**PUBLICLY ANNOUNCED  
UNCONSOLIDATED FINANCIAL STATEMENTS  
TOGETHER WITH REVIEW REPORT  
AT 30 SEPTEMBER 2014**

**CONVENIENCE TRANSLATION OF THE INDEPENDENT AUDITOR'S  
REVIEW REPORT ORIGINALLY PREPARED AND ISSUED IN TURKISH**

To the Board of Directors of Arap Türk Bankası A.Ş.:

We have reviewed the accompanying unconsolidated balance sheet of Arap Türk Bankası A.Ş. ("the Bank") at 30 September 2014 and the related unconsolidated statements of income, cash flows and changes in shareholders' equity for the period then ended. These financial statements are the responsibility of the Bank's management. Our responsibility, as independent auditors is to issue a report on these financial statements based on our review.

We conducted our review in accordance with the Uniform Chart of Accounts of banks, accounting standards and the independent audit principles in conformity with Banking Law No. 5411. Those principles require that we plan and perform the review to obtain moderate assurance as to whether the financial statements are free of material misstatement. A review is limited primarily to inquiries concerning the Bank's personnel and analytical procedures applied to financial data and thus provides less assurance than an audit. We have not performed an audit and, accordingly, we do not express an audit opinion.

As mentioned in Section II. Note 7. of Explanations and Notes to the Unconsolidated Financial Statements; as of the balance sheet date, the accompanying financial statements include a free provision amounting to TL 3,000 thousand which was charged to the income statement as an expense in the current period, provided by the Bank management in line with the conservatism principle considering the circumstances that may arise from any changes in the economy or market conditions.

Based on our review, except for the effect of the matter on the unconsolidated financial statements described in the paragraph above, nothing has come to our attention that causes us to believe that the accompanying unconsolidated financial statements do not give a true and fair view of the financial position of Arap Türk Bankası A.Ş. at 30 September 2014 and the results of its operations and its cash flows for the period then ended in accordance with accounting principles and standards set out by regulations in conformity with Article 37 of Banking Law No. 5411 and other regulations, interpretations and circulars published by the Banking Regulation and Supervision Agency on accounting and financial reporting principles.

**Additional paragraph for convenience translation:**

**As explained in Note I. of Section Three, the effects of differences between accounting principles and standards set out by regulations in conformity with Article 37 of Banking Law No. 5411, accounting principles generally accepted in countries in which the accompanying unconsolidated financial statements are to be distributed and International Financial Reporting Standards ("IFRS") have not been quantified in the accompanying unconsolidated financial statements. Accordingly, the accompanying unconsolidated financial statements are not intended to present the financial position, results of operations and changes in financial position and cash flows in accordance with the accounting principles generally accepted in such countries and IFRS.**

**IV. INFORMATION ON INTEREST RATE RISK**

**Interest rate sensitivity of the assets, liabilities and off-balance sheet items**

Within the context of the market risk management of the Risk Management Department, the Bank’s interest rate risk is calculated and analyzed taking different dimensions of the issue in consideration. The interest rate risk is measured according to market risk calculated using the standard method and is included in the capital adequacy ratio. To test the effect of the interest rate fluctuations on the Bank monthly based stress test analysis are done.

In addition, by classifying the changes in risk factors different scenario analysis are done based on different interest rate expectations. The sensitivity of assets, liabilities and off-balance sheets against interest rate are measured by an analysis on a monthly basis.
