AUDITOR'S REVIEW REPORT ON INTERIM FINANCIAL INFORMATION

(Convenience translation of the independent auditor's review report originally issued in Turkish, See Note I of Section Three)

To the General Assembly of Arap Türk Bankası Anonim Şirketi;

Introduction

We have reviewed the consolidated balance sheet of Arap Türk Bankası Anonim Şirketi ("the Bank") and its consolidated subsidiary (collectively referred to as "the Group") at 31 March 2023 and the related consolidated statement of profit or loss, consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in shareholders' equity, consolidated statement of cash flows and a summary of significant accounting policies and other explanatory notes to the consolidated financial statements for the three-month-period then ended. The Bank Management is responsible for the preparation and fair presentation of interim financial information in accordance with the Banking Regulation and Supervision Agency ("BRSA") Accounting and Financial Reporting Legislation which includes "Regulation on Accounting Applications for Banks and Safeguarding of Documents" published in the Official Gazette no.26333 dated 1 November 2006, and other regulations on accounting records of Banks published by Banking Regulation and Supervision Agency and circulars and interpretations published by BRSA and Turkish Accounting Standard 34 "Interim Financial Reporting" for those matters not regulated by the aforementioned regulations. Our responsibility is to express a conclusion on these interim financial information based on our review.

Scope of Review

We conducted our review in accordance with the Standard on Review Engagements (SRE) 2410, "Limited Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial reporting process, and applying analytical and other review procedures. A review of interim financial information is substantially less in scope than an independent audit performed in accordance with the Independent Auditing Standards and the objective of which is to express an opinion on the financial statements. Consequently, a review of the interim financial information does not provide assurance that the audit firm will be aware of all significant matters which would have been identified in an audit. Accordingly, we do not express an opinion.

Conclusion

Based on our review nothing has come to our attention that causes us to believe that the accompanying consolidated financial information does not present fairly in all material respects the consolidated financial position of Arap Türk Bankası Anonim Şirketi and its consolidated subsidiary at 31 March 2023 and its consolidated financial performance and its consolidated cash flows for the three-month-period then ended in accordance with the BRSA Accounting and Financial Reporting Legislation.

Other Matter

The consolidated financial statements of the Group as at 31 December 2022 and 31 March 2022 were audited and reviewed by another auditor which expressed an unqualified opinion and an unqualified conclusion in their reports issued on 23 February 2023 and 10 May 2022.

Report on other regulatory requirements arising from legislation

Based on our review, nothing has come to our attention that causes us to believe that the financial information provided in the accompanying interim activity report in Section Seven, is not consistent with the reviewed consolidated financial statements and disclosures in all material respects.

Additional Paragraph for Convenience Translation:

BRSA Accounting and Financial Reporting Legislation explained in detail in Section Three differ from International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board including the application of IAS 29 - Financial Reporting in Hyperinflationary Economies as of 31 March 2023. Accordingly, the accompanying unconsolidated financial statements are not intended to present fairly the unconsolidated financial position, results of operations, changes in equity and cash flows of the Bank in accordance with IFRS.

SECTION THREE

EXPLANATIONS ON ACCOUNTING POLICIES

I. EXPLANATIONS FOR BASIS OF PRESENTATION

The consolidated financial statements are prepared within the scope of the “Regulation on Accounting Applications for Banks and Safeguarding of Documents” related with Banking Act numbered 5411 published in the Official Gazette no,26333 dated 1 November 2006 and other regulations related to reporting principles on accounting records of Banks published by Banking Regulation and Supervision Agency and circulars and interpretations published by Banking Regulation and Supervision Authority (together referred as BRSA Accounting and Reporting Legislation) and in case where a specific regulation is not made by BRSA, Turkish Accounting Standards and Turkish Financial Reporting Standards (“TFRS”) and related appendices and interpretations (referred as “Turkish Accounting Standards” or “TAS”) put into effect by Public Oversight Accounting and Auditing Standards Authority (“POA”) (all referred as “Reporting Standards”).

The format and content of the publicly announced consolidated financial statements and notes to these statements have been prepared in accordance with the “Communiqué on Publicly Announced Financial Statements, Explanations and Notes to These Financial Statements”, published in Official Gazette no. 28337, dated 28 June 2012, and amendments to this Communiqué. The Bank maintains its books in Turkish Lira in accordance with the Banking Act, Turkish Commercial Code and Turkish Tax Legislation.

On January 20, 2022, POA made a statement on whether to Apply Financial Reporting in High Inflation Economies within the Scope of Turkish Financial Reporting Standards, Financial Reporting Standard for Large and Medium Sized Enterprises. Accordingly, it is stated that there is no need to make any adjustments within the scope of TAS 29 Financial Reporting in High Inflation Economies in the financial statements of the companies applying TFRS at the relevant date. As of the preparation date of the financial statements, no new announcement has been made by the Public Oversight Authority in this context, and no inflation adjustment has been made within the scope of TAS 29 Financial Reporting Standard in Hyperinflationary Economies in the unconsolidated financial statements dated March 31, 2023.

The accompanying consolidated financial statements are prepared in accordance with the cost basis except for financial assets and liabilities at fair value, and real estates which are presented on a fair value basis.

The preparation of financial statements requires the use of certain critical estimates on assets and liabilities reported as of balance sheet date or amount of contingent assets and liabilities explained and amount of income and expenses occurred in related period. Although these estimates rely on the management’s best judgment, actual results can vary from these estimates. Judgements and estimates are explained in related notes.

For a correct perception of the financial statements, the accounting policies and valuation principles are explained between in Notes No. II and XXIII.

New and revised Turkish Accounting Standards effective for annual periods beginning on or after 1 January 2021 have no material effect on the financial statements, financial performance and on the Parent Bank’s accounting policies. New and revised Turkish Accounting Standards issued but not yet effective as of the finalization date of the financial statements have no material effect on the financial statements, financial performance and on the Bank’s accounting policies.

The effects of the earthquake disaster that occurred in Kahramanmaraş and the surrounding provinces have been reviewed and the Group has no effect on the financial statements.

The differences between accounting principles, as described in these preceding paragraphs and accounting principles generally accepted in countries in which unconsolidated financial statements are to be distributed and International Financial Reporting Standards (“IFRS”) have not been quantified in these unconsolidated financial statements. Accordingly, these unconsolidated financial statements are not intended to present the financial position, results of operations and changes in financial position and cash flows in accordance with the accounting principles generally accepted in such countries and IFRS.

II. INFORMATION ON STRATEGY FOR THE USE OF FINANCIAL INSTRUMENTS AND FOREIGN CURRENCY TRANSACTIONS

The Bank’s core business operation is banking activities including corporate banking, commercial banking, retail banking and security transactions (treasury transactions) together with international banking services. The Bank uses financial instruments intensively because of the nature of the Bank. The main funding resources are deposits, borrowing and equity and these resources are invested in qualified financial assets. The Bank follows the utilization of resources and the risk and return for the investments in various financial assets through an effective asset and liability management strategy.

The transactions in foreign currency are recorded in accordance with “TAS 21 - Effects of Exchange Rate Changes” Related gain and loss occurred due to the changes in exchange rates resulted by the foreign currency transactions are translated into Turkish Lira over the effective exchange rate prevailing at the date of the transaction and is recorded accordingly.

At the end of the related periods, foreign currency assets and liability balances outstanding are translated into Turkish Lira over the Bank’s exchange rates prevailing at the balance sheet date and the resulting exchange rate differences are accounted as foreign exchange gains and losses.

III. EXPLANATIONS ON INVESTMENTS IN ASSOCIATES AND SUBSIDIARIES

The accompanying consolidated financial statements are prepared in accordance with “Communiqué on Preparation of Consolidated Financial Statements” which is published in the Official Gazette No. 26340 dated November 8, 2006. The Parent Bank directly owns the shares of A&T Finansal Kiralama A.Ş. and this subsidiary is consolidated accordingly. As of current period, the Parent Bank has no associates.

A&T Finansal Kiralama Anonim Şirketi, was founded in 1997 with the aim to provide financial leasing services.

The Parent Bank and its subsidiary A&T Finansal Kiralama A.Ş that is included in consolidation are together referred to as “Group” in the disclosures and footnotes related to the consolidated financial statements.

“Full Consolidation” method has been applied in consolidating the financial statements of the Parent Bank with the financial statements of its subsidiary. In accordance with this method, the financial statements of the Parent Bank and its subsidiary are combined on a line-by-line basis by adding together the all items of assets, liabilities, income, expenses and off-balance sheet items, in preparing consolidated financial statements. Minority interests are presented separately in the consolidated balance sheet and consolidated statement of income.

The major principles applied in the consolidation of subsidiaries

The carrying amount of the Parent Bank’s net investment in the subsidiary and the Parent Bank’s portion of equity of the subsidiary are eliminated.

All intercompany transactions and intercompany balances between the consolidated subsidiary and the Parent Bank are eliminated.

The financial statements which have been used in the consolidation are prepared as current period and appropriate adjustments are made to financial statements to use uniform accounting policies for similar transactions and events in similar circumstances.

IV. INFORMATION ON FORWARD TRANSACTIONS, OPTIONS AND DERIVATIVE INSTRUMENTS

Derivative financial instruments of the Bank are classified under "IFRS 9 Financial Instruments" ("IFRS 9"), "Derivative Financial Assets Designated at Fair Value through Profit or Loss".

Derivatives are initially recorded at their purchase costs including the transaction costs. The notional amounts of derivative transactions are recorded in off-balance sheet accounts based on their contractual amounts.

The derivative transactions are measured at fair value subsequent to initial recognition and if the fair value of a derivative financial instrument is positive, it is disclosed under trading derivative financial assets and if the fair value difference is negative, it is disclosed under trading derivative financial liabilities.

Gains and losses arising from a change in fair value of trading derivatives after the re measurement are accounted in the income statement. The fair value of the derivative financial instruments is calculated using quoted market prices by using discounted cash flows model.

V. INFORMATION ON INTEREST INCOME AND EXPENSE

Interest income and expense are recognized according to the effective interest method based on accrual basis. Effective interest rate is the rate that discounts the expected cash flows of financial assets or liabilities during their lifetimes to their carrying values. Effective interest rate is calculated when a financial asset or a liability is initially recorded and is not modified thereafter.

The computation of effective interest rate comprises discounts and premiums, fees and commissions paid or received and transaction costs. Transaction costs are additional costs that are directly related to the acquisition, issuance or disposal of financial assets or liabilities.

VI. INFORMATION ON FEES AND COMMISSION

Fees and commission received and paid are recognized according to either accrual basis of accounting or effective interest method depending on nature of fees and commission; incomes derived from agreements and asset purchases for third parties are recognized as income when realized.

VII. INFORMATION ON FINANCIAL ASSETS

Financial assets are recognized or derecognized according to IFRS 9 Financial Instruments Part 3 Recognition and Derecognition. Financial assets are measured at fair value at initial recognition in the financial statements. During the initial recognition of financial assets other than "Financial Assets at Fair Value Through Profit or Loss", transaction costs are added to fair value or deducted from fair value. They are included in the balance sheet of the group if the Bank is a legal party to these instruments.

Group categorizes its financial assets as "Fair Value Through Profit/Loss", "Fair Value Through Other Comprehensive Income" or "Measured at Amortized Cost". Financial instruments comprise financial assets and liabilities and derivative instruments. This classification is based on the contractual cash flow characteristics of the related business model used for management of the financial assets at initial recognition.

a. Financial Assets at Fair Value through Profit or Loss

"Financial assets at fair value through profit/loss" are financial assets that are either acquired for generating a profit from short term fluctuations in prices or are financial assets included in a portfolio aiming to short-term profit making.

Financial assets at the fair value through profit or loss are initially recognized at fair value and remeasured at their fair value after recognition. All gains and losses arising from these valuations are reflected in the income statement.

Government bonds and treasury bills included in Financial Assets at Fair Value through Profit or Loss portfolios traded in BIST are carried at weighted average exchange rates of BIST as of the balance sheet date and those securities that are not traded in BIST are carried at other valuation models. All gains and losses arising from these valuations are reflected in the statement of profit or loss.

VII. INFORMATION ON FINANCIAL ASSETS (Continued)

b. Financial Assets at Fair Value Through Other Comprehensive Income

In addition to Financial assets within a business model that aims to hold to collect contractual cash flows and aims to hold to sell, financial asset with contractual terms that lead to cash flows are solely payments of principal and interest at certain dates, they are classified as fair value through other comprehensive income.

Financial assets at fair value through other comprehensive income are recognized by adding transaction cost to acquisition cost reflecting the fair value of the financial asset. After the recognition, financial assets at fair value through other comprehensive income are remeasured at fair value. Interest income calculated with effective interest rate method arising from financial assets at fair value through other comprehensive income and dividend income from equity securities are recorded to income statement. "Unrealized gains and losses" arising from the difference between the amortized cost and the fair value of financial assets at fair value through other comprehensive income are not reflected in the income statement of the period until the acquisition of the asset, sale of the asset, the disposal of the asset, and impairment of the asset and they are accounted under the "Accumulated other comprehensive income or expense to be reclassified through profit or loss" under shareholders' equity. When these securities are collected or disposed of, the accumulated fair value differences reflected in the shareholders' equity are reflected to the income statement.

Subsequent amendments to the values of investments in equity instruments are not reflected in the income statement except for the dividend.

At initial recognition, it can be made an irrevocable election to present in other comprehensive income subsequent changes in the fair value of an investment in an equity instrument that is neither held for trading nor contingent consideration recognized by an acquirer in a business combination to which TFRS 3 applies.

The subsequent measurement of financial assets at fair value through other comprehensive income is based on fair value. However, securities that do not have a quoted market price in an active market, the fair value for the floating rate securities is measured at the amortized cost using the most probable effective interest method; for fixed interest securities, fair value pricing models or discounted cash flow techniques are used.

c. Financial Assets Measured at Amortized Cost

Financial assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are classified as financial assets measured at amortized cost.

Financial assets measured at amortized cost are initially recognized at acquisition cost including the transaction costs which reflect the fair value of those instruments and subsequently recognized at amortized cost by using effective interest rate method. Interest income obtained from financial assets measured at amortized cost is accounted in income statement.

d. Loans

Loans are financial assets that have fixed or determinable payments terms and are not quoted in an active market. Loans are initially recognized at acquisition cost plus transaction costs presenting their fair value and thereafter measured at amortized cost using the "Effective Interest Rate Method".

Bank loans and receivables are initially carried at cost value. Bank loans are measured at amortized cost with internal rate of return. Fees paid for the assets received as collateral against loans, such as transaction costs and other costs are part of acquisition cost and charged to the customer.

Bank's loans measured at amortized cost account.

VII. INFORMATION ON FINANCIAL ASSETS (Continued)

e. Impairment

Group recognizes an Impairment for financial assets measured at amortized cost and at fair value through other comprehensive income.

As of 1 January 2018, the Bank recognize provisions for impairment in accordance with TFRS 9 requirements according to the "Regulation on the Procedures and Principles for Classification of Loans by Banks and Provisions to be set aside" published in the Official Gazette dated 22 June 2016 numbered 29750. Method of provisions for impairment as set out in accordance with the related legislation of BRSA is changed by applying the expected credit loss model under TFRS 9. Expected loss estimate is unbiased, weighted by probabilities and includes supportable information about estimates of past events, current conditions and future economic conditions.

The expected credit loss model includes instruments that are recorded at amortized cost or at fair value in other comprehensive income tables (such as bank deposits, loans and securities) and, in addition, financial lease receivables that are not measured at fair value through profit or loss, credit commitments and financial guarantee contracts.

Expected credit loss is an estimate of the expected credit losses over the life of a financial instrument also the following aspects are important for the measurement.

- 1) Probability-weighted and neutral amount determined by taking into account possible outcomes
- 2) Time value of money
- 3) Reasonable and supportable information on past events, current conditions and forecast of future economic conditions, at the time of reporting, without excessive cost and effort

The expected 12 monthly credit loss values are part of the life expectancy loss calculation (within 12 months after the reporting date or within a shorter period if the life of a financial instrument is shorter than 12 months).

The main theme of the expected credit loss model can reflect the deterioration of the quality of financial instruments or the general view of recovery. The amount of expected credit loss, known as loss allowance or allowance, depends on the degree of credit deterioration. There are two measurements according to the general approach:

12-Month Expected Loss (1st Stage) is valid for all assets unless there is a significant deterioration in the quality of the loan.

Lifetime Expected Loss (2nd and 3rd Stage) is applied when a significant increase in credit risk occurs.

The following parameters are used in the calculation of expected credit loss;

Probability of Default: It denotes the possibility of default of the loan in the related term. The Bank's internal ratings are used in the calculation of the probability of default.

Loss in case of default: refers to the expected loss rate from the loan in case of default

Default Amount: refers to the risk balance for cash loans and the risk balance calculated by using the credit conversion rate for non-cash loans.

Individual Evaluation

A credit loss can be defined as the difference between all contractual cash flows that are outstanding under the contract and the original expected EIR (Effective Interest Rate) value and discounted cash flows.

When cash flows are estimated, the following conditions are taken into account;

- a) All contractual terms of the financial intermediary during the expected lifetime of the financial instrument
- b) Cash flows from collateral sales

Definition of Default

The debtor can be considered as the Stage 3 under conditions where the debtor fails to pay his obligations regardless of past due and the guarantees the debtor has.

These conditions have stated below:

- 1) To have a past due more than 90 days. (150 days for the financial leasing receivables)
- 2) The decision taken for bankruptcy or concordatum registration.
- 3) To have a loan classified as standard receivable by restructuring while monitored as non-performing loan and to have a past due more than 30 days of principal and/or interest payment delayed within the 1 year monitoring period or to have a loan restructured once more during this monitoring period.
- 4) Other neutral criteria deemed appropriate by management.

Significant increase in credit risk definition

Loans are designated as the First Group (Standard loans), the Second Group (loans under close monitoring), the Third Group (loans with limited collection), the Fourth Group (loans in suspicious cases where the loss is expected) and the fifth group (Losses).

In this context, in the criteria applied for the loans classified in the first Group; the issue of future payment issues is not expected and the credit worthiness of the borrower of the loan has not weakened. In accordance with TFRS 9, loans subject to 12-month credit impairment are classified under the First Group (Stage 1).

The criteria applied for the credits classified in the Stage 2 are; unfavourable developments in debt payment or cash flows of debtors are observed or anticipated, problems arises in principal and / or interest payments in accordance with the terms of the loan agreement and the credit risk of the borrower is considerably increased. In accordance with TFRS 9, loans classified in the Stage 2 are subject to the provision of an expected lifetime loan loss provision.

The conditions for the loans classified in the stage 2 are stated below;

1. Past due more than 30 days,
2. The subject of in-bank restructuring,
3. Bankruptcy / concordatum registration,
4. High level negative investigation
5. Restructured

Loans classified as third, fourth and fifth groups are considered as non-performing loans. In accordance with TFRS 9, these loans, which are subject to a lifetime impairment application, are classified under the Stage 3.

The relevant Staging criteria and default definitions are set out in accordance with TFRS 9 regulation and specified in the monitoring policies.

Under the contractual cash flows, the cash flows from the sale of the collateral and the cash flows from the credit are also taken into account.

In accordance with TFRS 9, probability-weighted scenarios are taken into account over the expected life of the financial instrument in order to estimate the expected losses. The assessment consists of an assessment of the possible outcomes, including the amount and timing of cash flows for certain outputs and the identification of possible scenarios that indicate the estimated likelihood of that outcome.

e. Impairment (Continued)

Bank's loans have been evaluated and classified in line with the Regulation on the Classification of Loans and the Procedures and Principles Regarding Provisions to be Reserved for them a provision has been set aside.

The Bank uses a statistical model with credit risk parameters in accordance with the relevant legislation and accounting standards in the calculation of expected credit losses. Expected credit losses are measured using reasonable and supportable information and including macroeconomic variables, taking into account macroeconomic projections for the future as well as historical information. Within the scope of the macroeconomic model, it is used in the final estimation studies obtained by weighting three scenarios as base, optimistic and negative. The changes in Gross Domestic Product (GDP) are used as the main macroeconomic independent variable used in these estimates. Credit risk parameters used in the calculation of expected credit losses are reviewed and evaluated at least once a year within the framework of model validation processes. The macroeconomic forecasts used in risk parameter models and the historical default data of portfolios are re-evaluated in each quarter in order to reflect the changes in the economic conjuncture and updated as needed.

VIII. INFORMATION ON OFFSETTING FINANCIAL INSTRUMENTS

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

IX. INFORMATION ON SALE AND REPURCHASE AGREEMENTS AND LENDING OF FINANCIAL ASSETS

Repurchase (“repo”) and resale (“reverse repo”) agreements of financial assets are followed at the balance sheet accounts. Financial assets which are sold to customers under repurchase agreements are categorized according to initial classification and are measured in accordance with the accounting policy of the related portfolio.

Funds obtained under repurchase agreements are accounted under funds provided under repurchase agreements in liability accounts. The interest expense accruals are calculated by means of internal rate of return method over the difference resulting from repurchase and sale prices for the relevant period.

Securities subject to repurchase agreements are reflected under receivables from reverse repurchase agreements. The difference between the purchase and resell price which is related with the period is computed with the effective interest rate method for accrued interest income.

As of the balance sheet date, there is no security lending transactions.

X. INFORMATION ON ASSETS HELD FOR SALE AND RELATED TO DISCONTINUED OPERATIONS AND EXPLANATIONS ON LIABILITIES RELATED WITH THESE ASSETS

Property and equipment held-for-sale consist of tangible assets that were acquired due to non-performing loans and receivables, and are accounted in the financial statements in accordance with the regulations of “Turkish Financial Reporting Standard for Assets Held for Sale and Discontinued Operations (TFRS 5)”.

The assets that meet the criteria of being classified under assets held for sale are measured at the lower of their book values or fair value less costs to be incurred for sale, depreciation for these assets is ceased and these assets are presented separately in the balance sheet. In order for an asset to be classified as an asset held for sale, the related asset (or the asset group to be disposed) shall be ready to be sold immediately under usual conditions and should have a high possibility to be sold. To have a high possibility of sale, a plan should have been made for the sale of the asset (or the asset group to be disposed) and an active program should have been started by the management, aiming to complete the plan and determine the buyers. The related amount is very low. In addition, the asset should be actively marketed at a price that is consistent with the true value.

A discontinued operation is a part of an entity which is classified as to be disposed or held for sale. The results related to discontinuing operations are presented separately in the income statement. The Bank does not have any discontinued operations.

XI. INFORMATION ON GOODWILL AND OTHER INTANGIBLE ASSETS

There is no goodwill in the accompanying financial statements related to the acquisition of a subsidiary.

The Group’s intangible assets consist of software.

Intangible assets are initially recorded at their costs in compliance with the “TAS 38 - Intangible Assets”.

The costs of the intangible assets purchased before 31 December 2004 are restated from the purchasing dates to 31 December 2004, the date the hyperinflationary period is considered to be ended. The intangible assets purchased after this date are recorded at their historical costs. The intangible assets are amortized based on straight line amortization. The useful life of software is determined as 3-15 years.

If there is objective evidence of impairment, the asset’s recoverable amount is estimated in accordance with the “TAS 36 - Impairment of Assets” and if the recoverable amount is less than the carrying value of the related asset, a provision for impairment loss is made.

XII. INFORMATION ON TANGIBLE ASSETS

The costs of the tangible assets purchased before 31 December 2004 are restated from the purchasing dates to 31 December 2004, the date the hyperinflationary period is considered to be ended. In subsequent periods no inflation adjustment is made for tangible assets, and costs which are restated as of 31 December 2004 are considered as their historical costs. Tangible assets purchased after 1 January 2005 are recorded at their historical costs after foreign exchange differences and financial expenses are deducted if any.

While the Parent Bank is using the cost model under the TAS 16 “Property, Plant and Equipment” for the valuation of the property under tangible assets, the current year has been changed to the revaluation model in the valuation of the property in use. The property value in the appraisal report prepared by the appraisal company and the net book value the positive difference is monitored in equity accounts.

Gains and losses arising from the disposal of the tangible assets are calculated as the difference between the net book value and the net sales price and recognized in the income statement of the period.

Maintenance and repair costs incurred for tangible assets are recorded as expense. Expenditures incurred that extend the useful life and service capacity of the assets are capitalized.

The depreciation rates used approximate the rates of the useful life of the tangible assets are as follows:

Tangible Assets	Estimated Useful Life (Years)	Depreciation Rate (%)
Buildings	37-44	2-3
Motor vehicles	5	20
Office equipment, furniture and fixture	3-50	2-33

There are no changes in the accounting estimates that are expected to have an impact in the current or subsequent periods.

At each reporting date, the Group evaluates whether there is objective evidence of impairment on its assets. If there is an objective evidence of impairment, the asset’s recoverable amount is estimated in accordance with the “TAS 36 - Impairment of Assets” and if the recoverable amount is less than the carrying value of the related asset, a provision for impairment loss is made.

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

XIII. INFORMATION ON LEASING ACTIVITIES

Tangible assets acquired through financial leasing are recognized as assets and the related liabilities as lease payables in the Group’s assets and liabilities, respectively. Financing costs arising from the leasing are spread over the period to form a fixed interest rate throughout the lease term. Interest and foreign exchange expenses related to financial leasing are reflected in the profit or loss statement. Depreciation is calculated for the assets acquired through financial leasing in accordance with the principles applied for tangible fixed assets.

As of the end of the reporting period, the Group does not have the authority to make financial leasing, like a financial leasing company.

Explanations on TFRS 16 Leases

Group - as a tenant

The group assesses at the inception of a contract whether the contract is or contains a lease. If the contract transfers the right to control the use of the identified asset for a specified period of time, the contract is or includes a lease. The Group reflects a right-of-use asset and a lease liability in its financial statements at the commencement date of the lease.

Right-of-use asset

The right-of-use asset is initially accounted for using the cost method and includes:

- a) The initial measurement amount of the lease liability,
- b) The amount obtained by deducting all lease incentives received from all lease payments made on or before the actual commencement of the lease,
- c) All initial direct costs incurred by the group

When applying the group cost method, the right-of-use entity:

- a) Accumulated depreciation and accumulated impairment losses are deducted; and
- b) Measures at cost adjusted for remeasurement of the lease liability.

While depreciating right-of-use assets, the Group applies the depreciation provisions of TAS 16 Tangible Fixed Assets.

Rental liability

At the commencement date of the lease, the Group measures the lease liability at the present value of the lease payments not paid at that date. Lease payments are discounted using the alternative borrowing interest rate.

At the commencement date of the lease, the lease payments included in the measurement of the lease liability consist of payments for the right to use the underlying asset during the lease term that are not paid at the commencement date of the lease.

After the actual commencement date of the lease, the Group measures the lease liability as follows:

- a) Increases the book value to reflect the interest on the lease liability,
- b) Decrease book value to reflect lease payments made; and
- c) Remeasure book value to reflect reassessments and restructurings or to reflect revised lease payments that are fixed in substance.

The interest on the lease liability for each period in the lease term is the amount found by applying a fixed periodic interest rate to the remaining balance of the lease liability.

XIV. INFORMATION ON PROVISIONS, CONTINGENT LIABILITIES AND CONTINGENT ASSETS

Provisions and contingent liabilities are provided for in accordance with the “TAS 37 - Provisions, Contingent Liabilities and Contingent Assets”, except for the general and specific provisions set aside for the loans and other receivables.

Provisions are recognized when the Bank has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the amount of obligation can be made.

A provision for contingent liabilities arising from past events should be recognized in the same period of occurrence if it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate the amount of the obligation can be made.

As of the balance sheet date, there are no probable contingent liabilities resulting from past events whose amount can be reliably measured.

Contingent assets usually arise from unplanned or other unexpected events that give rise to the possibility of an inflow of economic benefits to the entity. Contingent assets are not recognized in financial statements since this may result in the recognition of income that may never be realized. Contingent assets are disclosed where an inflow of economic benefits is probable. Contingent assets are assessed continually to ensure that developments are appropriately reflected in the financial statements. If it has become virtually certain that an inflow of economic benefits will arise, the asset and the related income are recognized in the financial statements in which the change occurs.

XV. INFORMATION ON LIABILITIES REGARDING EMPLOYEE BENEFITS

Reserve for other benefits to employees

In accordance with existing Turkish Labor Law, the Bank is required to make lump-sum termination indemnities to each employee who has completed one year of service with the Bank and whose employment is terminated due to retirement or for reasons other than resignation or as mentioned in related legislation. The Bank calculates and accounts in financial statements by estimating the present value of the future probable obligation regarding severance pay in accordance with the provisions of “TAS 19-Employee Benefits”. The resulting actuarial losses and gains are accounted for under equity in accordance with TAS 19.

In determining the liability, the Bank uses independent actuaries and makes assumptions on issues such as discount rate and inflation. The assumptions regarding the calculation are as follows.

	Current Year	Prior Year
Discount Rate	12.10%	12.10%
Inflation Rate	9.90%	9.90%

The vacation pay obligation is calculated on the cumulative sum of the number of unused leave days that are deducted from the legally granted leave each year.

Other benefits to employees

The Group has provided provision for undiscounted short-term employee benefits earned during the financial period as per services rendered in compliance with the updated TAS 19 in the accompanying consolidated financial statements.

XVI. INFORMATION ON TAX APPLICATIONS

Corporate tax

With the Law No. 7394 published in the Official Gazette dated April 15, 2022 and numbered 31810, the corporate tax rate for banks has been determined as 25%, and this rate will start from the declarations that must be submitted as of July 1, 2022 and be applied to the corporate earnings of the accounting periods starting from January 1, 2022. entered into force.

Corporate tax rate is calculated on the total income of the Bank after adjusting for certain disallowable expenses, exempt income and other allowances. No further tax is payable unless the profit is distributed.

The prepaid taxes are calculated and paid at the rates valid for the earnings of the related years. The payments can be deducted from the annual corporate tax calculated for the whole year earnings.

Dividends paid to the resident institutions and the institutions working through local offices or representatives are not subject to withholding tax. The withholding tax rate on the dividend payments other than the ones paid to the non-resident institutions generating income in Türkiye through their operations or permanent representatives and the resident institutions is 15%. By the Decision of the President published in the Official Gazette dated 22 December 2021 and numbered 31697, this ratio has changed to 10% In applying the withholding tax rates on dividend payments to the non-resident institutions and the individuals, the withholding tax rates covered in the related Double Tax Treaty Agreements are taken into account. Appropriation of the retained earnings to capital is not considered as profit distribution and therefore is not subject to withholding tax.

Within the framework of the provisions of the Corporate Tax Law No. 5520, 75% of the profits arising from the sale of the immovables, participation shares and founding certificates, usufruct shares and priority rights held by the institutions for at least two full years; It is exempted from corporate tax, provided that it is kept in a special fund account or added to the capital until the end of the fifth year following the year of sale, provided that it is collected until the end of the second calendar year. As of December 5, 2017, 50% exemption is applied for the gains arising from the sale of immovables and 75% for the gains arising from the sale of others.

The Law No. 7352, dated January 20, 2022, on the amendment of the Tax Procedure Law and the Corporate Tax Law was enacted with the Official Gazette numbered 31734 on January 29, 2022. It has been decided that the financial statements will not be subject to inflation adjustment in the 2021 and 2022 accounting periods, including the temporary accounting periods, and in the provisional tax periods of the 2023 accounting period, regardless of whether the conditions for the inflation adjustment within the scope of the Repeated Article 298 are met.

Deferred taxes

The Bank calculates and accounts deferred tax assets and liabilities in accordance with the “TAS 12 - Income Taxes” and BRSA’s explanations; deferred tax assets and liabilities are recognized on all taxable temporary differences arising between the carrying values of assets and liabilities in the financial statements and their corresponding balances used for taxation purposes except for the differences not deductible for tax purposes and initial recognition of assets and liabilities which affect neither accounting nor taxable profit.

If transactions and events are recorded in the statement of profit or loss, then the related tax effects are also recognized in the statement of income. However, if transactions and events are recorded directly in the shareholders’ equity, the related tax effects are also recognized directly in the shareholders’ equity.

The net amount of deferred tax receivables and deferred tax payables is shown on the financial tables.

Transfer pricing

In Türkiye, the transfer pricing provisions has been stated under the Article 13 of Corporate Tax Law with the heading of disguised profit distribution via transfer pricing. “The General Communiqué on Disguised Profit Distribution via Transfer Pricing”, dated 18 November 2007 sets details about implementation.

If the companies enter into transactions concerning to the sale or the purchase of the goods or services with the related parties by setting the prices or amounts which are not in line with the arm’s length principle, related profits will be treated as having been wholly or partially distributed in a disguised way via transfer pricing. This kind of disguised profit distribution via transfer pricing cannot be deducted from tax base in accordance with corporate tax.

XVII. ADDITIONAL INFORMATION ON BORROWINGS

The Group accounts for its borrowing instruments in accordance with TFRS 9 “Financial Instruments” standard and evaluates all its financial liabilities with the “effective interest rate method” in subsequent periods. There are no borrowings required to apply the hedging techniques in respect of the accounting and valuation methods of borrowing instruments and liabilities that represent borrowing.

The Group did not issue any stocks convertible into bonds.

The Group does not have borrowing instruments issued by itself.

XXII. INFORMATION ON SEGMENT REPORTING

Operating segment is the unit that operates in only one product or service of the Parent Bank or the group of products or services which are related each other and differs from other units from the point of risk and profit. Operating segments are presented in the footnote XI of Fourth Section.

XXIII. OTHER DISCLOSURES

Profit reserves and profit distribution

Retained earnings other than legal reserves are available for distribution, subject to legal reserve requirement referred to below.

The legal reserves are comprised of first and second reserves, in accordance with the Turkish Commercial Code (“TCC”). The first legal reserve is appropriated out of the profits at the rate of 5% until the total reserve reaches a maximum of 20% of the Bank’s paid in capital. The second legal reserve is appropriated at the rate of 10% of all distributions in excess of the 5% of the Company’s share capital; however holding companies are not subject to this application. First and second legal reserves can only be used to compensate accumulated losses and cannot be used for profit distribution unless they exceed 50% of paid-in capital.

Related parties

In accompanying financial statements, shareholders, key management personnel and board members together with their families and companies controlled by or affiliated by them associated and jointly controlled entities are considered as Related Parties in compliance with “TAS 24 - Related Party Disclosures”.

II. INFORMATION ON CONSOLIDATED FOREIGN CURRENCY EXCHANGE RATE RISK

Whether the Group is exposed to foreign exchange risk, whether the effects of this situation are estimated, and whether the board of directors of the Bank sets limits for positions that are monitored daily

The Group complies with net general position-shareholder's equity limits. The Group has the possibility to borrow a significant amount of foreign currency.

Within the context of the market risk management work of the Risk Management Department, the Parent Bank's Exchange rate risk is calculated and analyzed taking different dimensions of the issue in consideration. The Exchange rate risk is measured according to market risk calculated using the Standard Method and is included in the capital adequacy ratio. For testing effects of the unexpected exchange rate fluctuations on the Parent Bank monthly basis stress test analysis are done. In addition, by classifying the changes in risk factors different scenario analysis are done based on different exchange rate expectations. The sensitivity of assets, liabilities and off-balance sheets against exchange rate are measured by an analysis on a monthly basis.

V. INFORMATION ON CONSOLIDATED LIQUIDITY RISK MANAGEMENT

Information on liquidity risk management regarding risk capacity of the Parent Bank, responsibilities and structure of the liquidity risk management, reporting of the liquidity risk in the Bank, the way that sharing liquidity risk strategy, policy and implementations with the board of directors and job fields.

Evaluation of capacity of liquidity risk position of the Parent Bank depends on current liquidity position, current and estimated asset quality, current and future income capacity, historical funding needs, estimated funding needs and decreasing funding needs or analysis of decrease in additional funding choices. One or more actions below are done to find funds in order to maintain liquidity needs.

- Disposal of the liquid assets
- Maintain increasing short term debts and/or additional short term time deposit and deposit like assets
- Decrease in moveable long term assets
- Increase in long term liabilities
- Increase in equity funds

Responsibility of the management of general liquidity belongs to Top Level Management, Treasury Department or Asset/Liability Committee ("ALCO") which is consisting of Risk Management executives. Appropriate controls and balances are maintained in every condition.

Analysis of effects of various stress scenarios on the liquidity position and establishment of limits are crucial in order to establish effective liquidity risk management. Limits are determined according to the size of the Parent Bank, complexity of transactions and suitability of the financial conditions.

One of the important components of liquidity management is management information system which is created to offer information about the liquidity position of the Parent Bank to the Board of Directors, top level management and related appropriate personnel at the right time. Strong management information system is an integral part of the reliable decision making process of the liquidity.

One of the important aspects of liquidity management is making assumptions on prospective funding needs. Although final cash inflows and outflows can be easily calculated or estimated, the Parent Bank also makes short-term and long-term assumptions. Another important consideration is that the Parent Bank's reputation plays an important role in reaching the funds it needs in a reasonable amount of time.

Management also has an emergency plan to be implemented in the absence of accurate projections. An effective emergency planning consists of identifying minimum and maximum liquidity needs and weighting alternatives that will be used to meet these needs.

The degree of centralization of liquidity management and funding strategy and information about the functioning between the Bank and its shareholders

The Parent Bank is supported by well-established shareholders among most powerful financial institutions in Türkiye, Middle East and the North African region. ⁽¹⁾ The monthly simple arithmetic average calculated consolidated liquidity coverage ratio of the last three months average.

Important factors affecting the liquidity coverage ratio results and the change over time of those items taken into account while calculating this ratio

High-quality liquid assets and cash outflows are one of the most important factors affecting the calculation of the liquidity coverage ratio for Parent bank. A major portion of high-quality liquid assets of the Parent Bank are consisted of treasury bills and free deposits held in CBRT. High-quality liquid assets been on the rise throughout the year had a positive effect on the calculation of liquidity coverage ratio.

Sections High-quality liquid assets comprised of

High-quality liquid assets consist of cash, effectives, debt instruments issued by CBRT and treasury, debt instruments with a credit or default rating from A+ to BBB- or any equivalent Debt Instruments. CBRT accounts for 30% of high-quality liquid assets of the Parent Bank, while 68% comprised of debt instruments issued by the Treasury and 1% of cash and effectives.

Sections Funding sources comprised of and their densities within all funds

A significant part of the funding sources are comprised of deposits received. 44% of the total liabilities are deposits received. 37% of these deposits are deposits obtained from banks.

V. INFORMATION ON CONSOLIDATED LIQUIDITY RISK MANAGEMENT (Continued)

Information on cash outflows arising from derivative transactions and transactions that are subject to collateralization

Cash outflows due to derivative contracts occur during periods when the bank's derivative liabilities exceed its derivative receivables. As at 31 March 2023, the net cash outflow from derivative transactions is none.

Counterparty and product-based funding sources and concentration limits on collaterals

A significant part of the funding sources are comprised of deposits received. 44% of the liability is deposits and 37% of these deposits are from banks. All of these liabilities are warrantless.

Funding needs in terms of the Bank itself, foreign branches and consolidated subsidiaries taking into account operational and legal factors that inhibits the Bank's liquidity transfer and liquidity risk exposure

The Parent Bank obtains funds essentially from main shareholder Libyan Foreign Bank and its subsidiaries. These reliable and ongoing funds are renewed at different maturities and expected to continue for many years.

Other cash inflows and outflows that are included in liquidity coverage calculation but not included in the public disclosure template in the second paragraph and considered to be related with the Bank's liquidity profile

None.

Information on Reserve Deposits

In accordance with the "Communiqué Regarding the Reserve Requirements no. 2005/1, the Bank is required to maintain reserves in CBT for TL and foreign currency liabilities. The reserve requirements can be maintained as TL, USD, EUR and gold. The required reserve rates for TL liabilities vary between 3% and 8% for TL deposits and other liabilities according to their maturities as of 31 December 2022 (31 December 2022: 3% and 8% for all TL liabilities). The reserve rates for foreign currency liabilities vary between 5% and 26% for deposit and other foreign currency liabilities according to their maturities as of 31 December 2022 (31 December 2022: 5% and 26% for all foreign currency liabilities). According to the conversion rate from real person and commercial entity foreign currency deposit to Turkish Lira time deposit account, additional reserve requirements might be established on foreign currency deposits and precious metal deposit accounts. As of April 15, 2022, the 8.5% interest rate applied by the CBT for required reserves in Turkish Lira has been terminated (31 December 2022: 8.5%). No interest is paid for required reserves in foreign currency.

As of December 23, 2022, within the scope of the "Communiqué on Supporting the Conversion of Turkish Lira Deposit and Participation Accounts" numbered 2021/14, the practices regarding the establishment of additional required reserves and the payment of commissions according to the conversion rate to foreign currency deposit accounts in USD, EUR and GBP were abolished TL time deposit accounts have also been removed.

On the other hand, as of 23 December 2022, the commission application according to the share of Turkish Lira deposits in total deposits has been determined as 8% for banks with less than 50% and 3% for banks between 50% and 60%. Commissions payable will be calculated over the required reserve amount for foreign currency deposit liabilities.

Within the scope of the "Communiqué on the Establishment of Turkish Lira Securities for Foreign Currency Liabilities" numbered 2022/20; there is a practice of placing securities over foreign currency liabilities and assets (majorly based on loan allocation, loan growth and differentiation according to interest rate).

SECTION SEVEN

EXPLANATIONS ON INTERIM ACTIVITY REPORT

I. Evaluation of the Parent Bank's Chairman and General Manager for the Period

In the first quarter of 2023, the main agenda of the global markets was the negative developments in the banking sectors of the USA and the Europe. At the end of the first quarter of the year, the US Federal Reserve (Fed) increased the policy rate to the range of 4.75-5.00%, the highest level in 16 years. Similarly, the European Central Bank (ECB) increased the three main policy rates to the highest level since 2008 in the crisis environment of the banking sector. In its Economic Outlook Report published in March, OECD increased its global growth forecast from 2.2% to 2.6% for 2023 and from 2.7% to 2.9% for 2024. While it was stated in the report that global economic activity improved compared to a few months ago, it was emphasized that rising interest rates kept the risks related to economic activity alive.

Despite the slowdown in global activity, the Türkiye's economy grew by 5.6% in 2022, outperforming expectations. In the first quarter of the year, headline inflation went down to 50.51%, its lowest level since January 2022, due to the fall in global energy prices. On the other hand, the annual current account deficit rose to 55.4 billion dollars depending mostly on the decline in exports due to the earthquake disaster and the weak economic outlook in Türkiye's main export markets. On the interest rate side, the Central Bank of the Republic of Türkiye lowered the policy rate to 8.5% in order to support financial conditions without compromising the improvement in the inflation outlook.

The banking sector, which operates within the framework of the regulations and new rule sets implemented within the scope of macro-prudential measures and liraization strategy, which were put into effect as of the second quarter of last year in order to support financial stability and strengthen monetary transmission mechanisms, continued to support the Türkiye's economy in the period we left behind in 2023. As of the end of February, the asset size of the sector increased by 4.8% compared to the end of the previous year and reached TL 15,034 billion, while loan and deposit volumes reached TL 8.055 billion and TL 9.438 billion, respectively. The last year's significant increases in the profitability figures returned to a more moderate outlook in the first two months of 2023 with the effect of the regulations put into effect. In this respect, net term profit of the sector increased by 68.1% compared to the same period of the previous year and reached TL 65.6 billion. As a result, return on equity ratio of the sector was realized as 47.07% on an annual basis.

At the end of the first quarter of 2023, our Group's asset size and total equity stood at TL 10.8 billion and TL 1.9 billion, respectively, and our consolidated capital adequacy standard ratio maintained its strong outlook with 18.38%.

Our core operating principles will continue to be pursuit of "sustainable healthy growth" while remaining steadfast to effective risk and liquidity management and adding value to the country's economy in the forthcoming period, as it was in the past. In addition, we will continue improving our information technology systems and automation processes, boosting our service quality and increasing operational efficiency by ensuring full compliance to corporate governance principles.

Best regards,

Wail J. A. BELGASEM
Member of Board of Directors and
General Manager

Yasin ÖZTÜRK
Chairman of Board of Directors
