and accounting standards in the calculation of expected credit losses. Expected credit losses are measured using reasonable and supportable information and including macroeconomic variables, taking into account macroeconomic projections for the future as well as historical information. Within the scope of the macroeconomic model, it is used in the final estimation studies obtained by weighting three scenarios as base, optimistic and negative. The changes in “Gross Domestic Product (GDP), USD/TRY and CPI” are used as the main macroeconomic independent variable used in these estimates. Credit risk parameters used in the calculation of expected credit losses are reviewed and evaluated at least once a year within the framework of model validation processes. The macroeconomic forecasts used in risk parameter models and the historical default data of portfolios are re-evaluated in each quarter in order to reflect the changes in the economic conjuncture and updated as needed.

VIII. INFORMATION ON OFFSETTING FINANCIAL INSTRUMENTS

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

IX. INFORMATION ON SALE AND REPURCHASE AGREEMENTS AND LENDING OF FINANCIAL ASSETS

Repurchase (“repo”) and resale (“reverse repo”) agreements of financial assets are followed at the balance sheet accounts. Financial assets which are sold to customers under repurchase agreements are categorized according to initial classification and are measured in accordance with the accounting policy of the related portfolio.

Funds obtained under repurchase agreements are accounted under funds provided under repurchase agreements in liability accounts. The interest expense accruals are calculated by means of internal rate of return method over the difference resulting from repurchase and sale prices for the relevant period.

Securities subject to repurchase (“reverse repo”) agreements are reflected under receivables from reverse repurchase agreements. The difference between the purchase and resell price which is related with the period is computed with the effective interest rate method for accrued interest income.

As of the balance sheet date, there is no security lending transactions.

SECTION THREE

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

X. INFORMATION ON ASSETS HELD FOR SALE AND RELATED TO DISCONTINUED OPERATIONS AND EXPLANATIONS ON LIABILITIES RELATED WITH THESE ASSETS

Property and equipment held-for-sale consist of tangible assets that were acquired due to non-performing loans and receivables, and are accounted in the financial statements in accordance with the regulations of “Turkish Financial Reporting Standard for Assets Held for Sale and Discontinued Operations (“TFRS 5”)”.

The assets that meet the criteria of being classified under assets held for sale are measured at the lower of their book values or fair value less costs to be incurred for sale, depreciation for these assets is ceased and these assets are presented separately in the balance sheet. In order for an asset to be classified as an asset held for sale, the related asset (or the asset group to be disposed) shall be ready to be sold immediately under usual conditions and should have a high possibility to be sold. To have a high possibility of sale, a plan should have been made for the sale of the asset (or the asset group to be disposed) and an active program should have been started by the management, aiming to complete the plan and determine the buyers. The amount in the securities portfolio of the bank is very low. In addition, the asset should be actively marketed at a price that is consistent with the true value.

A discontinued operation is a part of an entity which is classified as to be disposed or held for sale. The results related to discontinuing operations are presented separately in the statement of profit or loss. The Bank does not have any discontinued operations.

XI. INFORMATION ON GOODWILL AND OTHER INTANGIBLE ASSETS

There is no goodwill in the accompanying financial statements related to the acquisition of a subsidiary.

The Bank’s intangible assets consist of software.

Intangible assets are initially recorded at their costs in compliance with the “TAS 38 - Intangible Assets”.

The costs of the intangible assets purchased before 31 December 2004 are restated from the purchasing dates to 31 December 2004, the date the hyperinflationary period is considered to be ended. The intangible assets purchased after this date are recorded at their historical costs. The intangible assets are amortized based on straight line amortization. The useful life of software is determined as 3-15 years.

If there is objective evidence of impairment, the asset’s recoverable amount is estimated in accordance with the “TAS 36 - Impairment of Assets” and if the recoverable amount is less than the carrying value of the related asset, a provision for impairment loss is made.

XII. INFORMATION ON TANGIBLE ASSETS

The costs of the tangible assets purchased before 31 December 2004 are restated from the purchasing dates to 31 December 2004, the date the hyperinflationary period is considered to be ended. In subsequent periods no inflation adjustment is made for tangible assets, and costs which are restated as of 31 December 2004 are considered as their historical costs. Tangible assets purchased after 1 January 2005 are recorded at their historical costs after foreign exchange differences and financial expenses are deducted if any.

While the Bank is using the cost model under the TAS 16 “Property, Plant and Equipment” for the valuation of the property under tangible assets, it changed in 2017 and switched to a revaluation model in the valuation of real estates in use. The property value in the appraisal report prepared by the appraisal company and the net book value the positive difference is monitored in equity accounts.

Gains and losses arising from the disposal of the tangible assets are calculated as the difference between the net book value and the net sales price and recognized in the statement of profit or loss of the period.

SECTION THREE**EXPLANATIONS ON ACCOUNTING POLICIES (Continued)****XII. INFORMATION ON TANGIBLE ASSETS (Continued)**

Maintenance and repair costs incurred for tangible assets are recorded as expense. Expenditures incurred that extend the useful life and service capacity of the assets are capitalized.

The depreciation rates used approximate the rates of the useful life of the tangible assets are as follows:

Tangible Assets	Estimated Useful Life (Years)	Depreciation Rate (%)
Buildings	37-44	2-3
Motor vehicles	5	20
Office equipment, furniture and fixture	3-50	2-33

There are no changes in the accounting estimates that are expected to have an impact in the current or subsequent periods.

At each reporting date, the Bank evaluates whether there is objective evidence of impairment on its assets. If there is an objective evidence of impairment, the asset’s recoverable amount is estimated in accordance with the “TAS 36 - Impairment of Assets” and if the recoverable amount is less than the carrying value of the related asset, a provision for impairment loss is made.

XIII. INFORMATION ON LEASING ACTIVITIES*Finance leasing activities as the lessor*

Tangible assets acquired by way of finance leasing are recognized in tangible assets and the obligations under finance leases arising from the lease contracts are presented as “Finance Lease Payables” account in the financial statements. In the determination of the related assets and liabilities, the lower of the fair value of the leased asset and the present value of leasing payments is considered. Financial costs of leasing agreements are expanded in lease periods at a fixed interest rate.

If there is impairment in the value of the assets obtained through financial lease and in the expected future benefits, the leased assets are valued with net realizable value. Depreciation for assets obtained through financial lease is calculated in the same manner as tangible assets.

Interest and exchange rate expenses related to financial leasing are recognized in the statement of profit or loss. The Bank does not provide financial leasing services as a lessor.

Explanations on TFRS 16*Leases as-bank*

The bank considers that the delivery of a contract does not carry the lease, or that the contract does not carry the lease. Checking the contract from the material process for a definite lease transaction, giving detailed information about this lease transaction. A usage area and a lease will be made to the tables of the Bank for the beneficiaries of the lease.

Right of use includes first method recognition and maintenance:

- Learned the first diagnoses received from the lease,
- from all transactions resulting from the actual payment of the lease, less all leases received
- All economic costs incurred by the bank

Right of use when applying bank transportation:

- Accumulated depreciation and accumulated impairment losses are deducted; and
- A revised review of the lease, with a view to reconsideration.

While the use of the right is subject to depreciation, the Bank applies it in accordance with TAS 16 Tangible Fixed Assets.

SECTION THREE

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

XIII. INFORMATION ON LEASING ACTIVITIES (Continued)

Lease liability

At the commencement date of the lease, the Bank measures the lease liability at the present value of the lease payments not paid at that date. Lease payments are discounted using the alternative borrowing interest rate.

The lease payments included in the measurement of the lease liability at the commencement date consist of payments for the right to use the underlying asset during the lease term that are not paid at the commencement date of the lease.

After the actual commencement of the lease, the Bank measures the lease liability as follows:

- a) Increases the book value to reflect the interest on the lease liability,
- b) Decrease book value to reflect lease payments made; and
- c) Remeasure book value to reflect reassessments and restructurings, or to reflect fixed lease payments in revised substance.

The interest on the lease liability for each period in the lease term is the amount found by applying a fixed periodic interest rate to the remaining balance of the lease liability.

XIV. INFORMATION ON PROVISIONS, CONTINGENT LIABILITIES AND CONTINGENT ASSETS

Provisions and contingent liabilities are provided for in accordance with the “TAS 37 - Provisions, Contingent Liabilities and Contingent Assets”, except for the general and specific provisions set aside for the loans and other receivables.

Provisions are recognized when the Bank has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the amount of obligation can be made.

A provision for contingent liabilities arising from past events should be recognized in the same period of occurrence if it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate the amount of the obligation can be made.

As of the balance sheet date, there are no probable contingent liabilities resulting from past events whose amount can be reliably measured.

Contingent assets usually arise from unplanned or other unexpected events that give rise to the possibility of an inflow of economic benefits to the entity. Contingent assets are not recognized in financial statements since this may result in the recognition of income that may never be realized. Contingent assets are disclosed where an inflow of economic benefits is probable. Contingent assets are assessed continually to ensure that developments are appropriately reflected in the financial statements. If it has become virtually certain that an inflow of economic benefits will arise, the asset and the related income are recognized in the financial statements in which the change occurs.

NOTES TO UNCONSOLIDATED FINANCIAL STATEMENTS AT 31 DECEMBER 2022

(Amounts expressed in thousands of Turkish Lira (“TL”) unless otherwise stated.)

SECTION THREE

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

XV. INFORMATION ON LIABILITIES REGARDING EMPLOYEE BENEFITS

Reserve for other benefits to employees

In accordance with existing Turkish Labor Law, the Bank is required to make lump-sum termination indemnities to each employee who has completed one year of service with the Bank and whose employment is terminated due to retirement or for reasons other than resignation or as mentioned in related legislation.

The Bank calculates and accounts in financial statements by estimating the present value of the future probable obligation regarding severance pay in accordance with the provisions of “TAS 19-Employee Benefits”. The resulting actuarial losses and gains are accounted for under equity in accordance with TAS 19.

The Bank's 2022 year-end severance indemnities has been determined in line with the actuarial report prepared by an independent valuation company, and a provision of 38,262 TL has been reflected in the financial statements as of 31.12.2022. The assumptions regarding the calculation are as follows.

	Current Year	Prior Year
Discount Rate	12.10%	22.50%
Inflation Rate	9.90%	18.00%

The vacation pay obligation is calculated on the cumulative sum of the number of unused leave days that are deducted from the legally granted leave each year.

Other benefits to employees

The Bank has provided provision for undiscounted short-term employee benefits earned during the financial period as per services rendered in compliance with the updated TAS 19 in the accompanying unconsolidated financial statements.

SECTION THREE

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

XVI. INFORMATION ON TAX APPLICATIONS

Corporate tax

In Turkey, as per the regulation of Law numbered 7316 on "The Amendments of Certain Taxes and Laws and Other Acts" published in the official gazette numbered 31462 with the Article 11 of the Law, Corporate Tax Law No. 5520 Provisional and Article 13 added to the Corporate Tax Law No. The tax rate will be applied as 25% for the corporate earnings for the 2021 taxation period, 23% for the corporate earnings for the 2022 taxation period, and 20% for the corporate earnings for the 2023 taxation period.

In Turkey, as of 31 December 2022 corporate income is subject to corporate tax at 25%. Corporate tax rate is calculated on the total income of the Bank after adjusting for certain disallowable expenses, exempt income and other allowances. No further tax is payable unless the profit is distributed.

Dividends paid to the resident institutions and the institutions working through local offices or representatives are not subject to withholding tax. The withholding tax rate on the dividend payments other than the ones paid to the non-resident institutions generating income in Turkey through their operations or permanent representatives and the resident institutions has been changed to 10% from 15% as per the Presidential decision published in the Official Gazette no.31697 dated 22 December 2021.

In applying the withholding tax rates on dividend payments to the non-resident institutions and the individuals, the withholding tax rates covered in the related Double Tax Treaty Agreements are taken into account. Appropriation of the retained earnings to capital is not considered as profit distribution and therefore is not subject to withholding tax.

The prepaid taxes are calculated and paid at the rates valid for the earnings of the related years. The payments can be deducted from the annual corporate tax calculated for the whole year earnings.

Tax losses can be carried forward for a maximum period of five years following the year in which the losses were incurred according to Turkish Tax Legislation. Tax losses cannot be carried back.

In Turkey, there is no procedure for a final and definite agreement on tax assessments. Companies file their tax returns with their tax offices by the end of 25th of the fourth month following the close of the accounting period to which they relate. Tax declarations and related accounting entries can be investigated by tax authorities for five years from the beginning of the year that follows the date of filing during which time the tax authorities have the right to audit tax returns, and the related accounting records on which they are based, and may issue re-assessments based on their findings.

The liabilities of subsidiaries, founding shares and preferential rights of the institutions, which have been legally borrowed or owed to the SDIF due to the bank borrowing 5 December 2017 and their possessors and mortgage holders, all of the profits from the sale of the proceeds from the transfer to the bank or from this Fund that are used in the liquidation of these debts and 75% of the gains from the sale of the securities in such a manner so obtained by the banks are exempted from the corporation tax.

75% of the profits arising from the sale of founders' shares, usufruct shares and preferential rights that the institutions hold for at least two full years in the assets due to 5 December 2017, the immovables they own in the same period as the participation shares; is exempted from the corporation tax as long as it is kept in a special fund account until the end of the fifth year following the year in which the sale is made and collected until the end of the second calendar year.

On the other side, according to the regulation of 7061 numbered "Law on Amendments to Certain Tax Laws and Other Certain Other Laws", the tax exemption rate mentioned above is: As of 5 December 2017, 50% is applied for the gains derived from the sale of immovables and 75% for gains derived from the sale of the others.

SECTION THREE

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

XVI. INFORMATION ON TAX APPLICATIONS (Continued)

As of the end of the 2021 calendar year, the conditions sought for inflation adjustment in the calculation of corporate tax have been fulfilled, within the framework of the repeated provision of Article 298/A of the Tax Procedure Law (TPL). However, with the regulation made with the Law No. 7352 dated 20 January 2022, the application of inflation adjustment in the calculation of corporate tax was postponed to 2023. According to this; TPL financial statements for the 2021 and 2022 accounting periods, including the provisional tax periods, not subject to inflation adjustment. As for the 2023 accounting period; during provisional tax periods inflation adjustment will not be applied but the TPL financial statements dated 31 December 2023 will be subject to inflation adjustment regardless of whether the inflation adjustment conditions are met or not. Profit/loss difference arising from inflation adjustment in TPL financial statements will be shown in previous years' profit/loss accounts and will not affect the corporate tax base.

Deferred taxes

The Bank calculates and accounts deferred tax assets and liabilities in accordance with the “TAS 12 - Income Taxes” and BRSA’s explanations; deferred tax assets and liabilities are recognized on all taxable temporary differences arising between the carrying values of assets and liabilities in the financial statements and their corresponding balances used for taxation purposes except for the differences not deductible for tax purposes and initial recognition of assets and liabilities which affect neither accounting nor taxable profit.

If transactions and events are recorded in the statement of profit or loss, then the related tax effects are also recognized in the statement of profit or loss. However, if transactions and events are recorded directly in the shareholders’ equity, the related tax effects are also recognized directly in the shareholders’ equity.

The net amount of deferred tax receivables and deferred tax payables is shown on the financial tables.

Transfer Pricing

In Turkey, the transfer pricing provisions has been stated under the Article 13 of Corporate Tax Law with the heading of disguised profit distribution via transfer pricing. “The General Communiqué on Disguised Profit Distribution via Transfer Pricing”, dated 18 November 2007 sets details about implementation.

If the companies enter into transactions concerning to the sale or the purchase of the goods or services with the related parties by setting the prices or amounts which are not in line with the arm’s length principle, related profits will be treated as having been wholly or partially distributed in a disguised way via transfer pricing. This kind of disguised profit distribution via transfer pricing cannot be deducted from tax base in accordance with corporate tax.

XVII. ADDITIONAL INFORMATION ON BORROWINGS

The Bank accounts for its borrowing instruments in accordance with TFRS 9 “Financial Instruments” standard and evaluates all its financial liabilities with the “effective interest rate” method in subsequent periods. There are no borrowings required to apply the hedging techniques in respect of the accounting and valuation methods of borrowing instruments and liabilities that represent borrowing.

The Bank did not issue any stocks convertible into bonds.

The Bank does not have borrowing instruments issued by itself.

XVIII. INFORMATION ON SHARE ISSUANCES

The Bank has not issued any share in the current year.

XIX. INFORMATION ON BILLS OF EXCHANGES AND ACCEPTANCES

Acceptances are realized simultaneously with the payment dates of the clients and they are presented as commitments in off-balance sheet accounts.

There are no acceptances presented as liabilities against any assets.

SECTION THREE

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

XX. INFORMATION ON GOVERNMENT INCENTIVES

There are no government incentives utilized by the Bank as of 31 December 2022 and 31 December 2021.

XXI. CASH AND CASH EQUIVALENTS

Cash and cash equivalents are cash on hand, demand deposits and other highly liquid short-term investments with maturities of 3 months or less following the date of acquisition, which is readily convertible to a known amount of cash and does not bear the risk of significant amount of value change. The book values of these assets represent their fair values. Cash equivalents and balances regarding banks are valued by the period end counter foreign currency buying rate of the Bank.

For the purposes of the cash flow statement, “Cash” includes cash, effectives, cash in transit, purchased cheques and demand deposits including balances with the Central Bank; and “Cash equivalents” include interbank money market placements and time deposits at banks with original maturity periods of less than three months.

XXII. INFORMATION ON SEGMENT REPORTING

Operating segment is the unit that operates in only one product or service of the Bank or the group of products or services which are related each other and differs from other units from the point of risk and profit. Operating segments are presented in the footnote VIII of Fourth Section.

XXIII. OTHER DISCLOSURES

Profit reserves and profit distribution

Retained earnings other than legal reserves are available for distribution, subject to legal reserve requirement referred to below.

The legal reserves are comprised of first and second reserves, in accordance with the Turkish Commercial Code (“TCC”). The first legal reserve is appropriated out of the profits at the rate of 5% until the total reserve reaches a maximum of 20% of the Bank’s paid in capital. The second legal reserve is appropriated at the rate of 10% of all distributions in excess of the 5% of the Company’s share capital; however, holding companies are not subject to this application. First and second legal reserves can only be used to compensate accumulated losses and cannot be used for profit distribution unless they exceed 50% of paid-in capital.

Related parties

In accompanying financial statements, shareholders, key management personnel and board members together with their families and companies controlled by or affiliated by them associated and jointly controlled entities are considered as Related Parties in compliance with “TAS 24 - Related Party Disclosures”.

Explanations on hyperinflationary accounting

In the announcement dated January 20, 2022, made by the Public Oversight Authority, it was stated that there is no need to make any adjustments within the scope of TAS 29 Financial Reporting in High Inflation Economies in the financial statements of the companies applying TFRS for the year ended 31 December 2021. Since the Public Oversight Authority has not made a new announcement regarding the application of inflation accounting, no inflation adjustment has been made in accordance with TAS 29 while preparing the financial statements as of December 31, 2022.

SECTION FOUR

INFORMATION ON THE FINANCIAL POSITION OF THE BANK (Continued)

II. INFORMATION ON CREDIT RISK

1. For Credit Risk Analysis;

Information on risk concentrations by debtors or group of debtors or geographical regions and sectors, basis for risk limits and the frequency of risk appraisals

For credit risk analysis, cash and non-cash loans granted to a debtor or debtors' group is subject to a risk classification in proportion to the Bank's shareholders' equity. In addition the geographical regions and sectoral distribution is investigated periodically and distributions are revised according to the market conditions. The general and other periodical limits of a firm are renewed every year and the extending of loans throughout the day is made with the mentioned limits.

Information on determination and distribution of risk limits for daily transactions, monitoring of risk concentrations related to off-balance sheet items per customer and dealer basis

Limit assignments, controls over loan granting process, marketing strategies, matters related to the daily operations and pay-back process are determined in the Bank's credit procedures. Issues related to the daily based transactions (especially extending of cash loans) are managed in coordination with Credits Division, Risk Management Department, Treasury, Financial Institutions Division and Central Operations Departments

Information on periodical analysis of creditworthiness of loans and other receivables per legislation, inspection of account vouchers taken against new loans, if not inspected, the reasons for it, credit limit renewals, collaterals against loans and other receivables

Loans and other receivables are being followed periodically as per the "Regulation on the Principals and Procedures classification of the Loans and Provisions shall be set aside by Banks and to the Provisions to be set aside".

Financial statements of the debtors are examined as per the regulation, loan limits are being updated in parallel to the economic conditions under the authorization of the Credit Evaluation Committee and the Top Management. The Bank obtains sufficient guarantees for the loans and the other receivables. Firms that the Bank works with credit is composed of the top level firms of Turkey, therefore most of the collaterals taken are "firm signature or guarantee". Beside from this third party guarantees, furthermore mortgage, other bank guarantees, cash blockage, customer or personal checks are also obtained. The guarantees obtained are in parallel with the market conditions and other banks collateral conditions.

The system performs ratings for all loan customers after the completion of financial data entries, which are the basis for qualitative and quantitative measurement, and answering subjective questions. The grade scale has a wide range of 22 levels, from minimum "D" to maximum "AAA +".

SECTION FOUR

INFORMATION ON THE FINANCIAL POSITION OF THE BANK (Continued)

II. INFORMATION ON CREDIT RISK (Continued)

1. For Credit Risk Analysis;

The table below shows the distribution of corporate and commercial loans grades in respect of weight as of 31 December 2022 and 31 December 2021:

Grade ^{(1),(2)}	Description	Current Period	Prior Period
		Weight	
AA	Maximum Reliability	1%	4%
AA-	Maximum Reliability	11%	12%
A+	Very Good Firm	19%	12%
A	Very Good Firm	15%	9%
A-	Very Good Firm	18%	20%
BBB+	Reliable and Qualified	12%	16%
BBB	Reliable and Qualified	8%	12%
BBB-	Reliable and Qualified	8%	9%
BB+	Low Reliably and risky	5%	4%
BB	Low Reliably and risky	2%	1%
BB-	Low Reliably and risky	-	1%
B	Low	1%	-

(1) The above distribution does not include customers, personal loans and loans granted to banks.

(2) Although the grade scale of the bank is composed of 22 grades, the grade items that do not have any loan amounts in both years are not shown in the table.

Accounting applications, the definition of non-performing and impaired elements

“Regulation on procedures and Principles concerning classifications of Loans and Provisions” under Article 4, Third, Fourth and Fifth classified in groups of all receivables, accrued interest and similar charges interest on the principal amount owed whether or not additional or refinance, regardless of whether or not the non-performing loans are considered impaired.

Although there are probable repayment, interest due to various reasons justify the collection of principal or interest payments, more than thirty days from the maturity date or dates to be paid late, but without the condition of the third group delay time required for classification as non-performing receivables are defined.

Value adjustments and provisions methods and approaches

As of 1 January 2018, loss allowance for expected credit losses is recognised on financial assets and loans measured at amortised cost, financial assets measured at fair value through other comprehensive income, loan commitments and financial guarantee contracts not measured at fair value through profit or loss based on TFRS 9 and the regulation published in the Official Gazette no. 29750 dated 22 June 2016 in connection with “Procedures and Principles regarding Classification of Loans and Allowances Allocated for Such Loans” which came into force starting from 1 January 2018. The expected credit loss estimate is neutral, weighted according to probabilities, and includes information that can be supported about past events, current circumstances and forecasts for future economic conditions.

SECTION FOUR

INFORMATION ON THE FINANCIAL POSITION OF THE BANK (Continued)

II. INFORMATION ON CREDIT RISK (Continued)

2. Information on the control limits of the Bank for forward transactions, options and similar contracts, management of credit risk for these instruments together with the potential risks arising from market conditions

The Bank evaluates and manages credit risks that are generated from forward transactions and similar contracts together with potential risks in the market.

3. Information on whether the Bank decreases the risk by liquidating its forward transactions, options and similar contracts in case of facing a significant credit risk or not

The Bank tries to mitigate the total risk if it's exposed to huge amount of risk over the forward transactions.

4. For Credit Risk Analysis;

Information on whether the indemnified non-cash loans are evaluated as having the same risk weight with non-performing loans or not

Indemnified non-cash loans are evaluated as having the same risk weight with cash loans which are collected upon maturity. These loans are classified according to their commitments and are recorded under the follow-up accounts.

Information on whether the loans that are structured and rescheduled are included in a new rating group as determined by the Bank's risk management system, other than the follow-up plan defined in the banking regulations or not; whether new precautions are taken for these methods or not; whether the Bank's risk management accepts long term commitments as having more risk than short term commitments which results in a diversification of risk or not

The Bank acts in frame of the related regulations for the loans that are structured and rescheduled. On the other hand, while doing risk evaluation of the loans and commitments, maturity issue is also taken into consideration.

SECTION FOUR

INFORMATION ON THE FINANCIAL POSITION OF THE BANK (Continued)

II. INFORMATION ON CREDIT RISK (Continued)

5. For Credit Risk Analysis;

Evaluation of the significance of country specific risk if the banks have foreign operations and credit transactions in a few countries or these operations are coordinated with a few financial entities

The Bank has no banking activities abroad on the branch level. However in the loan lending processes to the foreign based firms, the economic conditions of the country and the financial structure of the company in question is taken into consideration.

Evaluation of the Bank’s competitive credit risk being an active participant of the international banking transactions market

The Bank has significant relationship with the North Africa and Middle East Region within the international trade transactions. However in the volume of the banking transactions the Bank defines its credit risk concentration as limited from these regions.

6. For Credit Risk Analysis;

The share of the top 100 and 200 cash loan customers in total loan cash loans portfolio

The share of the top 100 and 200 cash loan customers comprises 99.94% and 100% of the total cash loans portfolio of the Bank respectively.

The share of the top 100 and 200 non-cash loan customers in total loan non-cash loans portfolio

The share of the top 100 and 200 non-cash loan customers comprises 99.94% and 100% of the total non-cash loans portfolio of the Bank respectively.

The share of the total cash and non-cash loan balance of the top 100 and 200 loan customers in total assets and off-balance sheet items

The Bank’s total cash and non-cash loans from its top 100 and 200 loan customers comprise 88.86% and 89.56% of the total assets and off-balance sheet items.

7. The first and second stage provision amount provided by the Bank for credit risk

The first and second stage provision amount provided by the Bank for Stage 1 and Stage 2 credit risk is TL 4,385 (31 December 2021: TL 7,862).

⁽¹⁾ Items that cannot be distributed are not included.⁽²⁾ It represents the total risk amount before credit risk reduction and after conversion to credit.**2. Information on risk classes*****Assigned credit rating agencies and export credit agencies changed the names and the reasons for these organizations***

The international credit rating agency Islamic International Rating Agency and the risk classification issued by the OECD are used for receivables from central governments and central banks. The rating agency note is not used for domestic resident customers.

With the export credit agency of a credit rating agency assigned to each risk classes are used

The risk classes of the Islamic International Rating Agency are used for central government / central bank receivables and for resident customers abroad. The OECD published country risk classification is used for those with no rating

The Bank does not use credit rating for the domestic resident customers and banks.

The absence of the credit rating of trading for items that are not included in the calculation, instead of the credit rating of the issuer, or if there is for export of these items that are available for information on the process of using credit ratings

For the short term receivables that has been issued by banks and financial intermediaries that has not any short term rating, risk weight of the issuer is used in the context of related regulation.

SECTION FOUR**INFORMATION ON THE FINANCIAL POSITION OF THE BANK (Continued)****III. INFORMATION ON FOREIGN CURRENCY EXCHANGE RATE RISK**

Whether the Bank is exposed to foreign exchange risk, whether the effects of this situation are estimated, and whether the board of directors of the Bank sets limits for positions that are monitored daily

The Bank complies with net general position-shareholder’s equity limits. The Bank has the possibility to borrow a significant amount of foreign currency.

Within the context of the market risk management work of the Risk Management Department, the Bank’s Exchange rate risk is calculated and analyzed taking different dimensions of the issue in consideration. The Exchange rate risk is measured according to market risk calculated using the Standard Method and is included in the capital adequacy ratio. For testing effects of the unexpected exchange rate fluctuations on the Bank monthly basis stress test analysis are done. In addition, by classifying the changes in risk factors different scenario analysis are done based on different exchange rate expectations. The sensitivity of assets, liabilities and off-balance sheets against exchange rate are measured by an analysis on a monthly basis.

The magnitude of hedging foreign currency debt instruments and net foreign currency investments by using hedging derivatives

The Bank does not have any financial derivatives used for hedging.

Foreign exchange risk management policy

Transactions are being hedged according to the Central Bank of Turkey’s basket of currencies instantly. Manageable and measurable risks are taken in the scope of the regulatory limits.

Foreign exchange buying rates of the last five business days before the balance sheet date as publicly announced by the Bank, are as follows

Date	US Dollars	Euro
23 December 2022	18.6592	19.8044
26 December 2022	18.6649	19.8324
27 December 2022	18.6813	19.9087
28 December 2022	18.6964	19.8946
29 December 2022	18.6966	19.8816
30 December 2022	18.6983	19.9349

The basic arithmetical average of the bank’s foreign exchange bid rate for the last thirty days

The basic arithmetical average of the Bank’s foreign exchange bid rate for December 2022 is TL 18.6406 for USD, TL 19.7344 for EURO.

Other Currencies	(25)	(25)	32	32
Total	610	(858)	(2,288)	(5,585)

⁽¹⁾ The effect on shareholders’ equity also includes the effect on the profit/loss.

SECTION FOUR

INFORMATION ON THE FINANCIAL POSITION OF THE BANK (Continued)

IV. INFORMATION ON INTEREST RATE RISK

Interest rate sensitivity of the assets, liabilities and off-balance sheet items

Within the context of the market risk management of the Risk Management Department, the Bank’s interest rate risk is calculated and analyzed taking different dimensions of the issue in consideration. The interest rate risk is measured according to market risk calculated using the standard method and is included in the capital adequacy ratio. To test the effect of the interest rate fluctuations on the Bank monthly based stress test analysis are done.

In addition, by classifying the changes in risk factors different scenario analysis are done based on different interest rate expectations. The sensitivity of assets, liabilities and off-balance sheets against interest rate are measured by an analysis on a monthly basis.

The expected effects of the fluctuations of market interest rates on the Bank’s financial position and cash flows, the expectations for interest income, and the limits the board of directors has established on daily interest rates

The Board of Directors has determined limits for the amount exposed to market risk/ shareholder’s equity, to be maximum 45% for the early warning limit, 50% for limit maximum, and maximum 55% for limit exception in order to follow interest rate risk, exchange rate risk and equity price risk.

The precautions taken for the interest rate risk the Bank was exposed to during the current year and their expected effects on net income and shareholders’ equity in the future periods

Although the increase in interest rates have a limited negative effect on the Bank’s financial position the Bank’s Equity structure is able to confront the negative effects of possible fluctuations in the interest rates.

SECTION FOUR

INFORMATION ON THE FINANCIAL POSITION OF THE BANK (Continued)

V. INFORMATION ON STOCK POSITION RISK

Equity investment risk due from banking book

The Bank does not have equity investment risk due to subsidiary and securities issued capital which classified banking accounts are not traded on the stock exchange.

Information on booking value, fair value and market value of equity investments

None.

Information on equity investments realized gains or losses, revaluation increases and unrealized gains or losses and these amounts including capital contribution.

None.

Breakdown of the amount of capital requirements on investments in related stock exchange basis, depending on the Credit Risk Standard Method or the capital requirement calculation method which bank has chosen out of allowed methods stated in the Communique Regarding Calculation of Credit Risk Amount on Internal Rating Based Approach.

None.

VI. INFORMATION ON LIQUIDITY RISK MANAGEMENT AND LIQUIDITY COVERAGE RATIO

Information on liquidity risk management regarding risk capacity of the Bank, responsibilities and structure of the liquidity risk management, reporting of the liquidity risk in the Bank, the way that sharing liquidity risk strategy, policy and implementations with the board of directors and job fields.

Evaluation of capacity of liquidity risk position of the Bank depends on current liquidity position, current and estimated asset quality, current and future income capacity, historical funding needs, estimated funding needs and decreasing funding needs or analysis of decrease in additional funding choices. One or more actions below are done to find funds in order to maintain liquidity needs.

- Disposal of the liquid assets
- Maintain increasing short-term debts and/or additional short-term time deposit and deposit like assets
- Decrease in moveable long-term assets
- Increase in long term liabilities
- Increase in equity funds

Responsibility of the management of general liquidity belongs to Top Level Management, Treasury Department or Asset/Liability Committee (“ALCO”) which is consisting of Risk Management executives. Appropriate controls and balances are maintained in every condition.

Analysis of effects of various stress scenarios on the liquidity position and establishment of limits are crucial in order to establish effective liquidity risk management. Limits are determined according to the size of the Bank, complexity of transactions and suitability of the financial conditions.

SECTION FOUR

INFORMATION ON THE FINANCIAL POSITION OF THE BANK (Continued)

VI. INFORMATION ON LIQUIDITY RISK MANAGEMENT AND LIQUIDITY COVERAGE RATIO (Continued)

One of the important components of liquidity management is management information system which is created to offer information about the liquidity position of the Bank to the Board of Directors, top level management and related appropriate personnel at the right time. Strong management information system is an integral part of the reliable decision making process of the liquidity.

One of the important aspects of liquidity management is making assumptions on prospective funding needs. Although final cash inflows and outflows can be easily calculated or estimated, the Bank also makes short-term and long-term assumptions. Another important consideration is that the Bank's reputation plays an important role in reaching the funds it needs in a reasonable amount of time.

Management also has an emergency plan to be implemented in the absence of accurate projections. An effective emergency planning consists of identifying minimum and maximum liquidity needs and weighting alternatives that will be used to meet these needs.

The degree of centralization of liquidity management and funding strategy and information about the functioning between the Bank and its shareholders

The Bank is supported by well-established shareholders among most powerful financial institutions in Turkey, Middle East and the North African region. The Bank's largest shareholder is Libyan Foreign Bank which is 100% owned by the Central Bank of Libya has the Bank. Funds received from the Bank's risk group have a 22% share in liabilities.

Information on the Bank's funding strategy including the policies regarding diversification of funding sources and periods

The Bank obtains its fund sources mainly from the parent Libyan Foreign Bank and its subsidiaries. These Funds are reliable sources which are ongoing for many years with renewing terms and expected to continue thereafter.

Currencies constituting minimum five percent of the Bank's total liabilities

A large portion of the Bank's liabilities consist of funds obtained from the parent Libyan Foreign Bank and group banks. 82% of these funds are USD, 18% are EUR.

Information regarding to the liquidity risk mitigation techniques used

The Bank's liquidity risk mitigation techniques are retention of high-quality liquid assets on hand, provide maturity match between assets and liabilities and having the option to obtain funds from different banks in its risk groups.

Information regarding to the usage of Stress Tests

Stress tests are applied by changing the percentage of the parameters regarding to the liquidity ratio calculation. Subjected components, particularly high-quality liquid assets, including cash inflows and cash outflows are increased and decreased at various rates to measure the effects on the calculation. The test results provide guidance on liquidity management.

SECTION FOUR**INFORMATION ON THE FINANCIAL POSITION OF THE BANK (Continued)****VI. INFORMATION ON LIQUIDITY RISK MANAGEMENT AND LIQUIDITY COVERAGE RATIO (Continued)****General information on the emergency and contingency plan of Liquidity**

The Liquidity Emergency Action Plan prepared by the Bank’s Assets and Liabilities Committee was presented to the Board of Directors and approved by Council Decision No. CRC / 316-A/6/18 at 5 October 2018. Decisions on the plan;

- Bank-specific crisis and general market crisis has been described,
- The decision of proportional and structural changes of assets and liabilities in the balance sheet is delegated to Assets and Liabilities Committee,
- Agreed that the Liquidity Dashboard which includes available and accessible liquidity sources of the Bank, asset sales, loan repayments and liquidity usage submitted periodically to Assets and Liabilities Committee by the Treasury Department.
- Within the framework of an effective liquidity risk management of the Treasury Department, where necessary, acting jointly with other business units to avoid concentration of funding sources, following different funding options and current trends and reporting on costs is expressed,
- If necessary, making changes in the Emergency Action Plan and update it according to market conditions and balance sheet structure is delegated to Assets and Liabilities Committee.

Liquidity coverage ratio

In accordance with the “Regulation on calculation of Bank’s liquidity coverage ratio”, published in Official Gazette no. 28948, dated 21 March 2014, liquidity coverage ratio is calculated which disclosed to the public in the following format. The monthly simple arithmetic average calculated consolidated liquidity coverage ratio of the last three months average, the weekly simple arithmetic average calculated liquidity coverage ratio of the last three months average.

The weekly calculated lowest and highest values of unconsolidated foreign currency and total liquidity coverage ratio by weeks are as follows:

	Month	FC	Month	FC+TL
Lowest	07 October 2022	206	02 December 2022	225
Highest	30 December 2022	299	30 December 2022	444

SECTION FOUR

INFORMATION ON THE FINANCIAL POSITION OF THE BANK (Continued)

VI. INFORMATION ON LIQUIDITY RISK MANAGEMENT AND LIQUIDITY COVERAGE RATIO (Continued)

Sections High-quality liquid assets comprised of

High-quality liquid assets consist of cash, effectives, debt instruments issued by CBRT and treasury, debt instruments with a credit or default rating from A+ to BBB- or any equivalent Debt Instruments. CBRT accounts for 34% of high-quality liquid assets of the Bank, while 65% comprised of debt instruments issued by the Treasury and %1 of cash in vault.

Sections Funding sources comprised of and their densities within all funds

A significant part of the funding sources are comprised of deposits received. 48% of the total liabilities are deposits received. 35% of these deposits are deposits obtained from banks.

Information on cash outflows arising from derivative transactions and transactions that are subject to collateralization

Cash outflows due to derivative contracts occur during periods when the bank's derivative liabilities exceed its derivative receivables. As at 31 December 2022, the bank has no derivative transactions. Therefore, there is no net cash outflow arising from derivative transactions.

Counterparty and product-based funding sources and concentration limits on collaterals

A significant part of the funding sources are comprised of deposits received. 48% of the liability is deposits and 35% of these deposits are from banks. All of these liabilities are warrantless.

Funding needs in terms of the Bank itself, foreign branches and consolidated subsidiaries taking into account operational and legal factors that inhibits the Bank’s liquidity transfer and liquidity risk exposure

The Bank obtains funds essentially from main shareholder Libyan Foreign Bank and its subsidiaries. These reliable and ongoing funds are renewed at different maturities and expected to continue for many years.

Other cash inflows and outflows that are included in liquidity coverage calculation but not included in the public disclosure template in the second paragraph and considered to be related with the Bank’s liquidity profile

None.

SECTION FOUR**INFORMATION ON THE FINANCIAL POSITION OF THE BANK (Continued)****VIII. INFORMATION ON FAIR VALUES OF FINANCIAL ASSETS AND LIABILITIES**

The fair value of the financial assets measured at amortised cost; in case of situations where market price or fair value cannot be determined; is calculated over the quoted market prices of other investment securities that are of the same interest, maturity and similar in other clauses.

The estimated fair value of the demand deposit represents the amount to be paid at the moment of demand. Placements of changing rates and the fair value of the overnight deposit equal to their book values. The fair value of the fixed yield deposit is calculated over the cash flows discounted using the market interest rates implicated on similar borrowing and other payables.

The estimated fair value of the loans is calculated over the cash flows discounted using the market interest rates implicated on the constant interest loans. The carrying values of floating-rate loans are deemed a reasonable proxy for their fair values.

In the table below; fair values and book values of some of the financial assets and liabilities are presented. The book value of the assets and liabilities is the total of the cost and accumulated interest accruals.

Fair value hierarchy

The table below analyses financial instruments carried at fair value by valuation method. The different levels have been defined as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities,

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or,

Level 3: Inputs for the asset or liability that is not based on observable market data (unobservable inputs).

	Carrying Value		Fair Value

X. INFORMATION ON RISK MANAGEMENT

Main sources of differences between risk amounts and amounts in financial statements which are evaluated in accordance with TAS

Risk Management process of the Bank passes through various stages; such as, defining, measuring, analyzing and pursuing risks, risk management policies and enactment of implementation principles and their realization, reporting, researching, conformity and auditing, within the frame of principles jointly fixed by the bank’s Risk Management Department, Audit Committee and High Level Management and approved by the Board of Directors.

The risk policy of the Bank is set out on the below mentioned principles.

- To be selective in risk taking.
- To define, measure, analyze and manage risks effectively.
- To secure the balance between the risk and return.
- To have adequate capital to cover existing and possible future risks.
- To have sound collaterals covering the existing and possible risks, and to follow up closely the sufficiency of the collaterals.
- To secure the appropriateness of risks to the defined limits.
- To keep under control the appropriateness of all kinds of operations to the approved policies and procedures.
- To supply the harmonization of the operations with the laws and regulations.
- To establish corporate risk culture within the Bank.
- To set out an effective reporting line and inform related management authorities on time to eliminate any kind of discrepancy.

The Bank defines, measures, analyzes and manages the risks involved in its operations and defines its risk management policies and application procedures on base of main risk categories on consolidated basis.

SECTION FOUR

INFORMATION ON THE FINANCIAL POSITION OF THE BANK (Continued)

X. INFORMATION ON RISK MANAGEMENT (Continued)

General qualitative information on credit risk

The objective of the credit risk management is to maximize the risk-adjusted return of the bank by managing the risks in appropriate parameters that the bank may face. The credit risk management covers all types of credits and transactions and also considers the relationship of the credit risks with other risk types.

The widest and most visible sources of the credit risk are the loans extended by the Bank; however, there are also some other factors depending on the activities of the Bank. These stand on both banking books and accounts of on balance sheet and off balance sheet items. From day to day, banks face more credit risks not related to loans; for example different financial instruments like interbank transactions, acceptances, trade finance, foreign exchange transactions, swap transactions, bonds, options, futures, guarantees and commitments.

Effective applications related to the credit risk management cover especially the following fields;

- Clear definition of the responsibilities in credit risk management process,
- Effective functioning of the lending policy,
- Understanding the basic characteristics of credit risk,
- Making all related personnel aware of the credit risk management policies,
- Keeping appropriate credit risk measurement, review and follow-up functions,
- Setting limits for credit risk, periodically reviewing the limits and effectively controlling the risk-limit position,
- Analyzing the risk structure of a new instrument before using it,
- Having sufficient management reporting system,
- Providing sufficient audit and control function on credit risk,
- Separating credit utilization and marketing function,
- Evaluating credit risk on solo and consolidated basis.

Beside the standard credit risk in credit activities, also the risks related to the economic conditions in the country of the borrower should be considered.

Effective loan extension is based on the determination of a reliable and well-defined lending criterion. For the effective credit risk management, it is essential to have sufficient information that will enable the detailed evaluation of the real risk profile of the credit applicant.

The Bank’s credit risk amount is calculated by standard approach.

Additional explanations about the credit quality of assets

None.

Qualitative disclosure related to counterparty credit risk

The counterparty risk arises from non-performance of the trading partners. The non-performance may arise from counterparty's refusal/inability to perform due to adverse price movements or from external constraints that were not anticipated by the principal.

Counterparty Credit Risk is an important risk that causes a credit risk for the banks carrying out money and capital market transactions. The subject transactions are listed as follows;

- Derivative Financial Instruments,
- Repo Transactions,
- Securities and Commodities Borrowing Transactions,
- Transactions with long clearing period,
- Margin Trading Transactions

Some properties of CCR and credit risk are provided below with a comparison.

- Loan risk is unilateral, only the lender is exposed to the risk. CCR is bilateral and both parties may incur a loss depending to the market value of the transaction.
- For the credit risk, the risk amount of the lender is always positive. In CCR, the position value caused by the transaction might be positive or negative. The party having the positive position value during the period to the maturity date is the party exposed to the risk.
- In any credit transaction, the loan's principal amount is lent, and collected on the maturity date together with interest. In the transactions subject to CCR, it is possible to offset the receivables mutually according to the agreement made and to pay the remaining amount.

While the exposed risk can be easily measured in loan risk, this amount in CCR depends to the value of the asset subject to transaction, value of guarantee and market values and can only be estimated.

The Bank's counterparty credit risk amount is calculated by standard approach.

INFORMATION ON THE FINANCIAL POSITION OF THE BANK (Continued)

X. INFORMATION ON RISK MANAGEMENT (Continued)

Qualitative requirements for public disclosure regarding market risk

The purpose of market risk management is to maximize the risk adjusted return of the Bank by effectively managing the market risk of the bank by using suitable parameters in compliance with the size of the Bank.

The market risk management consists of interest rate, foreign Exchange and liquidity risks and takes into consideration the relations of these risks with other risks. The Bank does not have commodity and stock exchange portfolio. Therefore, the Bank is not exposed to commodity and equity position risk.

The market risk management of the Bank is based on below mentioned principles.

- Clear definition of the responsibilities in market risk management process,
- Effective determination, functioning and monitoring of the treasury policy,
- Having standards for valuing positions and measuring performance,
- Understanding the basic characteristics of the risks in market risk category,
- Making all related personnel aware of the market risk management policies,
- Keeping appropriate market risk measurement, review and follow-up functions,
- Setting limits for market risk, periodically reviewing the limits and effectively monitoring the risk-limit position,
- Analyzing the risk structure of a new instrument before using it,
- Having contingency planning for crisis situations,
- Having effective management reporting system,
- Providing strong audit and control function on market risk,
- Separating Treasury Front Office and Treasury Back Office function,
- Evaluating market risk on solo and consolidated basis.
- Sound market risk management involves the application of four basic elements in the management of assets, liabilities and off-balance-sheet instruments:
 - Appropriate board and high-level management oversight;
 - Adequate risk management policies and procedures;
 - Appropriate risk measurement, monitoring and control functions; and
 - Comprehensive internal controls and independent audits.

The specific manner in which a bank applies these elements in managing its market risk will depend upon the complexity and nature of its holdings and activities as well as on the level of market risk exposure.

SECTION FOUR**INFORMATION ON THE FINANCIAL POSITION OF THE BANK (Continued)****X. INFORMATION ON RISK MANAGEMENT (Continued)**

The market risk is managed in the Bank on portfolio level. In order to control the market risk exposure, the limits are used.

It is believed that having sufficient and correct information on a right time in a well-designed format is important for effective market risk management. The Board of Directors, High Level Management and ALCO should receive sufficient information on time to make decision about the treasury strategy of the Bank.

The Risk Management Department reviews the market risk level of the Bank periodically.

The market risk structure of the Bank and the harmony of the operations with the approved policies and limits are monitored and controlled by the internal audit and internal control functions of the Bank.

For the effective management of market risks, it is important to understand the basic characteristics of interest rate, foreign exchange and liquidity risks.

The Bank’s market risk amount is calculated by standard approach.

INFORMATION ON THE FINANCIAL POSITION OF THE BANK (Continued)

X. INFORMATION ON RISK MANAGEMENT (Continued)

Nature of interest rate risk resulting from banking book, major assumptions on early repayment of loans and movements in deposits other than term deposits and frequency of measuring interest rate risk

The interest sensitivity of assets, liabilities and off balance-sheet items are evaluated regularly at the Asset-Liability Committee meetings considering also the market developments.

The measurement process of interest rate risk resulting from the banking book, is designed and managed by the Bank on a bank-only basis to include the interest rate positions defined as banking book by the Bank and to consider the relevant repricing and maturity data.

The present value and the net interest income are calculated over the cash flows of the sensitive assets and liability items by using the yield curves constructed by using the market interest rates.

The interest rate risk resulting from the banking book is measured legally as per the “Regulation on Measurement and Evaluation of Interest Rate Risk Resulting from the Banking Book as per Standard Shock Method” published in the Official Gazette no.28034 dated 23 August 2011, and the legal limit as per this measurement is monitored and reported monthly. The capital level is maintained considering the interest rate risk resulting from the banking book.

The interest rate risk on the interest-rate-sensitive financial instruments of the trading portfolio is evaluated as part of the market risk.

Economic value differences resulted from interest rate instabilities calculated on a bank-only basis according to Regulation on Measurement and Evaluation of Interest Rate Risk Resulted from Banking Book as per Standard Shock Method**Current Period**

Total	7,567	1,851,617	4,705	1,603,869

⁽¹⁾ General reserve amount requirements maintained at CBRT**1. Information on Reserve Deposits**

In accordance with the “Communiqué Regarding the Reserve Requirements no. 2005/1, the Bank is required to maintain reserves in CBT for TL and foreign currency liabilities. The reserve requirements can be maintained as TL, USD, EUR and gold. The required reserve rates for TL liabilities vary between 3% and 8% for TL deposits and other liabilities according to their maturities as of 31 December 2022 (31 December 2021: 3% and 8% for all TL liabilities). The reserve rates for foreign currency liabilities vary between 5% and 26% for deposit and other foreign currency liabilities according to their maturities as of 31 December 2022 (31 December 2021: 5% and 26% for all foreign currency liabilities). According to the conversion rate from real person and commercial entity foreign currency deposit to Turkish Lira time deposit account, additional reserve requirements might be established on foreign currency deposits and precious metal deposit accounts. As of April 15, 2022, the 8.5% interest rate applied by the CBT for required reserves in Turkish Lira has been terminated. No interest is paid for required reserves in foreign currency.

As of December 23, 2022, within the scope of the "Communiqué on Supporting the Conversion of Turkish Lira Deposit and Participation Accounts" numbered 2021/14, the practices regarding the establishment of additional required reserves and the payment of commissions according to the conversion rate to foreign currency deposit accounts in USD, EUR and GBP were abolished TL time deposit accounts have also been removed.

On the other hand, as of 23 December 2022, the commission application according to the share of Turkish Lira deposits in total deposits has been determined as 8% for banks with less than 50% and 3% for banks between 50% and 60%. Commissions payable will be calculated over the required reserve amount for foreign currency deposit liabilities.

Within the scope of the “Communiqué on the Establishment of Turkish Lira Securities for Foreign Currency Liabilities” numbered 2022/20; there is a practice of placing securities over foreign currency liabilities and assets (majorly based on loan allocation, loan growth and differentiation according to interest rate).

Collection policy on loans determined as loss and other receivables

Loans determined as loans and other receivables are collected via legal follow-up and conversion of guarantees to cash.

Information on write-off policy

The bank is in the effort to provide collections from loans under legal follow-up under the leadership of Corporate and Commercial Credits Monitor and Follow-up Department and Legal and Legislation Services Department and other related departments. However the absence of reasonable collection ability in any condition and manner regarding the recovery of the mentioned loans, determined as loss in which the bank monitors by allocate 100% provision under 5th group (3rd group in TFRS) in accordance with TFRS 9 and the “Regulation on Procedures and Principles Concerning Classification of Loans and Provision” are written-off by presenting to Board of Directors’ approval upon gathering the opinion of Legal and Legislation Services Department and by obtaining approvals from Corporate and Commercial Credits Monitor and Follow-up Department.

The write-off of the uncollectible receivables is an accounting policy, it does not result in the right to waive.

Within the scope of TFRS 9, the Bank does not have written off loans (31 December 2021: None).

Expected credit loss for loans

9. Information on Shareholders’ Equity (Continued)

Information on the privileges given to stocks representing the capital

The share capital can be increased or decreased one or more times. Such an increase may be accomplished through the transfer of monies from the reserves to the capital account and the issuance of “bonus” shares in consequence thereof.

Every shareholder shall have the preferential (pre-emptive) right to subscribe for a proportion of new shares corresponding to the number of shares held by him and such right may be exercised within a period of thirty days from the date of receipt by each shareholder of an invitation to the shareholders to that effect. Such invitation shall be made by registered mail to the address contained in the share register.

These preferential (pre-emptive) rights may only be assigned by approval of the Board of Directors upon the favorable vote of 80% of the members, present or represented.

New shares may not be issued at a price less than the nominal value of the original shares issued.

Fractional shares shall be allocated by the Board of Directors.

The Bank may not finance the acquisition of its own shares whether directly or indirectly.

Arabian shareholders are treated under the same legislation with Turkish citizens. This includes the free transfer of distributed other revenues, guarantees, shares, dividends. And in a similar manner Arabian shareholders are benefited and protected by law No.6224, Foreign Capital Incentive Law.
