INDEPENDENT AUDITOR'S REPORT**

**To the General Assembly of Arap Türk Bankası A.Ş.**

**A. Audit of the Consolidated Financial Statements**

**1. Opinion**

We have audited the accompanying consolidated financial statements of Arap Türk Bankası A.Ş. (the “Bank”), and its subsidiary (collectively referred to as the “Group”) which comprise the statement of consolidated balance sheet as at 31 December 2023, consolidated statements of profit and loss, consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in shareholders’ equity, consolidated statement of cash flows for the year then ended and the notes to the consolidated financial statements and a summary of significant accounting policies and consolidated financial statement notes.

In our opinion, the consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at 31 December 2023, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with the Banking Regulation and Supervision Agency (“BRSA”) Accounting and Financial Reporting Legislation which includes “Regulation on Accounting Applications for Banks and Safeguarding of Documents” published in the Official Gazette No.26333 dated 1 November 2006, and other regulations on accounting records of Banks published by Banking Regulation and Supervision Board and circulars and interpretations published by BRSA and Turkish Financial Reporting Standards (“TFRS”) for those matters not regulated by the aforementioned regulations.

**2. Basis for Opinion**

Our audit was conducted in accordance with the “Regulation on Independent Audit of Banks” published by the BRSA on the Official Gazette No.29314 dated 2 April 2015 and the Standards on Independent Auditing (the “SIA”) that are part of Turkish Standards on Auditing issued by the Public Oversight Accounting and Auditing Standards Authority (the “POA”). Our responsibilities under these standards are further described in the “Auditor’s Responsibilities for the Audit of the Consolidated Financial Statements” section of our report. We hereby declare that we are independent of the Group in accordance with the Ethical Rules for Independent Auditors (including Independence Standards) (the “Ethical Rules”) and the ethical requirements regarding independent audit in regulations issued by POA that are relevant to our audit of the consolidated financial statements. We have also fulfilled our other ethical responsibilities in accordance with the Ethical Rules and regulations. We believe that the audit evidence we have obtained during the independent audit provides a sufficient and appropriate basis for our opinion.

### 3. Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. Key audit matters were addressed in the context of our independent audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

<b>Key Audit Matters</b>	<b>How the key audit matter was addressed in the audit</b>
<p><b>Expected credit losses for loans and receivables</b></p> <p>The Group has total expected credit losses for loans and receivables amounting to TL 20.682 thousand in respect to total loans and receivables amounting to TL 4.479.999 thousand which represent a significant portion of the Group’s total assets in its consolidated financial statements as at 31 December 2023.</p> <p>Explanations and notes related to expected credit losses for loans and receivables are presented in Section Three Part VII., Section Four Part II and X., Section Five Part 1.6 in the accompanying consolidated financial statements as at 31 December 2023.</p> <p>The Group recognizes provision for impairment in accordance with “IFRS 9 Financial Instruments” (“IFRS 9”) requirements and the “Regulation on the Procedures and Principles for Classification of Loans and Provisions to be Provided” as published in the Official Gazette dated 22 June 2016 numbered 29750. The Group exercises significant decisions using subjective judgement, interpretation and assumptions over when and how much to record as loan impairment.</p> <p>To determine expected credit losses as of 31 December 2023 the Group determines stage classification of loans by identifying significant increase in credit risk with quantitative and qualitative assessments disclosed in Section Three Part 8 in the accompanying consolidated financial statements and identification of default events disclosed in Section Four Part 2 in the accompanying consolidated financial statements.</p>	<p>With respect to stage classification of loans and receivables and calculation of expected credit losses, we have assessed policy, procedure and management principles of the Group within the scope of our audit. We tested the design and the operating effectiveness of relevant systems and processes implemented in accordance with these principles.</p> <p>We checked appropriateness of matters considered in methodology applied by the Group with IFRS 9 for calculation of the provision amount through stage classification of loans and receivables. For forward looking assumptions made by the Group’s management in its expected credit losses calculations, we held discussions with management, evaluated the assumptions using publicly available information. Regarding expected credit losses methodology; we have assessed and tested model segmentation, lifetime probability of default model, exposure at default model, loss given default model and the approaches to reflecting reasonable and supportable forward looking expectations (including macroeconomic factors) with our financial risk experts. Our procedures also included the following:</p> <ul style="list-style-type: none"> <li>• Together with our financial risk experts, we evaluated and tested reasonableness of the changes in the expected credit loss allowance methodology and the performance of the impairment models used and results of validation studies.</li> </ul>

<b>Key Audit Matters</b>	<b>How the key audit matter was addressed in the audit</b>
<p data-bbox="274 495 764 558"><b>Expected credit losses for loans and receivables (Continued)</b></p> <p data-bbox="274 590 902 846">The Group uses complex models that requires data to be derived from multiple systems for determining significant increase in credit risk and calculation of TFRS 9 expected credit losses. These models contain judgement and estimations in regard to forward looking estimations, scenarios of macro-economic conditions and weighing of scenarios based on expert opinion.</p> <p data-bbox="274 877 886 1037">Information used in the individually or collectively assessment of expected credit loss such as historical loss experiences, current conditions and macroeconomic expectations should be supportable and appropriate.</p> <p data-bbox="274 1068 898 1577">Our audit was focused on this area due to existence of complex estimates and information used in the impairment assessment such as macro-economic expectations, current conditions, historical loss experiences, development and weighting of macro-economic scenarios; the significance of the loans and receivables balances; the classification of loans and receivables as per their credit risk (staging) and the importance of determination of the associated expected credit loss. Timely and correct identification of default event and significant increase in credit risk and level of judgements and estimations made by the management have significant impacts on the amount of impairment provisions for loans and receivables. Therefore, this area is considered as key audit matter.</p>	<ul data-bbox="930 590 1498 1644" style="list-style-type: none"> <li>• We have checked selected Probability of Default (PD) models used in determination of provisions for various credit portfolios with our financial risk experts by reperforming on a sample selection basis.</li> <li>• For a sample of exposures, we checked the accuracy of determining Exposure at Default, including the consideration of prepayments and repayments in the cash flows and the resultant arithmetical calculations. We checked the calculation of the Loss Given Default (LGD) used by the Group in the expected credit losses calculation methodology, and tested collaterals.</li> <li>• We checked key data sources for data used in expected credit losses calculations. We tested reliability and completeness of the data used in expected credit losses calculations with our information systems specialists.</li> <li>• We checked accuracy of resultant expected credit losses calculations.</li> <li>• To assess appropriateness of the Group’s determination of staging for credit risk, identification of impairment and timely and appropriate provisioning for impairment we have performed loan review procedures based on a selected sample.</li> <li>• We evaluated the adequacy of the disclosures made in the consolidated financial statements regarding the provision for impairment of loans and receivables.</li> </ul>

#### **4. Other Matter**

The consolidated financial statements of the Bank as at 31 December 2022 were audited by another auditor whose report dated 23 February 2023 expressed an unqualified opinion.

#### **5. Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements**

The Group management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the BRSA Accounting and Financial Reporting Legislation, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

#### **6. Auditor's Responsibilities for the Audit of the Consolidated Financial Statements**

Responsibilities of independent auditors in an independent audit are as follows:

Our aim is to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an independent auditor's report that includes our opinion. Reasonable assurance expressed as a result of an independent audit conducted in accordance with "Regulation on Independent Audit of Banks" published by the BRSA on the Official Gazette No.29314 dated 2 April 2015 and SIA is a high level of assurance but does not guarantee that a material misstatement will always be detected. Misstatements can arise from fraud or error.

Misstatements are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an independent audit conducted in accordance with “Regulation on Independent Audit of Banks” published by the BRSA on the Official Gazette No.29314 dated 2 April 2015 and SIA, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement in the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Assess the internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group’s internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management’s use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor’s report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our independent auditor’s report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence. We also communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### **B. Other Responsibilities Arising From Regulatory Requirements**

1. No matter has come to our attention that is significant according to subparagraph 4 of Article 402 of Turkish Commercial Code ("TCC") No. 6102 and that causes us to believe that the Bank's bookkeeping activities concerning the period from 1 January to 31 December 2023 period are not in compliance with the TCC and provisions of the Bank's articles of association related to financial reporting.
2. In accordance with subparagraph 4 of Article 402 of the TCC, the Board of Directors submitted the necessary explanations to us and provided the documents required within the context of our audit.

#### **Additional Paragraph for Convenience Translation**

BRSA Accounting and Financial Reporting Legislation explained in detail in Section Three differ from International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board including the application of IAS 29 - Financial Reporting in Hyperinflationary Economies as of 31 December 2023. Accordingly, the accompanying consolidated financial statements are not intended to present fairly the consolidated financial position, results of operations, changes in equity and cash flows of the Group in accordance with IFRS.

II.	Information and footnotes prepared by the independent auditor	101

**SECTION ONE**

**GENERAL INFORMATION ABOUT THE PARENT BANK**

**I. THE PARENT BANK’S DATE OF ESTABLISHMENT, BEGINNING STATUTE, ITS HISTORY REGARDING CHANGES ON ITS STATUTE**

Arap Türk Bankası Anonim Şirketi (“the Bank” or “the Parent Bank”) has been established in 1977 as a joint stock entity in accordance with an agreement signed on 11 August 1975 between the Republic of Turkey and the Libyan Arab Republic. The duration of the Bank is 50 years from the commencement of the Agreement. This period shall be renewable automatically unless agreed otherwise by an Extraordinary General Meeting held at least one year prior to expiration.

In accordance with the Articles of Association, the Board of Directors shall elect a Chairman among its Turkish members and a Deputy Chairman among its Arab members. The General Manager shall always be nominated by Libyan Foreign Bank assigned by the Board.

**II. THE PARENT BANK’S SHARE CAPITAL STRUCTURE, SHAREHOLDERS DIRECTLY OR INDIRECTLY, ALONE OR TOGETHER HOLDING THE MANAGEMENT AND CONTROL OF THE BANK, RELATED CHANGES WITHIN THE YEAR AND INFORMATION ABOUT THE BANK’S GROUP**

The Parent Bank is a foreign bank status incorporated in Turkey. The main shareholder Libyan Foreign Bank is 100% owned by Central Bank of Libya. The main shareholder Libyan Foreign Bank has financial investments in various countries.

The shareholder’s other qualified shares are Türkiye İş Bankası A.Ş. and T.C. Ziraat Bankası A.Ş.

As of 31 December 2023, the Parent Bank’s share capital at the balance sheet date as follows:

<b>Shareholders</b>	<b>Current Period</b>	
	<b>Share amounts</b>	<b>Share percentages <sup>(1)</sup></b>
Libyan Foreign Bank	274,426	%62.37
T. İş Bankası A.Ş.	90,534	%20.58
T.C. Ziraat Bankası A.Ş.	67,900	%15.43
Kuwait Investment Co.	7,140	%1.62
<b>Total</b>	<b>440,000</b>	<b>%100</b>

<sup>(1)</sup> Emek İnşaat ve İşletme A.Ş. has 0.0000014% share in the paid capital by TL 6.20 (full digit in TL) (31 December 2022: 0.0000014% share and TL 6.20 (full digit in TL).

**GENERAL INFORMATION ABOUT THE PARENT BANK (Continued)****III. INFORMATION ABOUT THE PARENT BANK’S CHAIRMAN AND MEMBERS OF BOARD OF DIRECTORS, MEMBERS OF AUDIT COMMITTEE, GENERAL MANAGER AND ASSISTANT GENERAL MANAGERS AND THEIR QUALIFICATIONS, RELATED CHANGES WITHIN THE YEAR AND THEIR SHARES AT THE BANK****Chairmen of the Board of Directors and Board Members**

<b>Name</b>	<b>Job Title – Description</b>
Yasin Öztürk	Chairman of the Board of Directors
Mohamed Milad Ebrayik Hassadi <sup>(1)</sup>	Deputy Chairman of the Board of Directors and Chairman of Audit Committee
Wail J. A. Belgasem	Member of the Board of Directors and General Manager
Aflah Omar Magsi	Member of the Board of Directors and Member of Audit Committee
Selen Giyim <sup>(3)</sup>	Member of the Board of Directors and Member of Audit Committee
İmge Hilal Soyluoğlu Canlı <sup>(2)</sup>	Member of the Board of Directors
Hüseyin Serdar Yücel	Member of the Board of Directors
Nouri Ali Mohamed Aboflega	Member of the Board of Directors
Abdulkhalek Hussein Ergei	Member of the Board of Directors

(1) Mohamed Milad Ebrayik Hassadi was appointed as Deputy Chairman of the Board of Directors as of March 21, 2023.

(2) Serkan Günay resigned from the Board of Directors on March 20, 2023. İmge Hilal Soyluoğlu Canlı was appointed in his place with the decision taken at the Board of Directors Meeting on March 21, 2023. İmge Hilal Soyluoğlu Canlı started her duty on March 30, 2023.

(3) Dr. Sinan Şahin resigned from the Board of Directors and Gülbin Çakır was appointed in his place with the decision taken at the Board of Directors Meeting held on March 21, 2023. Gülbin Çakır took office on March 30, 2023. Gülbin Çakır resigned from the Board of Directors and Selen Giyim was appointed in her place with the decision taken at the Board of Directors Meeting held on December 19, 2023. Selen Giyim took office on January 15, 2024.

**General Manager and Deputies**

<b>Name</b>	<b>Job Title – Description</b>
Wail J. A. Belgasem	Member of the Board of Directors and General Manager
Salih Hatipoğlu	Assistant General Manager - Financial Management, IT and Support Services
Ahmed Fraj Abdullah Ferjani	Assistant General Manager – Treasury, Financial Institutions, Sales Marketing and Operations Division

Members of the board and top level managers do not possess any share in the Bank.

**IV. INFORMATION ON PEOPLE AND ENTITIES WHO HAVE QUALIFIED SHARE IN THE PARENT BANK**

<b>Name Surname/Entity Title</b>	<b>Share Amount</b>	<b>Share Percentage %</b>	<b>Paid-in Capital</b>
Libyan Foreign Bank	274,426	62.37	274,426
T. İş Bankası A.Ş.	90,534	20.58	90,534
T.C. Ziraat Bankası A.Ş.	67,900	15.43	67,900

**V. INFORMATION ABOUT THE SERVICES AND NATURE OF ACTIVITIES OF THE PARENT BANK**

The Parent Bank was established to incorporate commercial activities among Turkey, Middle East and North African countries. The Bank is authorized to collect deposits and operates in corporate banking areas.

The Bank has seven branches; three in Istanbul, one in Ankara, one in Kayseri, one in Konya and one in Gaziantep and has share participations in a subsidiary operating in financial leasing business.

**GENERAL INFORMATION ABOUT THE PARENT BANK (Continued)**

**VI. DIFFERENCES BETWEEN THE COMMUNIQUE ON PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS OF BANKS AND TURKISH ACCOUNTING STANDARDS AND SHORT EXPLANATION ABOUT THE ENTITIES SUBJECT TO FULL CONSOLIDATION OR PROPORTIONAL CONSOLIDATION AND ENTITIES WHICH ARE DEDUCTED FROM EQUITY OR ENTITIES WHICH ARE NOT INCLUDED IN THESE THREE METHODS**

There is no difference for the Parent Bank between the consolidation process according to the Turkish Accounting Standards and the Communiqué of the Preparation of Consolidated Financial Statements of Banks in Turkey.

**VII. THE EXISTING OR POTENTIAL, ACTUAL OR LEGAL OBSTACLES ON THE TRANSFER OF SHAREHOLDERS’ EQUITY BETWEEN THE PARENT BANK AND ITS SUBSIDIARIES OR THE REIMBURSEMENT OF LIABILITIES**

None.

(\*) The profit distribution table for the previous period was finalised with the decision of the Ordinary General Assembly after the independently audited financial statements dated 31 December 2022 were published and restated accordingly.

The accompanying explanations and notes form an integral part of these financial statements

**SECTION THREE**

**EXPLANATIONS ON ACCOUNTING POLICIES**

**I. EXPLANATIONS FOR BASIS OF PRESENTATION**

The consolidated financial statements are prepared within the scope of the “Regulation on Accounting Applications for Banks and Safeguarding of Documents” related with Banking Act numbered 5411 published in the Official Gazette no.26333 dated 1 November 2006 and other regulations related to reporting principles on accounting records of Banks published by Banking Regulation and Supervision Agency and circulars and interpretations published by Banking Regulation and Supervision Authority (together referred as BRSA Accounting and Reporting Legislation) and in case where a specific regulation is not made by BRSA, Turkish Accounting Standards and Turkish Financial Reporting Standards (“TFRS”) and related appendices and interpretations (referred as “Turkish Accounting Standards” or “TAS”) put into effect by Public Oversight Accounting and Auditing Standards Authority (“POA”) (all referred as “Reporting Standards”).

The format and content of the publicly announced consolidated financial statements and notes to these statements have been prepared in accordance with the “Communiqué on Publicly Announced Financial Statements, Explanations and Notes to These Financial Statements”, published in Official Gazette no. 28337, dated 28 June 2012, and amendments to this Communiqué. The Bank maintains its books in Turkish Lira in accordance with the Banking Act, Turkish Commercial Code and Turkish Tax Legislation.

With the announcement dated 23 November 2023, POA announced that the financial statements of the entities applying the Turkish Financial Reporting Standards for the annual reporting period ending on or after 31 December 2023 should be prepared in accordance with the Financial Reporting Standard in Hyperinflationary Economies (“TAS 29”), however, institutions or organisations authorised to regulate and supervise in their fields may determine different transition dates for the implementation of TAS 29. Based on this announcement of POA, BRSA has decided not to subject the financial statements of banks and financial leasing, factoring, financing, savings finance and asset management companies as of 31 December 2023 to inflation adjustment required under TAS 29 with its decision dated 12 December 2023 and numbered 10744. In accordance with the BRSA's decision dated 11 January 2024 and numbered 10825; banks, financial leasing, factoring, financing, savings finance and asset management companies will apply inflation accounting as of 1 January 2025. Accordingly, no inflation adjustment has been made in the unconsolidated financial statements as of 31 December 2023 in accordance with TAS 29 Financial Reporting in Hyperinflationary Economies.

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosed contingent assets and liabilities at the date of the balance sheet and the reported amounts of revenues and expenses during the period. Although these estimates are based on management's best judgement and knowledge, actual results may differ from these estimates. The assumptions and estimates used are disclosed in the related notes.

The financial statements include financial assets and financial liabilities at fair value through profit or loss and financial assets and financial liabilities at fair value through profit or loss.

The financial statements are prepared on the cost basis except for the liabilities. The accounting policies and valuation principles applied for the proper understanding of the financial statements are explained in Notes II to XXIV.

Effective from 1 January 2023, the amendments to TAS/TFRS do not have a significant impact on the accounting policies, financial position and performance of the Bank. The amendments to TAS and TFRS issued but not yet effective as at the date of finalisation of the financial statements are not expected to have a significant impact on the accounting policies, financial position and performance of the Bank.

The effects of the earthquake disaster in Kahramanmaraş and neighbouring provinces have been reviewed and there is no impact on the financial statements of the Bank.

**EXPLANATIONS ON ACCOUNTING POLICIES (Continued)**

**II. INFORMATION ON STRATEGY FOR THE USE OF FINANCIAL INSTRUMENTS AND FOREIGN CURRENCY TRANSACTIONS**

The Bank's core business activities include corporate banking, commercial banking, securities transactions (Treasury operations) and international banking services. The Bank uses financial instruments extensively due to its nature. The Bank's funding sources are deposits, borrowings and shareholders' equity, which are invested in high quality financial assets. The Bank monitors the balance of the resources used and the placements made in various financial assets in terms of risk and return with an effective asset - liability management strategy.

The Group's transactions in foreign currencies are carried out in accordance with the Turkish Accounting Standards.

21 of TAS 21 - The Effects of Changes in Foreign Exchange Rates, foreign exchange gains and losses arising from foreign currency transactions are translated into Turkish Lira at the exchange rates prevailing at the dates of the transactions and recognized in the records.

At the end of the relevant period, the balances of foreign currency assets and liabilities are translated into Turkish Lira at the exchange rates prevailing at the balance sheet date and the resulting exchange differences are recognized as foreign exchange gains and losses.

**III. EXPLANATIONS ON INVESTMENTS IN ASSOCIATES AND SUBSIDIARIES**

The accompanying consolidated financial statements are prepared in accordance with “Communiqué on Preparation of Consolidated Financial Statements” which is published in the Official Gazette No. 26340 dated November 8, 2006. The Parent Bank directly owns the shares of A&T Finansal Kiralama A.Ş. and this subsidiary is consolidated accordingly. As of current period, the Parent Bank has no associates.

A&T Finansal Kiralama Anonim Şirketi, was founded in 1997 with the aim to provide financial leasing services.

The Parent Bank and its subsidiary A&T Finansal Kiralama A.Ş that is included in consolidation are together referred to as “Group” in the disclosures and footnotes related to the consolidated financial statements.

“Full Consolidation” method has been applied in consolidating the financial statements of the Parent Bank with the financial statements of its subsidiary. In accordance with this method, the financial statements of the Parent Bank and its subsidiary are combined on a line-by-line basis by adding together the all items of assets, liabilities, income, expenses and off-balance sheet items, in preparing consolidated financial statements. Minority interests are presented separately in the consolidated balance sheet and consolidated statement of income.

**The major principles applied in the consolidation of subsidiaries**

The carrying amount of the Parent Bank’s net investment in the subsidiary and the Parent Bank’s portion of equity of the subsidiary are eliminated.

All intercompany transactions and intercompany balances between the consolidated subsidiary and the Parent Bank are eliminated.

The financial statements which have been used in the consolidation are prepared as current period and appropriate adjustments are made to financial statements to use uniform accounting policies for similar transactions and events in similar circumstances.

**EXPLANATIONS ON ACCOUNTING POLICIES (Continued)**

**IV. INFORMATION ON FORWARD TRANSACTIONS, OPTIONS AND DERIVATIVE INSTRUMENTS**

Derivative financial instruments of the Bank are classified under "IFRS 9 Financial Instruments" ("IFRS 9"), "Derivative Financial Assets Designated at Fair Value through Profit or Loss".

Derivatives are initially recorded at their purchase costs including the transaction costs. The notional amounts of derivative transactions are recorded in off-balance sheet accounts based on their contractual amounts.

The derivative transactions are measured at fair value subsequent to initial recognition and if the fair value of a derivative financial instrument is positive, it is disclosed under trading derivative financial assets and if the fair value difference is negative, it is disclosed under trading derivative financial liabilities.

Gains and losses arising from a change in fair value of trading derivatives after the re measurement are accounted in the income statement. The fair value of the derivative financial instruments is calculated using quoted market prices by using discounted cash flows model.amounts.

**V. INFORMATION ON INTEREST INCOME AND EXPENSE**

Interest income and expense are recognized according to the effective interest method based on accrual basis. Effective interest rate is the rate that discounts the expected cash flows of financial assets or liabilities during their lifetimes to their carrying values. Effective interest rate is calculated when a financial asset or a liability is initially recorded and is not modified thereafter.

The computation of effective interest rate comprises discounts and premiums, fees and commissions paid or received and transaction costs. Transaction costs are additional costs that are directly related to the acquisition, issuance or disposal of financial assets or liabilities

**VI. INFORMATION ON FEES AND COMMISSION**

Fees and commission received and paid are recognized according to either accrual basis of accounting or effective interest method depending on nature of fees and commission; incomes derived from agreements and asset purchases for third parties are recognized as income when realized.

**VII. INFORMATION ON FINANCIAL ASSETS**

Financial assets are recognized or derecognized according to IFRS 9 Financial Instruments Part 3 Recognition and Derecognition. Financial assets are measured at fair value at initial recognition in the financial statements. During the initial recognition of financial assets other than "Financial Assets at Fair Value Through Profit or Loss", transaction costs are added to fair value or deducted from fair value. They are included in the balance sheet of the group if the Bank is a legal party to these instruments.

Group categorizes its financial assets as "Fair Value Through Profit/Loss", "Fair Value Through Other Comprehensive Income" or "Measured at Amortized Cost". Financial instruments comprise financial assets and liabilities and derivative instruments. This classification is based on the contractual cash flow characteristics of the related business model used for management of the financial assets at initial recognition.

**a. Financial Assets at Fair Value through Profit or Loss**

"Financial assets at fair value through profit/loss" are financial assets that are either acquired for generating a profit from short term fluctuations in prices or are financial assets included in a portfolio aiming to short-term profit making.

Financial assets at the fair value through profit or loss are initially recognized at fair value and remeasured at their fair value after recognition. All gains and losses arising from these valuations are reflected in the income statement.

Government bonds and treasury bills included in Financial Assets at Fair Value through Profit or Loss portfolios traded in BIST are carried at weighted average exchange rates of BIST as of the balance sheet date and those securities that are not traded in Borsa İstanbul A.Ş (BIST) are carried at other valuation models. All gains and losses arising from these valuations are reflected in the statement of profit or loss.

**EXPLANATIONS ON ACCOUNTING POLICIES (Continued)**

**VII. INFORMATION ON FINANCIAL ASSETS (Continued)**

**b. Financial Assets at Fair Value Through Other Comprehensive Income**

In addition to Financial assets within a business model that aims to hold to collect contractual cash flows and aims to hold to sell, financial asset with contractual terms that lead to cash flows are solely payments of principal and interest at certain dates, they are classified as fair value through other comprehensive income.

Financial assets at fair value through other comprehensive income are recognized by adding transaction cost to acquisition cost reflecting the fair value of the financial asset. After the recognition, financial assets at fair value through other comprehensive income are remeasured at fair value. Interest income calculated with effective interest rate method arising from financial assets at fair value through other comprehensive income and dividend income from equity securities are recorded to income statement. “Unrealized gains and losses” arising from the difference between the amortized cost and the fair value of financial assets at fair value through other comprehensive income are not reflected in the income statement of the period until the acquisition of the asset, sale of the asset, the disposal of the asset, and impairment of the asset and they are accounted under the “Accumulated other comprehensive income or expense to be reclassified through profit or loss” under shareholders’ equity. When these securities are collected or disposed of, the accumulated fair value differences reflected in the shareholders' equity are reflected to the income statement.

Subsequent amendments to the values of investments in equity instruments are not reflected in the income statement except for the dividend.

At initial recognition, it can be made an irrevocable election to present in other comprehensive income subsequent changes in the fair value of an investment in an equity instrument that is neither held for trading nor contingent consideration recognized by an acquirer in a business combination to which TFRS 3 applies.

The subsequent measurement of financial assets at fair value through other comprehensive income is based on fair value. However, securities that do not have a quoted market price in an active market, the fair value for the floating rate securities is measured at the amortized cost using the most probable effective interest method; for fixed interest securities, fair value pricing models or discounted cash flow techniques are used.

**c. Financial Assets Measured at Amortized Cost**

Financial assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are classified as financial assets measured at amortized cost.

Financial assets measured at amortized cost are initially recognized at acquisition cost including the transaction costs which reflect the fair value of those instruments and subsequently recognized at amortized cost by using effective interest rate method. Interest income obtained from financial assets measured at amortized cost is accounted in income statement.

**d. Loans**

Loans are financial assets that have fixed or determinable payments terms and are not quoted in an active market. Loans are initially recognized at acquisition cost plus transaction costs presenting their fair value and thereafter measured at amortized cost using the “Effective Interest Rate Method”.

Bank loans and receivables are initially carried at cost value. Bank loans are measured at amortized cost with internal rate of return. Fees paid for the assets received as collateral against loans, such as transaction costs and other costs are part of acquisition cost and charged to the customer.

Bank’s loans measured at amortized cost account.

**EXPLANATIONS ON ACCOUNTING POLICIES (Continued)**

**VII. INFORMATION ON FINANCIAL ASSETS (Continued)**

**e. Impairment**

Group recognizes an Impairment for financial assets measured at amortized cost and at fair value through other comprehensive income.

As of 1 January 2018, the Bank recognize provisions for impairment in accordance with TFRS 9 requirements according to the “Regulation on the Procedures and Principles for Classification of Loans by Banks and Provisions to be set aside” published in the Official Gazette dated 22 June 2016 numbered 29750. Method of provisions for impairment as set out in accordance with the related legislation of BRSA is changed by applying the expected credit loss model under TFRS 9. Expected loss estimate is unbiased, weighted by probabilities and includes supportable information about estimates of past events, current conditions and future economic conditions.

The expected credit loss model includes instruments that are recorded at amortized cost or at fair value in other comprehensive income tables (such as bank deposits, loans and securities) and, in addition, financial lease receivables that are not measured at fair value through profit or loss, credit commitments and financial guarantee contracts.

Expected credit loss is an estimate of the expected credit losses over the life of a financial instrument also the following aspects are important for the measurement.

- 1) Probability-weighted and neutral amount determined by taking into account possible outcomes
- 2) Time value of money
- 3) Reasonable and supportable information on past events, current conditions and forecast of future economic conditions, at the time of reporting, without excessive cost and effort

The expected 12 monthly credit loss values are part of the life expectancy loss calculation (within 12 months after the reporting date or within a shorter period if the life of a financial instrument is shorter than 12 months).

The main theme of the expected credit loss model can reflect the deterioration of the quality of financial instruments or the general view of recovery. The amount of expected credit loss, known as loss allowance or allowance, depends on the degree of credit deterioration. There are two measurements according to the general approach:

12-Month Expected Loss (1st Stage) is valid for all assets unless there is a significant deterioration in the quality of the loan.

Lifetime Expected Loss (2nd and 3rd Stage) is applied when a significant increase in credit risk occurs.

The following parameters are used in the calculation of expected credit loss;

Probability of Default: It denotes the possibility of default of the loan in the related term. The Bank's internal ratings are used in the calculation of the probability of default.

Loss in case of default: refers to the expected loss rate from the loan in case of default

Default Amount: refers to the risk balance for cash loans and the risk balance calculated by using the credit conversion rate for non-cash loans.

**EXPLANATIONS ON ACCOUNTING POLICIES (Continued)**

**VII. INFORMATION ON FINANCIAL ASSETS (Continued)**

**e. Impairment (Continued)**

*Individual Evaluation*

A credit loss can be defined as the difference between all contractual cash flows that are outstanding under the contract and the original expected EIR (Effective Interest Rate) value and discounted cash flows.

When cash flows are estimated, the following conditions are taken into account;

- a) All contractual terms of the financial intermediary during the expected lifetime of the financial instrument
- b) Cash flows from collateral sales

*Definition of Default*

The debtor can be considered as the Stage 3 under conditions where the debtor fails to pay his obligations regardless of past due and the guarantees the debtor has.

These conditions have stated below:

- 1) To have a past due more than 90 days. (150 days for the financial leasing receivables)
- 2) The decision taken for bankruptcy or concordatum registration.
- 3) To have a loan classified as standard receivable by restructuring while monitored as non-performing loan and to have a past due more than 30 days of principal and/or interest payment delayed within the 1 year monitoring period or to have a loan restructured once more during this monitoring period.
- 4) Other neutral criteria deemed appropriate by management.

*Significant increase in credit risk definition*

Loans are designated as the First Group (Standard loans), the Second Group (loans under close monitoring), the Third Group (loans with limited collection), the Fourth Group (loans in suspicious cases where the loss is expected) and the fifth group (Losses).

In this context, in the criteria applied for the loans classified in the first Group; the issue of future payment issues is not expected and the credit worthiness of the borrower of the loan has not weakened. In accordance with TFRS 9, loans subject to 12-month credit impairment are classified under the First Group (Stage 1).

The criteria applied for the credits classified in the Stage 2 are; unfavourable developments in debt payment or cash flows of debtors are observed or anticipated, problems arises in principal and / or interest payments in accordance with the terms of the loan agreement and the credit risk of the borrower is considerably increased. In accordance with TFRS 9, loans classified in the Stage 2 are subject to the provision of an expected lifetime loan loss provision.

The conditions for the loans classified in the stage 2 are stated below;

1. Past due more than 30 days,
2. subject of in-bank restructuring,
3. Bankruptcy / concordatum registration
4. High level negative investigation
5. Restructured

**EXPLANATIONS ON ACCOUNTING POLICIES (Continued)**

**VII. INFORMATION ON FINANCIAL ASSETS (Continued)**

**e. Impairment (Continued)**

Loans classified as third, fourth and fifth groups are considered as non-performing loans. In accordance with TFRS 9, these loans, which are subject to a lifetime impairment application, are classified under the Stage 3.

The relevant Staging criteria and default definitions are set out in accordance with TFRS 9 regulation and specified in the monitoring policies.

Under the contractual cash flows, the cash flows from the sale of the collateral and the cash flows from the credit are also taken into account.

In accordance with TFRS 9, probability-weighted scenarios are taken into account over the expected life of the financial instrument in order to estimate the expected losses. The assessment consists of an assessment of the possible outcomes, including the amount and timing of cash flows for certain outputs and the identification of possible scenarios that indicate the estimated likelihood of that outcome.

Bank's loans have been evaluated and classified in line with the Regulation on the Classification of Loans and the Procedures and Principles Regarding Provisions to be Reserved for them a provision has been set aside.

Expected credit losses are measured using reasonable and supportable information and taking into account historical information as well as future base, favorable and unfavorable macroeconomic forecasts by including macroeconomic variables. Within the scope of the macroeconomic model, the final forecast obtained by weighting three scenarios (base, optimistic and negative) is used. The main macroeconomic independent variables used in these forecasts are the changes in "USDTRY, Consumer Price Index, Producer Price Index, Current Account Balance and Foreign Trade Balance". Credit risk parameters used in the calculation of expected credit losses are reviewed and evaluated at least once a year within the framework of model validation processes. Macroeconomic forecasts and past default data of portfolios used in risk parameter models are re-evaluated every quarter in order to reflect changes in the economic conjuncture and updated if necessary.

**VIII. INFORMATION ON OFFSETTING FINANCIAL INSTRUMENTS**

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

**IX. INFORMATION ON SALE AND REPURCHASE AGREEMENTS AND LENDING OF FINANCIAL ASSETS**

Repurchase (“repo”) and resale (“reverse repo”) agreements of financial assets are followed at the balance sheet accounts. Financial assets which are sold to customers under repurchase agreements are categorized according to initial classification and are measured in accordance with the accounting policy of the related portfolio.

Funds obtained under repurchase agreements are accounted under funds provided under repurchase agreements in liability accounts. The interest expense accruals are calculated by means of internal rate of return method over the difference resulting from repurchase and sale prices for the relevant period.

Securities subject to repurchase agreements are reflected under receivables from reverse repurchase agreements. The difference between the purchase and resell price which is related with the period is computed with the effective interest rate method for accrued interest income.

As of the balance sheet date, there is no security lending transactions.

**EXPLANATIONS ON ACCOUNTING POLICIES (Continued)**

**X. INFORMATION ON ASSETS HELD FOR SALE AND RELATED TO DISCONTINUED OPERATIONS AND EXPLANATIONS ON LIABILITIES RELATED WITH THESE ASSETS**

Property and equipment held-for-sale consist of tangible assets that were acquired due to non-performing loans and receivables, and are accounted in the financial statements in accordance with the regulations of “Turkish Financial Reporting Standard for Assets Held for Sale and Discontinued Operations (TFRS 5)”.

The assets that meet the criteria of being classified under assets held for sale are measured at the lower of their book values or fair value less costs to be incurred for sale, depreciation for these assets is ceased and these assets are presented separately in the balance sheet. In order for an asset to be classified as an asset held for sale, the related asset (or the asset group to be disposed) shall be ready to be sold immediately under usual conditions and should have a high possibility to be sold. To have a high possibility of sale, a plan should *have* been made for the sale of the asset (or the asset group to be disposed) and an active program should have been started by the management, aiming to complete the plan and determine the buyers. The related amount is very low. In addition, the asset should be actively marketed at a price that is consistent with the true value.

A discontinued operation is a part of an entity which is classified as to be disposed or held for sale. The results related to discontinuing operations are presented separately in the income statement. The Bank does not have any discontinued operations.

**XI. INFORMATION ON GOODWILL AND OTHER INTANGIBLE ASSETS**

There is no goodwill in the accompanying financial statements related to the acquisition of a subsidiary. The Group’s intangible assets consist of software.

Intangible assets are initially recorded at their costs in compliance with the “TAS 38 - Intangible Assets”.

The costs of the intangible assets purchased before 31 December 2004 are restated from the purchasing dates to 31 December 2004, the date the hyperinflationary period is considered to be ended. The intangible assets purchased after this date are recorded at their historical costs. The intangible assets are amortized based on straight line amortization. The useful life of software is determined as 3-15 years.

If there is objective evidence of impairment, the asset’s recoverable amount is estimated in accordance with the “TAS 36 - Impairment of Assets” and if the recoverable amount is less than the carrying value of the related asset, a provision for impairment loss is made.

**XII. INFORMATION ON TANGIBLE ASSETS**

The costs of the tangible assets purchased before 31 December 2004 are restated from the purchasing dates to 31 December 2004, the date the hyperinflationary period is considered to be ended. In subsequent periods no inflation adjustment is made for tangible assets, and costs which are restated as of 31 December 2004 are considered as their historical costs. Tangible assets purchased after 1 January 2005 are recorded at their historical costs after foreign exchange differences and financial expenses are deducted if any.

While the Parent Bank is using the cost model under the TAS 16 “Property, Plant and Equipment” for the valuation of the property under tangible assets, the current year has been changed to the revaluation model in the valuation of the property in use. The property value in the appraisal report prepared by the appraisal company and the net book value the positive difference is monitored in equity accounts.

Gains and losses arising from the disposal of the tangible assets are calculated as the difference between the net book value and the net sales price and recognized in the statement of profit or loss of the period.

Maintenance and repair costs incurred for tangible assets are recorded as expense. Expenditures incurred that extend the useful life and service capacity of the assets are capitalized.

**EXPLANATIONS ON ACCOUNTING POLICIES (Continued)**

**XII. INFORMATION ON TANGIBLE ASSETS (Continued)**

The depreciation rates used approximate the rates of the useful life of the tangible assets are as follows:

<b>Tangible Assets</b>	<b>Estimated Useful Life (Years)</b>	<b>Depreciation Rate (%)</b>
Buildings	37-44	2-3
Motor vehicles	5	20
Office equipment, furniture and fixture	3-50	2-33

There are no changes in the accounting estimates that are expected to have an impact in the current or subsequent periods.

At each reporting date, the Group evaluates whether there is objective evidence of impairment on its assets. If there is an objective evidence of impairment, the asset’s recoverable amount is estimated in accordance with the “TAS 36 - Impairment of Assets” and if the recoverable amount is less than the carrying value of the related asset, a provision for impairment loss is made.

**XIII. INFORMATION ON LEASING ACTIVITIES**

*Finance leasing activities as the lessee*

Tangible assets acquired through financial leasing are recognized as assets and the related liabilities as lease payables in the Group’s assets and liabilities, respectively. Financing costs arising from the leasing are spread over the period to form a fixed interest rate throughout the lease term. Interest and foreign exchange expenses related to financial leasing are reflected in the profit or loss statement. Depreciation is calculated for the assets acquired through financial leasing in accordance with the principles applied for tangible fixed assets.

As of the end of the reporting period, the Group does not have the authority to make financial leasing, like a financial leasing company.

**Explanations on TFRS 16 Leases**

*Group - as a tenant*

The group assesses at the inception of a contract whether the contract is or contains a lease. If the contract transfers the right to control the use of the identified asset for a specified period of time, the contract is or includes a lease. The Group reflects a right-of-use asset and a lease liability in its financial statements at the commencement date of the lease.

*Right-of-use asset*

The right-of-use asset is initially accounted for using the cost method and includes:

- The initial measurement amount of the lease liability,
- The amount obtained by deducting all lease incentives received from all lease payments made on or before the actual commencement of the lease,
- All initial direct costs incurred by the group

When applying the group cost method, the right-of-use entity:

- Accumulated depreciation and accumulated impairment losses are deducted; and
- Measures at cost adjusted for remeasurement of the lease liability.

**EXPLANATIONS ON ACCOUNTING POLICIES (Continued)**

**XIII. INFORMATION ON LEASING ACTIVITIES (Continued)**

While depreciating right-of-use assets, the Group applies the depreciation provisions of TAS 16 Tangible Fixed Assets.

*Rental liability*

At the commencement date of the lease, the Group measures the lease liability at the present value of the lease payments not paid at that date. Lease payments are discounted using the alternative borrowing interest rate.

At the commencement date of the lease, the lease payments included in the measurement of the lease liability consist of payments for the right to use the underlying asset during the lease term that are not paid at the commencement date of the lease.

After the actual commencement date of the lease, the Group measures the lease liability as follows:

- a) Increases the book value to reflect the interest on the lease liability,
- b) Decrease book value to reflect lease payments made; and
- c) Remeasure book value to reflect reassessments and restructurings or to reflect revised lease payments that are fixed in substance.

The interest on the lease liability for each period in the lease term is the amount found by applying a fixed periodic interest rate to the remaining balance of the lease liability.

**XIV. INFORMATION ON PROVISIONS, CONTINGENT LIABILITIES AND CONTINGENT ASSETS**

Provisions and contingent liabilities are provided for in accordance with the “TAS 37 - Provisions, Contingent Liabilities and Contingent Assets”, except for the general and specific provisions set aside for the loans and other receivables.

Provisions are recognized when the Bank has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the amount of obligation can be made.

A provision for contingent liabilities arising from past events should be recognized in the same period of occurrence if it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate the amount of the obligation can be made.

As of the balance sheet date, there are no probable contingent liabilities resulting from past events whose amount can be reliably measured.

Contingent assets usually arise from unplanned or other unexpected events that give rise to the possibility of an inflow of economic benefits to the entity. Contingent assets are not recognized in financial statements since this may result in the recognition of income that may never be realized. Contingent assets are disclosed where an inflow of economic benefits is probable. Contingent assets are assessed continually to ensure that developments are appropriately reflected in the financial statements. If it has become virtually certain that an inflow of economic benefits will arise, the asset and the related income are recognized in the financial statements in which the change occurs.

**EXPLANATIONS ON ACCOUNTING POLICIES (Continued)**

**XV. INFORMATION ON LIABILITIES REGARDING EMPLOYEE BENEFITS**

*Reserve for other benefits to employees*

In accordance with existing Turkish Labor Law, the Bank is required to make lump-sum termination indemnities to each employee who has completed one year of service with the Bank and whose employment is terminated due to retirement or for reasons other than resignation or as mentioned in related legislation. The Bank calculates and accounts in financial statements by estimating the present value of the future probable obligation regarding severance pay in accordance with the provisions of “TAS 19-Employee Benefits”. The resulting actuarial losses and gains are accounted for under equity in accordance with TAS 19.

In determining the liability, the Bank uses independent actuaries and makes assumptions on issues such as discount rate and inflation. The assumptions regarding the calculation are as follows.

	<b>Current Year</b>	<b>Prior Year</b>
Discount Rate	%24.50	%12.10
Inflation Rate	%6.00	%9.90

The vacation pay obligation is calculated over the cumulative total of the number of unused vacation days calculated by deducting the leaves used by all personnel from the legally entitled vacation period each year.

*Other benefits to employees*

In accordance with the revised TAS 19, the Group recognizes a provision for other employee benefits in its financial statements based on the undiscounted amounts expected to be paid in exchange for services rendered by employees during an accounting period.

**XVI. INFORMATION ON TAX APPLICATIONS**

**Corporate tax**

With the Law No. 7456 published in the Official Gazette No. 32249 dated July 15, 2023, the corporate tax rate for banks has been determined as 30% and this rate has entered into force to be applied to the corporate income for the accounting periods starting from January 1, 2023 and starting from the declarations to be submitted as of October 1, 2023.

Corporate tax rate is applied on the tax base which is calculated by adding non-deductible expenses and deducting exemptions and deductions in accordance with the tax laws to the commercial income of the corporations. If no profit is distributed, no further tax is payable.

Advance taxes are calculated and paid in the first quarter of the year at the corporate tax rate applicable to that year's earnings. Advance taxes paid during the year can be offset against the corporate tax calculated on the annual corporate tax return of that year.

Dividends paid to non-resident corporations that have a place of business or permanent representative in Turkey and resident corporations are not subject to withholding tax. While 15% withholding tax is applied on dividend payments other than those made to non-resident corporations that have a place of business or permanent representative in Turkey and resident corporations in Turkey, this rate was changed to 10% with the Presidential Decree published in the Official Gazette dated December 22, 2021 and numbered 31697. In the application of withholding tax rates on dividend payments to non-resident corporations and real persons, the practices in the relevant Double Tax Treaty Agreements are also taken into consideration. Addition of profit to capital is not considered as profit distribution and withholding tax is not applied.

**EXPLANATIONS ON ACCOUNTING POLICIES (Continued)**

**XVI. INFORMATION ON TAX APPLICATIONS (Continued)**

Under the provisions of the Corporate Tax Law No. 5520, 75% of the gains arising from the sale of participation shares held in assets for at least two full years and founders' shares, redeemed shares and preemptive rights held for the same period are exempt from corporate tax, provided that they are held in a special fund account in liabilities until the end of the fifth year following the year of sale or added to capital and collected until the end of the second calendar year. 25% of the gains from the sale of immovable properties acquired before July 15, 2023 are exempt from corporate tax.

The Law No. 7352 dated January 29, 2022 on the amendment of the Tax Procedure Law and the Corporate Tax Law was enacted in the Official Gazette No. 31734 on January 29, 2022, and the financial statements will not be subject to inflation adjustment in the 2021 and 2022 accounting periods, including the provisional accounting periods, and in the provisional tax periods of the 2023 accounting period, regardless of whether the conditions for inflation adjustment within the scope of Repeated Article 298 are met, December 31, 2023 will be subject to inflation adjustment regardless of whether the conditions for inflation adjustment are met.

**Deferred taxes**

Deferred tax assets and liabilities are recognized on temporary differences arising between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and are accounted for using the balance sheet liability method in accordance with TAS 12 - Income Taxes and related BRSA guidance. For tax purposes, differences that affect neither the taxable profit nor the accounting profit at the date of acquisition of assets and liabilities are excluded from this calculation.

If transactions and other events are recognized in profit or loss, the related tax effects are also recognized in profit or loss. If transactions and other events are recognized directly in equity, the related tax effects are also recognized directly in equity.

Deferred tax assets and deferred tax liabilities are netted off in the financial statements.

In accordance with Article 298 of the Tax Procedure Law, the tax advantage that will be provided in the future periods by the increase in the value of non-monetary items, fixed assets and prepaid expenses, which will be subject to inflation adjustment in the VUK Financial Statements dated December 31, 2023, is shown in the deferred tax asset.

**Transfer pricing**

In Turkey, the transfer pricing provisions has been stated under the Article 13 of Corporate Tax Law with the heading of disguised profit distribution via transfer pricing. “The General Communiqué on Disguised Profit Distribution via Transfer Pricing”, dated 18 November 2007 sets details about implementation.

If the companies enter into transactions concerning to the sale or the purchase of the goods or services with the related parties by setting the prices or amounts which are not in line with the arm’s length principle, related profits will be treated as having been wholly or partially distributed in a disguised way via transfer pricing. This kind of disguised profit distribution via transfer pricing cannot be deducted from tax base in accordance with corporate tax.

**XVII. ADDITIONAL INFORMATION ON BORROWINGS**

The Group accounts for its borrowing instruments in accordance with TFRS 9 “Financial Instruments” standard and evaluates all its financial liabilities with the “effective interest rate method” in subsequent periods. There are no borrowings required to apply the hedging techniques in respect of the accounting and valuation methods of borrowing instruments and liabilities that represent borrowing.

The Group did not issue any stocks convertible into bonds.

The Group does not have borrowing instruments issued by itself.

**EXPLANATIONS ON ACCOUNTING POLICIES (Continued)**

**XVIII. INFORMATION ON SHARE ISSUANCES**

The Group has not issued any share in the current year.

**XIX. INFORMATION ON BILLS OF EXCHANGES AND ACCEPTANCES**

Acceptances are realized simultaneously with the payment dates of the clients and they are presented as commitments in off-balance sheet accounts.

There are no acceptances presented as liabilities against any assets.

**XX. INFORMATION ON GOVERNMENT INCENTIVES**

None.

**XXI. CASH AND CASH EQUIVALENTS**

Cash and cash equivalents are cash on hand, demand deposits and other highly liquid short-term investments with maturities of 3 months or less following the date of acquisition, which is readily convertible to a known amount of cash, and does not bear the risk of significant amount of value change. The book values of these assets represent their fair values. Cash equivalents and balances regarding banks are valued by the period end counter foreign currency buying rate of the Bank.

For the purposes of the cash flow statement, “Cash” includes cash, effectives, cash in transit, purchased cheques and demand deposits including balances with the Central Bank; and “Cash equivalents” include interbank money market placements and time deposits at banks with original maturity periods of less than three months.

**XXII. INFORMATION ON SEGMENT REPORTING**

Operating segment is the unit that operates in only one product or service of the Parent Bank or the group of products or services which are related each other and differs from other units from the point of risk and profit. Operating segments are presented in the footnote XI of Fourth Section.

**XXIII. OTHER DISCLOSURES**

**Profit reserves and profit distribution**

Retained earnings other than legal reserves are available for distribution, subject to legal reserve requirement referred to below.

The legal reserves are comprised of first and second reserves, in accordance with the Turkish Commercial Code (“TCC”). The first legal reserve is appropriated out of the profits at the rate of 5% until the total reserve reaches a maximum of 20% of the Bank’s paid in capital. The second legal reserve is appropriated at the rate of 10% of all distributions in excess of the 5% of the Company’s share capital; however holding companies are not subject to this application. First and second legal reserves can only be used to compensate accumulated losses and cannot be used for profit distribution unless they exceed 50% of paid-in capital.

**Related parties**

In accompanying financial statements, shareholders, key management personnel and board members together with their families and companies controlled by or affiliated by them associated and jointly controlled entities are considered as Related Parties in compliance with “TAS 24 - Related Party Disclosures”.

SECTION FOUR

INFORMATION ON THE FINANCIAL POSITION OF THE GROUP

Calculation of the equity and capital adequacy standard ratio is carried out in accordance with the provisions of the “Regulation on Measurement and Evaluation of the Capital Adequacy of Banks”, “Communiqué on Credit Risk Mitigation Techniques”, “Communiqué on Calculation of Risk Weighted Amounts Related to Securitization” and “Regulation on Equity of Banks”. The Group's capital adequacy standard ratio is 17.78% (31 December 2022 20.42%). In accordance with the Decision of the Banking Regulation and Supervision Agency dated 28 April 2022 and numbered 10188, the Central Bank's foreign exchange buying rate of 31 December 2022 was used while calculating the valued amounts in foreign currency in calculating the amount subject to credit risk.

<sup>(2)</sup> The regulations cover general loan provisions included in Tier 2 capital within the framework of paragraphs 8-1-a.

<sup>(3)</sup> The regulations cover Shareholders’s Equity adjustments within the framework of paragraphs 9-8-ç.

INFORMATION ON THE FINANCIAL POSITION OF THE GROUP (Continued)

II. INFORMATION ON CREDIT RISK

1. For Credit Risk Analysis;

*Information on risk concentrations by debtors or group of debtors or geographical regions and sectors, basis for risk limits and the frequency of risk appraisals*

In terms of credit risk, the amount of cash and non-cash loans to be extended to a borrower or a group of borrowers is classified according to the type of loan in question and subject to a risk limitation in proportion to the equity of the Parent Bank. In addition, the sectoral distribution is reviewed regularly and the distribution targets are revised according to market conditions. The general limit and other intermediate limits of a company are evaluated and renewed every year and daily utilizations are made within the framework of these limits.

*Whether risk limits and distributions are determined for daily transactions, whether risk concentration for off-balance sheet risks is monitored on a daily basis on the basis of customers and treasury department officials of banks*

Controls to be made during limit allocation and loan disbursement, marketing strategies and issues to be considered during the period until the loan is repaid to the Bank are determined in the Bank's procedures prepared for loans. The Credit Department, Risk Management Department, Treasury Financial Institutions Department and Central Operations Department coordinate the daily transactions (especially cash loans).

*Whether the creditworthiness of the debtors of loans and other receivables is monitored at regular intervals in accordance with the relevant legislation, whether the account status documents received for the loans opened have been audited as stipulated in the relevant legislation, if not, the reasons, whether the credit limits have been changed, whether the loans and other receivables are collateralized*

The creditworthiness of the borrowers of loans and other receivables is monitored in accordance with the "Regulation on Procedures and Principles for the Classification of Loans and Provisions to be set aside".

The Bank's credit limits are updated at the discretion of the General Directorate and Senior Management and in parallel with economic conditions. The Bank receives sufficient collateral for its loans and other receivables. Since the majority of the companies with which the Bank has credits are among the leading companies in Turkey, the majority of the collaterals received are company signatures or sureties. In addition, real estate mortgages, bank counter-guarantees, cash blockage, financing notes and real customer checks/notes are also taken as collateral. The collaterals received are in line with market conditions and collateral conditions of other banks.

After completing the financial data inputs that form the basis for qualitative and quantitative measurement and answering subjective questions, the system assigns ratings to all credit customers. The rating scale has a wide range of 22 grades from minimum "D" to maximum "AAA+".

In 2023, the grade distribution weight of corporate and commercial companies evaluated is as follows<sup>(1)(2)</sup>:

## INFORMATION ON THE FINANCIAL POSITION OF THE GROUP (Continued)

## II. INFORMATION ON CREDIT RISK (Continued)

## 1. For Credit Risk Analysis; (Continued)

The table below shows the distribution of corporate and commercial loans grades in respect of weight as of 31 December 2023:

Grade	Description	Weight
AA	Maximum Reliability and Qualified	7%
AA-	Maximum Reliability	12%
A+	Maximum Reliability	16%
A	Very Good Firm	16%
A-	Very Good Firm	22%
BBB+	Very Good Firm	13%
BBB	Reliable and Qualified	5%
BBB-	Reliable and Qualified	5%
BB+	Reliable and Qualified	1%
BB	Low Reliably and risky	1%
BB-	Low Reliably and risky	1%
B	Low Reliably and risky	1%

- (1) The above distribution does not include customers, personal loans and loans granted to banks.
- (2) Although the grade scale of the bank is composed of 22 grades, the grade items that do not have any loan amounts in both years are not shown in the table.

***Accounting applications, the definition of non-performing and impaired elements***

In accordance with Article 4 of the Regulation on Principles and Procedures Regarding the Classification of Loans and Provisions to be set aside for them, all receivables classified in Groups 3, 4 and 5 are considered non-performing regardless of whether the accrued interest and interest-like burdens on the borrower are added to the principal or refinanced.

Receivables whose collection of principal or interest payments is more than thirty days overdue from their due dates or due dates for various excusable reasons, although it is highly probable that they will be repaid, but which do not meet the overdue period condition and other criteria for classification in the third group are defined as overdue but not impaired.

***Value adjustments and provisions methods and approaches***

As of January 1, 2018, in accordance with the "Regulation on the Procedures and Principles Regarding the Classification of Loans and Provisions to be set aside" published in the Official Gazette dated June 22, 2016 and numbered 29750, the Bank started to set aside impairment provisions in accordance with TFRS 9. In this context, as of December 31, 2017, the method of allocating provisions for loan losses allocated within the framework of the relevant legislation of the BRSA has been changed by applying the expected credit loss model with the implementation of TFRS 9. The expected credit loss estimate is unbiased, weighted by probability and contains supportable information about past events, current conditions and forecasts of future economic conditions.

INFORMATION ON THE FINANCIAL POSITION OF THE GROUP (Continued)

II. INFORMATION ON CREDIT RISK (Continued)

1. For Credit Risk Analysis; (Continued)

**Information on the control limits of the Bank for forward transactions, options and similar contracts, management of credit risk for these instruments together with the potential risks arising from market conditions**

The Parent Bank evaluates and manages credit risks that are generated from forward transactions and similar contracts together with potential risks in the market.

**Information on whether the Bank decreases the risk by liquidating its forward transactions, options and similar contracts in case of facing a significant credit risk or not**

The Parent Bank tries to mitigate the total risk if it’s exposed to huge amount of risk over the forward transactions.

**For Credit Risk Analysis;**

***Information on whether the indemnified non-cash loans are evaluated as having the same risk weight with non-performing loans or not***

Indemnified non-cash loans are evaluated as having the same risk weight with cash loans which are collected upon maturity. These loans are classified according to their commitments and are recorded under the follow-up accounts.

***Information on whether the loans that are structured and rescheduled are included in a new rating group as determined by the Bank’s risk management system, other than the follow-up plan defined in the banking regulations or not; whether new precautions are taken for these methods or not; whether the Bank’s risk management accepts long term commitments as having more risk than short term commitments which results in a diversification of risk or not***

The Parent Bank acts in frame of the related regulations for the loans that are structured and rescheduled. On the other hand, while doing risk evaluation of the loans and commitments, maturity issue is also taken into consideration.

**For Credit Risk Analysis;**

***Evaluation of the significance of country specific risk if the banks have foreign operations and credit transactions in a few countries or these operations are coordinated with a few financial entities***

The Parent Bank has no activities abroad on the branch level. However in the loan lending processes to the foreign based firms, the economic conditions of the country and the financial structure of the company in question is taken into consideration.

***Evaluation of the Bank’s competitive credit risk being an active participant of the international banking transactions market***

The Parent Bank has significant relationship with the North Africa and Middle East Region within the international trade transactions. However in the volume of the banking transactions the Bank defines its credit risk concentration as limited from these regions.

INFORMATION ON THE FINANCIAL POSITION OF THE GROUP (Continued)

II. INFORMATION ON CREDIT RISK (Continued)

1. For Credit Risk Analysis; (Continued)

*The share of the top 100 and 200 cash loan customers in total loan cash loans portfolio*

The share of the top 100 and 200 cash loan customers comprises 99.92% and 100% of the total cash loans portfolio of the Parent Bank respectively.

*The share of the top 100 and 200 non-cash loan customers in total loan non-cash loans portfolio*

The share of the top 100 and 200 non-cash loan customers comprises 99.37% and 100% of the total non-cash loans portfolio of the Parent Bank respectively.

*The share of the total cash and non-cash loan balance of the top 100 and 200 loan customers in total assets and off-balance sheet items*

The Parent Bank’s total cash and non-cash loans from its top 100 and 200 loan customers comprise 87.99% and 89.48% of the total assets and off-balance sheet items.

**The first and second stage provision amount provided by the Parent Bank for credit risk**

The first and second stage provision amount provided by the Group for Stage 1 and Stage 2 credit risk is TL 11,803 (31 December 2022: TL 4,385).

(1) Items that cannot be distributed are not included.

(2) It represents the total risk amount before credit risk reduction and after conversion to credit.

5. Information on risk classes

*Assigned credit rating agencies and export credit agencies changed the names and the reasons for these organizations*

The international credit rating agency Islamic International Rating Agency and the risk classification issued by the OECD are used for receivables from central governments and central banks. The rating agency note is not used for domestic resident customers.

*With the export credit agency of a credit rating agency assigned to each risk classes are used*

The risk classes of the Islamic International Rating Agency are used for central government / central bank receivables and for resident customers abroad. The OECD published country risk classification is used for those with no rating

The Group does not use credit rating for the domestic resident customers and banks.

*If there is no credit rating for items not included in trading accounts but instead there is a credit rating for the issuer or issue, information on the process of using such credit ratings available for such items*

For the short term receivables that has been issued by banks and financial intermediaries that has not any short term rating, risk weight of the issuer is used in the context of related regulation.

INFORMATION ON THE FINANCIAL POSITION OF THE GROUP (Continued)

III. INFORMATION ON CONSOLIDATED FOREIGN CURRENCY EXCHANGE RATE RISK

**Whether the Group is exposed to foreign exchange risk, whether the effects of this situation are estimated, and whether the board of directors of the Bank sets limits for positions that are monitored daily**

The Group complies with net general position-shareholder’s equity limits. The Group has the possibility to borrow a significant amount of foreign currency.

Within the context of the market risk management work of the Risk Management Department, the Parent Bank’s Exchange rate risk is calculated and analyzed taking different dimensions of the issue in consideration. The Exchange rate risk is measured according to market risk calculated using the Standard Method and is included in the capital adequacy ratio. For testing effects of the unexpected exchange rate fluctuations on the Parent Bank monthly basis stress test analysis are done. In addition, by classifying the changes in risk factors different scenario analysis are done based on different exchange rate expectations. The sensitivity of assets, liabilities and off-balance sheets against exchange rate are measured by an analysis on a monthly basis.

**The magnitude of hedging foreign currency debt instruments and net foreign currency investments by using hedging derivatives**

The Group does not have any financial derivatives used for hedging.

**Foreign exchange risk management policy**

Transactions are being hedged according to the Central Bank of Turkey’s basket of currencies instantly. Manageable and measurable risks are taken in the scope of the regulatory limits.

**Foreign exchange buying rates of the last five business days before the balance sheet date as publicly announced by the Parent Bank, are as follows**

<b>Date</b>	<b>US Dollars</b>	<b>Euro</b>
22 December 2023	29.0897	31.8579
25 December 2023	29.1344	32.0726
26 December 2023	29.2108	32.1766
27 December 2023	29.2647	32.2421
28 December 2023	29.3374	32.4186
29 December 2023	29.3973	32.6937
Balance Sheet Valuation Rate	29.3973	32.6937

**The basic arithmetical average of the Parent Bank’s foreign exchange bid rate for the last thirty days**

The basic arithmetical average of the Bank’s foreign exchange bid rate for December 2023 is TL 29.0226 for USD, TL 31.6578 for EURO.

**INFORMATION ON THE FINANCIAL POSITION OF THE GROUP (Continued)**

**III. INFORMATION ON CONSOLIDATED FOREIGN CURRENCY EXCHANGE RATE RISK (Continued)**

**Exposed currency risk**

The possible increases or decreases in the shareholders’ equity and the profit/loss as per an assumption of devaluation/appreciation by 10 percent of TL against currencies mentioned below as of 31 December 2023 and 31 December 2022 are presented in the below table. The other variables, especially the interest rates, are assumed to be fixed in this analysis.

Assuming 10 percent appreciation of TL;

	Current Period		Prior Period	
	Profit and Loss Statement	Shareholders’ Equity <sup>(1)</sup>	Profit and Loss Statement	Shareholders’ Equity <sup>(1)</sup>
Euro	(4,442)	(5,763)	(1,816)	(4,860)
US Dollar	(4,792)	(6,977)	(451)	5,693
Other Currencies	(494)	(494)	(119)	25
<b>Total</b>	<b>(9,728)</b>	<b>(13,234)</b>	<b>(2,386)</b>	<b>858</b>

(1) The effect on shareholders’ equity also includes the effect on the profit/loss.

Assuming 10 percent depreciation of TL;

	Current Period		Prior Period	
	Profit and Loss Statement	Shareholders’ Equity <sup>(1)</sup>	Profit and Loss Statement	Shareholders’ Equity <sup>(1)</sup>
Euro	2,255	4,440	5,347	4,860
US Dollar	1,362	2,683	(4,712)	(5,693)
Other Currencies	494	494	(25)	(25)
<b>Total</b>	<b>4,111</b>	<b>7,617</b>	<b>610</b>	<b>(858)</b>

(1) The effect on shareholders’ equity also includes the effect on the profit/loss.

**IV. INFORMATION ON CONSOLIDATED INTEREST RATE RISK**

**Interest rate sensitivity of the assets, liabilities and off-balance sheet items**

Within the context of the market risk management of the Risk Management Department, the Parent Bank’s interest rate risk is calculated and analyzed taking different dimensions of the issue in consideration. The interest rate risk is measured according to market risk calculated using the standard method and is included in the capital adequacy ratio. To test the effect of the interest rate fluctuations on the Parent Bank monthly based stress test analysis are done.

In addition, by classifying the changes in risk factors different scenario analysis are done based on different interest rate expectations. The sensitivity of assets, liabilities and off-balance sheets against interest rate are measured by an analysis on a monthly basis.

**The expected effects of the fluctuations of market interest rates on the Parent Bank’s financial position and cash flows, the expectations for interest income, and the limits the board of directors has established on daily interest rates**

The early warning limit for the Securities Duration Risk/Total Assets ratio was set by the Board of Directors at a maximum of 10%, with a maximum limit of 12% and a maximum exception of 14%, and the early warning limit for the Interest Rate Risk arising from Banking Accounts/Total Equity ratio was set at a maximum of 17%, with a maximum limit of 18% and a maximum exception of 19%.

**INFORMATION ON THE FINANCIAL POSITION OF THE GROUP (Continued)**

**V. INFORMATION ON CONSOLIDATED STOCK POSITION RISK**

**Equity investment risk due from banking book**

The Parent Bank does not have equity investment risk due to subsidiary and securities issued capital which classified banking accounts are not traded on the stock exchange.

*Information on booking value, fair value and market value of equity investments*

None.

*Information on equity investments realized gains or losses, revaluation increases and unrealized gains or losses and these amounts including capital contribution.*

None.

*Breakdown of the amount of capital requirements on investments in related stock exchange basis, depending on the Credit Risk Standard Method or the capital requirement calculation method which bank has chosen out of allowed methods stated in the Communique Regarding Calculation of Credit Risk Amount on Internal Rating Based Approach.*

None.

**VI. INFORMATION ON CONSOLIDATED LIQUIDITY RISK MANAGEMENT**

**Information on liquidity risk management regarding risk capacity of the Parent Bank, responsibilities and structure of the liquidity risk management, reporting of the liquidity risk in the Bank, the way that sharing liquidity risk strategy, policy and implementations with the board of directors and job fields.**

Evaluation of capacity of liquidity risk position of the Parent Bank depends on current liquidity position, current and estimated asset quality, current and future income capacity, historical funding needs, estimated funding needs and decreasing funding needs or analysis of decrease in additional funding choices. One or more actions below are done to find funds in order to maintain liquidity needs.

- Disposal of the liquid assets
- Increase in short-term debt and/or additional short-term deposits and deposit-like resources,
- Decrease in moveable long term assets
- Increase in long term liabilities
- Increase in equity funds

Responsibility of the management of general liquidity belongs to Top Level Management, Treasury Department or Asset/Liability Committee (“ALCO”) which is consisting of Risk Management executives. Appropriate controls and balances are maintained in every condition.

Analysis of effects of various stress scenarios on the liquidity position and establishment of limits are crucial in order to establish effective liquidity risk management. Limits are determined according to the size of the Parent Bank, complexity of transactions and suitability of the financial conditions.

One of the important components of liquidity management is management information system which is created to offer information about the liquidity position of the Parent Bank to the Board of Directors, top level management and related appropriate personnel at the right time. Strong management information system is an integral part of the reliable decision making process of the liquidity.

One of the important aspects of liquidity management is making assumptions on prospective funding needs. Although final cash inflows and outflows can be easily calculated or estimated, the Parent Bank also makes short-term and long-term assumptions. Another important consideration is that the Parent Bank's reputation plays an important role in reaching the funds it needs in a reasonable amount of time.

Management also has an emergency plan to be implemented in the absence of accurate projections. An effective emergency planning consists of identifying minimum and maximum liquidity needs and weighting alternatives that will be used to meet these needs.

**INFORMATION ON THE FINANCIAL POSITION OF THE GROUP (Continued)**

**VI. INFORMATION ON CONSOLIDATED LIQUIDITY RISK MANAGEMENT (Continued)**

**The degree of centralization of liquidity management and funding strategy and information about the functioning between the Bank and its shareholders**

The Parent Bank is backed by well-established shareholders who are among the strongest financial institutions in Turkey and the MENA region. Libyan Foreign Bank, 100% owned by the Central Bank of Libya, is the largest shareholder of the Parent Bank. The share of funds obtained from the Parent Bank's risk group in liabilities is 11%.

**Information on the Bank's funding strategy including the policies regarding diversification of funding sources and periods**

The Parent Bank obtains its fund sources mainly from the parent Libyan Foreign Bank and its subsidiaries. These Funds are reliable sources which are ongoing for many years with renewing terms and expected to continue thereafter.

**Currencies constituting minimum five percent of the Bank's total liabilities**

The majority of the Parent Bank's liabilities consist of funds received from the main shareholder Libyan Foreign Bank and its related banks. 90% of these funds are denominated in USD and 9% in EUR.

**Information regarding to the liquidity risk mitigation techniques used**

The Parent Bank's liquidity risk mitigation techniques are retention of high-quality liquid assets on hand, provide maturity match between assets and liabilities and having the option to obtain funds from different banks in its risk groups.

**Information regarding to the usage of Stress Tests**

Stress tests are applied by changing the percentage of the parameters regarding to the liquidity ratio calculation. Subjected components, particularly high-quality liquid assets, including cash inflows and cash outflows are increased and decreased at various rates to measure the effects on the calculation. The test results provide guidance on liquidity management.

The Liquidity Emergency Action Plan prepared by the Parent Bank's Assets Liabilities Committee was presented to the Board of Directors and approved by Council Decision No. 316-A/6/18 at 5 October 2018. Decisions on the plan;

- Bank-specific crisis and general market crisis has been described,
- The decision of proportional and structural changes of assets and liabilities in the balance sheet is delegated to Assets and Liabilities Committee,
- Agreed that the Liquidity Dashboard which includes available and accessible liquidity sources of the Bank, asset sales, loan repayments and liquidity usage submitted periodically to Assets Liabilities Committee by the Treasury Department.
- Within the framework of an effective liquidity risk management of the Treasury Department, where necessary, acting jointly with other business units to avoid concentration of funding sources, following different funding options and current trends and reporting on costs is expressed,
- If necessary, making changes in the Emergency Action Plan and update it according to market conditions and balance sheet structure is delegated to Assets Liabilities Committee.

INFORMATION ON THE FINANCIAL POSITION OF THE GROUP (Continued)

VI. INFORMATION ON CONSOLIDATED LIQUIDITY RISK MANAGEMENT (Continued)

**Important factors affecting the liquidity coverage ratio results and the change over time of those items taken into account while calculating this ratio**

High-quality liquid assets and cash outflows are one of the most important factors affecting the calculation of the liquidity coverage ratio for Parent bank. A major portion of high-quality liquid assets of the Parent Bank are consisted of treasury bills and free deposits held in CBRT. High-quality liquid assets been on the rise throughout the year had a positive effect on the calculation of liquidity coverage ratio.

**Sections High-quality liquid assets comprised of**

High quality liquid assets consist of cash, cash equivalents, debt instruments issued by the CBRT and the Treasury and debt instruments with a credit rating or probability of default between A+ and BBB- or equivalent. The Bank's high quality liquid assets consist of 36% of CBRT accounts, 62% of debt instruments issued by the Treasury and 2% of cash and cash equivalents.

**Sections Funding sources comprised of and their densities within all funds**

A significant portion of fund resources is composed of deposits received. Deposits received account for 44% of total liabilities and 33% of these deposits are deposits received from banks.

**Information on cash outflows arising from derivative transactions and transactions that are subject to collateralization**

Cash outflows due to derivative contracts occur during periods when the bank's derivative liabilities exceed its derivative receivables. As at 31 December 2023, the net cash outflow from derivative transactions is none.

**Counterparty and product-based funding sources and concentration limits on collaterals**

A significant part of the funding sources are comprised of deposits received. 44% of the liability is deposits and 33% of these deposits are from banks. All of these liabilities are warrantless.

**Funding needs in terms of the Bank itself, foreign branches and consolidated subsidiaries taking into account operational and legal factors that inhibits the Bank's liquidity transfer and liquidity risk exposure**

The Parent Bank obtains funds essentially from main shareholder Libyan Foreign Bank and its subsidiaries. These reliable and ongoing funds are renewed at different maturities and expected to continue for many years.

**Other cash inflows and outflows that are included in liquidity coverage calculation but not included in the public disclosure template in the second paragraph and considered to be related with the Bank's liquidity profile**

None.

VII. EXPLANATIONS ON LEVERAGE RATIO

**Leverage Ratio**

Explanations on leverage ratio is calculated in accordance with the “Regulation on Equity of Banks” and “Regulation on Measurement and Assessment of Capital Adequacy of Banks” published in the Official Gazette numbered 28812, dated 5 November 2013.

**Information on subjects that causes difference in leverage ratio between current and prior periods**

The main difference between the current and prior period are capital and total risk amount. Additionally, Bank has no significant change in portfolio.

**An Extract Comparison Table of Total Risks Placed in Consolidated Financial Statements Coordinated in Accordance With TAS**

	Current Period	Prior Period
Total assets in consolidated financial statements prepared in accordance with Turkish Accounting Standards <sup>(1)</sup>	24,678	11,195
The difference between total assets prepared in accordance with Turkish Accounting Standards and total assets in consolidated financial statements prepared in accordance with the communiqué “Preparation of Consolidated Financial Statements”	-	-
The difference between the amounts of derivative financial instruments and credit derivatives in consolidated financial statements prepared in accordance with the communiqué “Preparation of Consolidated Financial Statements” and risk amounts of such instruments	320,611	-
The difference between the amounts of securities or commodity financing transactions in consolidated financial statements prepared in accordance with the communiqué “Preparation of Consolidated Financial Statements” and risk amounts of such instruments	4,891,368	4,016,004
The difference between the amounts of off-balance items in consolidated financial statements prepared in accordance with the communiqué “Preparation of Consolidated Financial Statements” and risk amounts of such items	522,925	147,023
Other differences between the amounts in consolidated financial statements prepared in accordance with the communiqué “Preparation of Consolidated Financial Statements” and risk amounts of such items	-	-
<b>Total Risk Amount</b>	<b>5,759,582</b>	<b>4,174,222</b>

(1) The related amounts are calculated from financial tables in the Consolidated Financial Statements prepared in accordance with BRSA Accounting and Financial Reporting Legislation.

Leverage ratio disclosure as follows:

	Balance sheet assets	Current Period <sup>(1)</sup>	Prior Period <sup>(1)</sup>
1	Balance sheet assets (Except for derivative financial instruments and credit derivatives, including warranties)	13,171,862	11,567,881
2	(Assets deducted from main capital)	(12,339)	(5,597)
3	Total risk amount of the balance sheet assets (Sum of 1st and 2nd rows)	13,159,523	11,562,283
	<b>Derivative financial instruments and credit derivatives</b>		
4	Replacement cost of derivative financial instruments and credit derivatives	-	-
5	Potential credit risk amount of derivative financial instruments and credit derivatives	-	-
6	Total risk amount of derivative financial instruments and credit derivatives (Sum of 4th and 5th rows)	-	-
	<b>Security or secured financing transactions</b>		
7	Risk amount of security or secured financing transactions (Except balance sheet)	-	9,609
8	Risk amount due to intermediated transactions	-	-
9	Total risk amount of security or secured financing transactions (Sum of 7th and 8th rows)	-	9,609
	<b>Off-balance sheet transactions</b>		
10	Gross nominal amount of off-balance sheet transactions	10,515,913	7,704,419
11	(Adjustment amount resulting from multiplying by credit conversion rates)	-	-
12	Risk amount of the off-balance sheet transactions (Sum of 10th and 11th rows)	10,515,913	7,704,419
	<b>Equity and total risk</b>		
13	Main capital	1,858,755	1,487,537
14	Total risk amount (Sum of 3th, 6th, 9th and 12th rows)	23,675,436	19,276,312
	<b>Leverage ratio</b>		
15	Leverage ratio	%8.05	7.74%

(1) Amounts in the table are obtained on the basis of three-month weighted average.

VIII. INFORMATION ON FAIR VALUES OF FINANCIAL ASSETS AND LIABILITIES

The fair value of the financial assets measured at amortised cost; in case of situations where market price or fair value cannot be determined; is calculated over the quoted market prices of other investment securities that are of the same interest, maturity and similar in other clauses.

The estimated fair value of the demand deposit represents the amount to be paid at the moment of demand. Placements of changing rates and the fair value of the overnight deposit equal to their book values. The fair value of the fixed yield deposit is calculated over the cash flows discounted using the market interest rates implicated on similar borrowing and other payables.

The estimated fair value of the loans is calculated over the cash flows discounted using the market interest rates implicated on the constant interest loans. The carrying values of floating-rate loans are deemed a reasonable proxy for their fair values.

In the table below; fair values and book values of some of the financial assets and liabilities are presented. The book value of the assets and liabilities is the total of the cost and accumulated interest accruals.

#### VIII. INFORMATION ON FAIR VALUES OF FINANCIAL ASSETS AND LIABILITIES (Continued)

##### Fair value hierarchy

The table below analyses financial instruments carried at fair value by valuation method. The different levels have been defined as follows:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities,  
 Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or,  
 Level 3: Inputs for the asset or liability that is not based on observable market data (unobservable inputs).

IX. TRANSACTIONS ON BEHALF AND ACCOUNT OF OTHERS AND FAITH-BASED TRANSACTIONS

*Information on whether Bank carries out trading, custody, consulting, management services for third parties*

The Bank does not carry out any other trading, custody, management and consulting services on behalf and account of others.

*Information on trust transactions with other financial institutions or direct financial services given within the context of trust transactions to other financial institutions and possible affects of such transactions on Bank’s financial situation*

The Bank does not have transactions based on trust.

**Main sources of differences between risk amounts and amounts in financial statements which are evaluated in accordance with TAS**

Risk Management process of the Bank passes through various stages; such as, defining, measuring, analyzing and pursuing risks, risk management policies and enactment of implementation principles and their realization, reporting, researching, conformity and auditing, within the frame of principles jointly fixed by the bank’s Risk Management Department, Audit Committee and High Level Management and approved by the Board of Directors.

The risk policy of the Bank is set out on the below mentioned principles.

- To be selective in risk taking.
- To define, measure, analyze and manage risks effectively.
- To secure the balance between the risk and return.
- To have adequate capital to cover existing and possible future risks.
- To have sound collaterals covering the existing and possible risks, and to follow up closely the sufficiency of the collaterals.
- To secure the appropriateness of risks to the defined limits.
- To keep under control the appropriateness of all kinds of operations to the approved policies and procedures.
- To supply the harmonization of the operations with the laws and regulations.
- To establish corporate risk culture within the Bank.
- To set out an effective reporting line and inform related management authorities on time to eliminate any kind of discrepancy.

The Bank defines, measures, analyzes and manages the risks involved in its operations and defines its risk management policies and application procedures on base of main risk categories on consolidated basis.

**INFORMATION ON THE FINANCIAL POSITION OF THE GROUP (Continued)**

**X. INFORMATION ON RISK MANAGEMENT (Continued)**

**Explanations regarding the differences between the risk amounts and amounts evaluated in accordance with TAS**

Related amounts are calculated by consolidated financial statements which are prepared in accordance with BRSA Accounting and Reporting Legislation.

**General qualitative information on credit risk**

The objective of the credit risk management is to maximize the risk-adjusted return of the bank by managing the risks in appropriate parameters that the bank may face. The credit risk management covers all types of credits and transactions and also considers the relationship of the credit risks with other risk types.

The widest and most visible sources of the credit risk are the loans extended by the Bank; however, there are also some other factors depending on the activities of the Bank. These stand on both banking books and accounts of on balance sheet and off balance sheet items. From day to day, banks face more credit risks not related to loans; for example different financial instruments like interbank transactions, acceptances, trade finance, foreign exchange transactions, swap transactions, bonds, options, futures, guarantees and commitments.

Effective applications related to the credit risk management cover especially the following fields;

- Clear definition of the responsibilities in credit risk management process,
- Effective functioning of the lending policy,
- Understanding the basic characteristics of credit risk,
- Making all related personnel aware of the credit risk management policies,
- Keeping appropriate credit risk measurement, review and follow-up functions,
- Setting limits for credit risk, periodically reviewing the limits and effectively controlling the risk-limit position,
- Analyzing the risk structure of a new instrument before using it,
- Having sufficient management reporting system,
- Providing sufficient audit and control function on credit risk,
- Separating credit utilization and marketing function,
- Evaluating credit risk on solo and consolidated basis.

Beside the standard credit risk in credit activities, also the risks related to the economic conditions in the country of the borrower should be considered.

Effective loan extension is based on the determination of a reliable and well-defined lending criterion. For the effective credit risk management, it is essential to have sufficient information that will enable the detailed evaluation of the real risk profile of the credit applicant.

The Bank’s credit risk amount is calculated by standard approach.

**Credit quality of assets**

	<b>Gross Carrying Values of TAS according to Consolidated Financial Statements</b>			<b>Net Values</b>
	<b>Defaulted exposures</b>	<b>Non-defaulted exposures</b>	<b>Allowances / impairments</b>	
1 Loans	3,451	15,774,520	14,716	15,763,255

**Qualitative disclosure related to counterparty credit risk**

This risk arises when a counterparty fails to fulfill its obligations. This is due to the refusal or inability of the counterparty to fulfill its obligations due to adverse price movements or unforeseen external conditions.

Counterparty Credit Risk is an important risk that causes credit risk for banks that perform money and capital market transactions. These transactions are listed below.

- Derivative Financial Instruments,
- Repo Transactions,
- Securities or Commodity Lending Transactions,
- Trades with Long Settlement Period,
- Overdraft Securities Transactions

Some of the characteristics of the CRR and credit risk are given below in comparison.

- Credit risk is one-way; only the lender is exposed to risk. ERR is two-way and both parties may suffer losses depending on the market value of the transaction.
- In credit risk, the amount of risk for the lender is always positive. In ERR, the value of the position created by the transaction can be positive or negative. Whichever party has a positive value of the position until maturity is the party exposed to risk.
- In any loan transaction, the loan principal is lent and collected at maturity along with interest. In transactions subject to ERR, it is possible to net mutual receivables and pay the remaining balance depending on the agreement to be made.

In credit risk, the amount of risk exposure is easily measurable, whereas in ERR, this amount is determined by the value of the asset subject to the transaction, the value of the collateral and market factors.

The Parent Bank uses the standard method for the calculation of counterparty credit risk amount.

The objective of market risk management is to maximize the Parent Bank's risk-related returns by effectively managing market risk using parameters appropriate to the size of the Parent Bank.

Market risk management consists of interest rate risk, currency risk, liquidity risk and counterparty credit risk arising from trading accounts and takes into account the relationship between these risks and other risks. Since the Parent Bank does not have a commodity and equity portfolio, it is not exposed to commodity risk and equity position risk.

The market risk management of the Bank is based on below mentioned principles.

- Clear definition of the responsibilities in market risk management process,
- Effective determination, functioning and monitoring of the treasury policy,
- Having standards for valuing positions and measuring performance,
- Understanding the basic characteristics of the risks in market risk category,
- Making all related personnel aware of the market risk management policies,
- Keeping appropriate market risk measurement, review and follow-up functions,
- Setting limits for market risk, periodically reviewing the limits and effectively monitoring the risk-limit position,
- Analyzing the risk structure of a new instrument before using it,
- Having contingency planning for crisis situations,
- Having effective management reporting system,
- Providing strong audit and control function on market risk,
- Separating Treasury Front Office and Treasury Back Office function,
- Evaluating market risk on solo and consolidated basis.
- Sound market risk management involves the application of four basic elements in the management of assets, liabilities and off-balance-sheet instruments:
- Appropriate board and high-level management oversight;
- Adequate risk management policies and procedures;
- Appropriate risk measurement, monitoring and control functions; and
- Comprehensive internal controls and independent audits.

INFORMATION ON THE FINANCIAL POSITION OF THE GROUP (Continued)

X. INFORMATION ON RISK MANAGEMENT (Continued)

Qualitative requirements for public disclosure regarding market risk (Continued)

The specific manner in which a bank applies these elements in managing its market risk will depend upon the complexity and nature of its holdings and activities as well as on the level of market risk exposure.

The market risk is managed in the Bank on portfolio level. In order to control the market risk exposure, the limits are used.

It is believed that having sufficient and correct information on a right time in a well-designed format is important for effective market risk management. The Board of Directors, High Level Management and ALCO should receive sufficient information on time to make decision about the treasury strategy of the Bank.

The Risk Management Department reviews the market risk level of the Bank periodically.

The market risk structure of the Bank and the harmony of the operations with the approved policies and limits are monitored and controlled by the internal audit and internal control functions of the Bank.

For the effective management of market risks, it is important to understand the basic characteristics of interest rate, foreign exchange and liquidity risks.

The Bank’s market risk amount is calculated by standard approach.

## INFORMATION ON THE FINANCIAL POSITION OF THE GROUP (Continued)

## X. INFORMATION ON RISK MANAGEMENT (Continued)

**Nature of interest rate risk resulting from banking book, major assumptions on early repayment of loans and movements in deposits other than term deposits and frequency of measuring interest rate risk**

The interest sensitivity of assets, liabilities and off balance-sheet items are evaluated regularly at the Asset-Liability Committee meetings considering also the market developments.

The measurement process of interest rate risk resulting from the banking book, is designed and managed by the Bank on a bank-only basis to include the interest rate positions defined as banking book by the Bank and to consider the relevant repricing and maturity data.

The present value and the net interest income are calculated over the cash flows of the sensitive assets and liability items by using the yield curves constructed by using the market interest rates.

The interest rate risk resulting from the banking book is measured legally as per the “Regulation on Measurement and Evaluation of Interest Rate Risk Resulting from the Banking Book as per Standard Shock Method” published in the Official Gazette no.28034 dated 23 August 2011, and the legal limit as per this measurement is monitored and reported monthly. The capital level is maintained considering the interest rate risk resulting from the banking book.

The interest rate risk on the interest-rate-sensitive financial instruments of the trading portfolio is evaluated as part of the market risk.

**Economic value differences resulted from interest rate instabilities calculated on a bank-only basis according to Regulation on Measurement and Evaluation of Interest Rate Risk Resulted from Banking Book as per Standard Shock Method****Current Period**

<sup>(1)</sup> General reserve amount requirements maintained at CBRT.

## Information on Reserve Deposits

Banks established in Turkey or operating in Turkey by opening branches are subject to the Central Bank of the Republic of Turkey's Communiqué No. 2013/15 on Reserve Requirements. The items specified in the Communiqué constitute the liabilities subject to reserve requirements, except for the liabilities to the Central Bank of the Republic of Turkey, the Treasury, domestic banks and the headquarters and branches of banks established by international agreements in Turkey, based on the accounting standards and recording system to which the banks are subject.

Banks establish reserve requirements at the Central Bank of the Republic of Turkey for the Turkish Lira and foreign currency liabilities specified in the aforementioned communiqué. The establishment of reserve requirements starts on the Friday two weeks following the liability calculation date and lasts for 14 days. Required reserves can be held at the Central Bank of the Republic of Turkey in Turkish Lira, USD, EUR and standard gold in accordance with the "Communiqué on Required Reserves". The reserve requirement ratios vary according to the maturity structure of the liabilities and are applied between 0% - 8% for Turkish Lira deposits and other liabilities and between 5% - 30% for foreign currency deposits and other liabilities.

## 5. Information on Loans (Continued)

*Information on accruals, valuation differences and related provisions calculated for non-performing loans for Banks which are providing expected credit loss according to TFRS 9*

None.

*Collection policy on loans determined as loss and other receivables*

Loans determined as loans and other receivables are collected via legal follow-up and conversion of guarantees to cash.

*Information on write-off policy*

The Group is in the effort to provide collections from loans under legal follow-up under the leadership of Corporate and Commercial Credits Monitor and Follow-up Department and Legal and Legislation Services Department and other related departments. However the absence of reasonable collection ability in any condition and manner regarding the recovery of the mentioned loans, determined as loss in which the bank monitors by allocate 100% provision under 5<sup>th</sup> group (3<sup>rd</sup> group in TFRS) in accordance with TFRS 9 and the “Regulation on Procedures and Principles Concerning Classification of Loans and Provision” are written-off by presenting to Board of Directors’ approval upon gathering the opinion of Legal and Legislation Services Department and by obtaining approvals from Corporate and Commercial Credits Monitor and Follow-up Department.

The write-off of the uncollectible receivables is an accounting policy, it does not result in the right to waive.

The Group does not have any receivables written off during the period in accordance with TFRS 9 (December 31, 2022: None).

## 9. Information on Shareholders’ Equity (Continued)

*Information on the privileges given to stocks representing the capital*

The share capital of the Parent Bank may be increased or decreased one or more times. Capital increase may be made by transferring money to the capital account and issuing new share certificates to the shareholders in proportion to their shares.

Each shareholder has the right to purchase the newly issued shares according to the ratio of his/her existing shares to the capital (pre-emptive right). This right may be exercised within thirty days following the date of the call to the shareholders. This call shall be made to the shareholders by sending registered letters to the addresses registered in the shareholders’ ledger.

The pre-emptive right may be transferred only if it is approved by the affirmative votes of 80% majority of the members of the Board of Directors. New share certificates may not be issued with values below the nominal value of the initial share certificates.

Fractional share certificates are allocated and distributed by the Board of Directors.

The Parent Bank may not, directly or indirectly, finance the purchase of its own shares.

Arab shareholders shall be treated as Turkish citizens under Turkish law. This guarantee includes, but is not limited to, the transfer of share dividends and other distributed earnings, and Arab shareholders similarly benefit from and are protected by the Foreign Capital Incentive Law No. 6224

*Gains (losses) due to revaluation and/or reclassification of financial assets measured at fair value through other comprehensive income*

## III. INFORMATION AND DISCLOSURES RELATED TO CONSOLIDATED OFF-BALANCE SHEETS

## 1. Information on contingent liabilities in the off-balance sheets

*Type and amount of irrevocable commitments*

The Group has TL 56,908 as irrevocable commitments (31 December 2022: TL 11,701).

*Type and amount of possible losses from off-balance sheet items*

As of the balance sheet date, the Group has allocated the provision amounting TL 19,498 over total non-cash loans (31 December 2022: TL 10,871).

*Guarantees, bills of exchange and acceptances and other letters of credit which can be counted as financial collateral*

The total amount of non-cash loans including guarantees, bills of exchange and acceptances and sureties on letters of credits and other guarantees is TL 3,230,471 (31 December 2022: TL 1,900,970).

*Final guarantees, temporary guarantees, commitments and similar transactions*

The total amount of the Group’s guarantee letters is TL 10,082,190 (31 December 2022: TL 5,927,930).

In accordance with the Council of Ministers' Decision dated 2011, the letters of guarantee given to Libya cannot be compensated. As per the BRSA's order dated 30 December 2019, The Memorandum of Understanding signed between the Government of the Republic of Turkey and the Government of National Accord of Libya has entered into force as of 24 September 2020. This agreement hereby has the force of law and the implementation and results of the provisions of this agreement are closely monitored by Turkish Banks transacting with Libya.

## 2. Total amount of non-cash loans

	Current Period	Prior Period
Non-Cash Loans granted for Cash Loan Assurance	1,542,085	359,406
Less Than or Equal to One Year with Original Maturity	55,163	44,876
